2. Minutes (Bober-Michel)

The minutes have not been posted.

3. Announcements (Ely)

Correspondence from President Hirshman

Ely: Students in ASB are trying to attend Committee meeting that mesh with their schedules. Corey Polant (AS VP of University Affairs) distributed a handout with the formal names of all Committees; he asked that Senators write in meeting times so that students can sign up.

Teaching Excellence Award: The Wang Family Award: was set up in 1998 (\$1 million); -- and expired about a decade later. Trustee Emeritus Wang has donated an additional \$300,000, which should be sufficient for 3 years of funding. Announcement about the Award is forthcoming.][Note: for more information (see call dated October 15, 2014.)

Trustee workgroup is focused on Student Success Fees (covering Category 2 funding as well). Members have set up an online forum to which anyone can contribute comments.

4. **Academic Affairs (Enwemeka)**

Enrollment Management

Our fall enrollments have met our projections.

Full-time equivalent (FTE) and Headcount

The fall 2014 total FTES is 29,815 with 29,136 FTES on the San Diego campus and 679 FTES on the Imperial Valley Calexico and Brawley campuses. The fall 2014 total resident FTES is 26,726. For the 2014-2015 year, we currently project that we will be 167 FTES or 0.6 percent above our 2014-2015 budgeted resident FTES target. The total fall 2014 headcount is 33,483 with 32,576 enrolled on the San Diego campus, 951 enrolled on the Imperial Valley Campus and 44 enrolled on both campuses.

Freshman Academic Profile

The academic preparation level of fall 2014 first-time freshmen increased to the highest level in SDSU history with the average high school grade point average on college preparatory courses at 3.69 and the average SAT score on the critical reading and mathematics sections of the SAT at 1115.

Undergraduate Diversity

First-time freshmen of color comprised 58.8 percent of resident first-time freshmen, while new transfer students of color comprised 57.1 percent of resident transfer students. The university's overall undergraduate percentage of students of color increased this fall to 54 percent from 53.3 percent in fall 2013.

Campaign for SDSU

\$520 million has been raised to support SDSU and the endowment is now at \$185 million. Over the first phase of the campaign, 48,000 individuals made gifts to support SDSU; 60% of those donors were first time supporters of the university. These donors made a total of 131,000 gifts.

Dean search for CAL (Wong retiring): The Search Committee will soon be set.

Faculty searches

Searches underway for 62 candidates (up from 57). Below is an overview of those "extra" five:

#1: Directorship of Corky McMillan Center in Business

#2: Associate Director for the Math Center

#3 and #4: Communications and ARPE (sudden/unexpected resignations to fill)

#5: Mechanical Engineering (relieve a bottleneck)

Discussion:

Putman: Asked for clarification about the # of positions funded with the Student Success Fee monies (35). **LaMaster** explained the process for determining which of the positions would

be SSF-funded and general Committee procedures; the goal was to meet or exceed specific conditions of the initiative.

Wheeler: asked about the additional five noted above. **LaMaster indicated** that these are not SSF-funded and weren't vetted by the Committee, but key data were consulted to determine the criticality of the positions.

Donadey: Questioned why the # of positions was so low given that we have the SSF and # funded last year when much monies were available to us. **Enwemeka:** Short answer—some money was used to eliminate the structural deficit – not for positions. In addition, some base funding from AY 2013/14 (one-time money) was used for the positions just hired. Thus, it's really the underlying funding making the difference; it may appear the hiring for AY 2013/14 and 2014/15 is the "same" but structurally it is not.

Wheeler: Commented that hiring is now VERY centralized; he would like see some power returned to the Deans, as it was before the recession.

Beyene: Questioned what funding will be available for next year (via SSF and other monies).

Enwemeka: Anticipates 25 from SSF in 15/16; the remainder will be determined by our ability to stay out of debt.

Toombs: Noted being very confused by all this. SSF is implemented in a specific way – so it's a challenge to see why we're not hiring substantively more people. **Enwemeka:** In actuality, we've borrowed against ourselves to ensure a stable hiring pattern – without odd spikes from year to year.

Esbenshade: Indicated being confused about the "role" of retirements since we no longer get to truly replace people when they do so. **Enwemeka:** It's about whole numbers, and we shouldn't be so focused on from where funding is derived. Funds are pooled as people retire. Them (as eluded to above, about \$5 million (over a three-year period) was used to retire the debt/deficit. Some money was dedicated for lecturers, etc. We need to get out of the pattern of hiring when we don't have \$\$.

Engineering and Interdisciplinary Sciences Building

The first Town Hall drew about 75 people.

Enwemeka briefly reviewed facilities funding @ SDSU and why it's critical to fund-raise for new buildings. It will take about \$90 million to build this structure—and carefully-planned fundraising will supplement whatever CSU capital monies we receive. It's a mistake to "count" on CSU-derived funds. The system relies on bonds for capital funding – always an iffy proposition.

Enwemeka: showed illustrations but they lack detail so it's a challenge to totally visualize the space.

The plan calls for a remodeling of Engineering and then some new buildings – allowing easy access from both Engineering and GMCS.

Enwemeka provided stats on the square footage, including assigned and teaching space. Some space still not assigned but there is no dearth of ideas about how it might be designated. A higher priority these days is space for collaborative activities (flexible, adaptable) rather than faculty offices, etc.

Wheeler: Asked how this building fits into our overall development plan? **Ely:** we can contact the Capital Development Committee and get an updated report?

Donadey: Ask about the timeline. **Enwemeka:** People decamped by the close of Spring 2015; buildings demolished by the end of Summer/beginning of Fall 2015. Some people will be temporarily moved to Adams Humanities. The labs need to be moved as well. Building begins in earnest then, at the close of Fall 2015. The tentative move-in date is January 2019. In sum, the plan is to have all financing in place within one year.

Verity: Expressed concern about moving and demo costs and whether or not they're built into the \$90 million. **Enwemeka** indicated that they are, but didn't have exact figures for either. He's calculating that demo will run \$3 to \$5 million, most of it covered by CSU. LaMaster and Welter co-chair the Operations group.

7.2 Constitution and Bylaws (Csomay)

Suzanne Finch, Chief Communications Officer, SDSU, College of Business Administration asked the Constitution and Bylaws Committee to review the proposal to add one more non-voting member to the Student Media Advisory Committee, and to correct the name for the Daily Aztec, which is now called Daily Aztec again.

Current Policy File Language:

Student Media Advisory Committee

1.0 Membership (17): Associated Students President or designee, Associated Students Vice President for Finance or designee, Associated Students Executive Director or designee (nonvoting), Aztec Editor (nonvoting), KCR Radio General Manager (nonvoting), University President designee, Student Affairs designee, University Relations and Development designee, Business and Financial Affairs designee, three faculty members, one from the faculty in Journalism; one staff member; four students.

2.0 Functions: The Student Media Advisory Committee shall be an advisory body to the University President on student-run media.

Suggested Changes (underlined):

Student Media Advisory Committee

1.0 Membership (18): Associated Students President or designee, Associated Students Vice President for Finance or designee, Associated Students Executive Director or designee (nonvoting), Daily Aztec Editor (nonvoting), Daily Aztec General Manager (nonvoting), KCR Radio General Manager (nonvoting), University President designee, Student Affairs designee,

University Relations and Development designee, Business and Financial Affairs designee, three faculty members, one from the faculty in Journalism; one staff member; four students.

2.0 Functions: The Student Media Advisory Committee shall be an advisory body to the University President on student-run media.

Rationale:

The paper is called Daily Aztec and not Aztec even though there was a temporary shift last year in the name. It is all sorted out now. The Daily Aztec General Manager is involved in the day-to-day operations of The Daily Aztec. They advise the Editor In Chief and the Advertising Director. They are closely involved in the development and management of The Daily Aztec budget and sales goals. We are requesting that this position be added as a non-voting member of SMAC due to the importance of this role and the valuable perspective they can add to this committee.

MP The Senate approved the Policy File changes regarding the Student Media Advisory Committee.

7.3 Faculty Honors and Awards (Valdes)

8. New Business: Consent Calendar (Committee Reports)

MSP To receive the reports on the Consent Calendar.

8.1 ASCSU (Wheeler)

Information:

This report digests the proceedings of the Plenary Session held in Long Beach, September 4-5, 2014. I have selected those items that seem of particular interest to the SDSU Senate. Full reports are available on request.

1. **Chancellor White** announced that the CSU is searching for a new VC for Academic and Student Affairs to replace Ephraim Smith, who will retire. He also informed that body that the CSU BOT has formed a Task Force on student success fees. The task force will be soliciting feedback from faculty and students on each campus.

2. The following **resolutions** were discussed and/or voted on:

- a. The body passed **AS-3191-14/FGA: Opposition to AB 46 (Pan) California State University: Online Education**. There was no first reading. The request for a waiver passed on grounds of timeliness.
- b. There was a first reading of **AS-3192-14/FA: Resolution on Improving Campus Response to Sexual Assault and Sexual Violence**.
- c. There was a first reading of **AS-3193-14/FA: Protecting the Academic Freedom of California State University Faculty Facing Harassment From Outside Political Pressure Groups**.
- d. The body passed a formal expression of its commendation, **AS-3190-14/APEP: Appreciation for the S.D. Bechtel, Jr. Foundation's Support of the California State University Efforts to Implement the California's Common Core State Standards and the Next Generation Science Standards**

These resolutions are not yet posted on the ASCSU website, but they are available from me upon request.

3. The Chair of the ASCSU **General Education Advisory Committee** (GEAC) reported, among other items, that four-year degrees at California Community Colleges will need a GE component. The hope is that the GE requirements include, as a subset, work that meets CSU GE and/or IGETC content. Upper division GE is not a requirement and decisions regarding GE for a CCC program are the domain of the CCCs.

4. The Chair of the ASCSU **Fiscal & Governmental Affairs Committee** updated the body on **implementation of SB 1440** (STAR Act). A few more TMCs have been approved by the CCC and CSU discipline faculty, bringing the total number of TMCs approved to 32. The list now includes:

Administration of Justice/Criminal Justice	Early Childhood Education (ECE)	Music
Agriculture Animal Sciences	Economics	Nutrition and Dietetics
Agriculture Business	Elementary Education	Philosophy
Agriculture Plant Sciences	English	Physics
Anthropology	Film/Television/Electronic Media	Political Science
Art History	Geography	Psychology
Business Administration	Geology	Sociology
Chemistry	History	Spanish
Child and Adolescent Development	Journalism	Studio Arts
Communication Studies	Kinesiology	Theatre
Computer Science	Mathematics	

TMCs in Biology and Public Health Science are nearing completion. Model Curricula in Engineering, Information and Communication Technologies, and Nursing have been created; these would give quality advising to transfer students in these disciplines but would not meet all of the explicit requirements of SB 1440. The Intersegmental Curriculum Workgroup is preparing a document that describes the goals of these model curricula. Whether the community colleges create Transfer AS degrees in these fields and the admission status of such degree holders remains to be defined. Still in development are TMCs in Environmental Science/Studies, Exercise Science, Graphic Arts/Design, Hospitality/Hotel Management and Social Work. Information about the TMCs can be found at <http://www.cid.net/degreereview.html>.

CSU Degree Matching

There are several ways to evaluate the success of the TMCs in linking CCC AA/S degrees to CSU Baccalaureate degrees. If you count CSU-to-CCC campus matches, there are 1525 as of the end of August. If you count CCC degrees-to-CSU degrees, the total is 27,740. Counting CCC degrees-to-CSU degree options, the total is 58,940. And all of those linkages are based on the 25 TMCs that the CCC campuses have been able to evaluate as of the end of last month.

American Institutions

None of the CSU campuses have requested a waiver of the American Institutions graduation requirement.

Course Articulations

The number of courses that must be reviewed by both CSU and CCC faculty in order to populate the T-AA/S degrees is considerable.

The chair also reported on the ASCSU Legislative Agenda, submitting the following tables which summarize the Legislative disposition of those bills on which the ASCSU took a position in March 2014 (AS-3165-14/FGA). He noted that, in some cases, the bill language changed dramatically over the course of the legislative process and what was in the final bill version is not necessarily what we saw when the bill was first introduced. The evolving history of any bill can be tracked at:

<http://leginfo.legislature.ca.gov/faces/billSearchClient.xhtml>

A final report on the disposition of the legislation after the Governor has acted will be made in October 2014.

Terminology:

N.P. = "No Position Taken"

Enrolled = Sent to the Governor

Chaptered = Signed into law by the Governor

5. The **ASCSU Faculty Trustee, Steven Stepanek**, reported that the Committee on Collective Bargaining heard public comment from individuals representing a cross section of CSU collective bargaining units regarding the need for salary increases. The Committee approved adoption of initial proposals for 2014-2015 salary re-opener negotiations with Bargaining Unit 4 (Academic Professionals of California).

The Trustee also reported that the Committee on Institutional Advancement approved **the naming of Basketball Performance Center at San Diego State University** as the Jeff Jacobs JAM Center. Four individuals made significant contributions to support basketball at SDSU, Jeff Jacobs was the primary contributor and “JAM” represents the letters of the last names of the three other contributors: Hal Jacobs, Steve Altman and Jim Morris.

The Chair discussed the joint meeting of the Committees on Finance and Campus Planning, Buildings and Grounds, Trustees were briefed on **the 2014-2015 State Funded Capital Outlay Program and capital financing authority**. In brief, by state legislative action, responsibility for debt service on State General Obligation (GO) and State Public Works Board (PWB) bonds issued to fund CSU projects has been shifted from the State to the CSU. One reason for taking this action is due to the CSU having a better credit rating than the State, which means we can refinance at a lower interest rate than the State can and the bonds can potentially receive a higher bond rating than if held by the State. To compensate for this debt service shift, the State is increasing the CSU General Fund support budget base by \$297 million for an indefinite period of time. The annual debt payments will vary on a yearly basis; during years when the CSU debt service is lower than this amount, the CSU will still receive the full amount. Because there are two upcoming periods when the annual debt payments will be higher than \$297 million, the Department of Finance is supporting that an additional \$20 million in annual General Funds be incrementally added to the \$297 million base increase over the next two years. Another benefit of this debt shift is that capital project submittal and approval process can be streamlined. Part of this finance legislation authorizes the State Fire Marshal to delegate to the CSU the enforcement of Building Standards related to fire and panic safety which should save the CSU approximately \$500,000 annually (mostly in travel expenses). As a result of this shift in financial debt responsibility, the Board of Trustees will be considering at its September 2014 meeting a proposed CSU policy on “Debt Program Structure” and revisions to the “CSU Policy for Financing Activities (RFIN 03-02-02)”. Draft language for the proposed changes to RFIN 03-02-02 was included as attachment A, Finance/CPBG-Item 1 in the July 2014 Board of Trustees meeting agenda packet. He noted that the Committee on Finance received an update on **State funding of the CSU**. The CSU had requested a \$237 million increase in support budget but received just \$142 million. There was excellent support from State legislators for the extra \$95 million but the Governor decided the base increase of \$142 million was sufficient. The proposal for spending \$237 million covered five major areas:

6. **VC for Academic and Student Affairs** Ephraim Smith announced that we have made good progress with **the Graduation Initiative**. We have not closed the achievement gap—although “all groups did improve” the gap remains the same.

In regard to **Early Start**, the first full summer is now almost completed. Just over 29,000 enrolled. No numbers as of this report. Data should be available in late October.

7. **CalState Online Initiative**: Sheila Thomas reported a shift from the initial and vague aims of the initiative to new emphasis on providing support to campuses for their online courses: (1) Campus choice of LMS. (2) Programs will be scheduled by campuses, without restrictions. (3) More flexibility for assessing fees, no restrictions. (4) Welcoming all sorts of online programs. (5) Slate of support services can tailored to the campus needs. (6) Creation

of CSU portal/website for projects and initiatives. (7) Organized under Academic Affairs, in the IT wing. (8) Campus based IT coordinator for online services. (9) The CalState Online portal will be revised.

8.2 Academic Policies and Planning (Schellenberg)

Information:

The following proposals were approved by APP during their 9 September meeting:

14-03 Dual Language and English Learner Education (Program name change): Change existing concentration name from policy studies in language and cross-cultural education to dual language and English learner education. Concentration name change coincides with departmental name change previously reviewed and approved.

8.3 California Faculty Association (Toombs)

Information:

CFA Report:

Bargaining update

CFA's Bargaining Team was back at the table with CSU negotiators Thursday and Friday, September 18 and 19, in Sacramento. The resumption in bargaining follows a brief hiatus marked by a Board of Trustees meeting. During this time, CFA Officers and Bargaining Team members have gone to the campuses for Bargaining Update Meetings where they laid out for faculty the issues that still need resolution in order to settle the faculty contract.

At the end of last week's bargaining meetings, no agreement was reached. The biggest issues are salary and workload. The contract is extended to September 30.

CFA contact information

Please feel free to contact our campus California Faculty Association office at any time if we can provide assistance, whether on a contract rights issue or other matter. Our campus CFA chapter has a Faculty Rights Committee, composed of faculty volunteers, and we are available to talk with faculty colleagues about individual situations and assist in resolving issues. We can be reached at cfa@mail.sdsu.edu or x42775.

8.4 Committees and Elections (Moore)

Information:

The Committee met on 10 September and discussed ways to establish a protocol for encouraging a democratic process in committee membership identification and selection at the college and university levels. A number of suggestions were made about democratizing the way nominations are made, widening the scope of applicant pools, and developing a

recruiting method that is inclusive, on the one hand, and yet recognizes institutional memory and talent on the other. A number of suggestions were made and committee members plan to follow up on them.

Paragraph 1 (*no change*)

Policy on English Competency for Students in the SDSU/UCSD Au.D. Joint Doctoral Program. The academic and clinical components of the Au.D. program are based on proficiency (understanding and use) of English, in oral and written forms. Incoming students will have an assessment of their English proficiency during an advising appointment in the first week of the program. This is accomplished through dialogue with the student and, if indicated, reading a short paragraph, and/or writing a short paragraph. For students who have problems with oral or written English proficiency, the adviser will arrange a meeting with the program director and clinic director to discuss a plan of action to improve English proficiency. In some cases, this may delay progress in the program.
