- 7.2.2. The quorum for faculty meetings shall be a simple majority, that is, 50 percent plus one of the faculty.
- 7.2.3. Meetings of the faculty may be called under these conditions: (a) upon the call of the President of the university, at which time the President shall preside; (b) upon the call of the Senate, at which time the Senate Chair shall preside; and (c) upon the call of the Senate Chair, for review of an action of the Senate.
- 7.2.4. The Senate Chair or Vice Chair shall obtain the consent of a majority of the members of the Senate Executive Committee prior to establishing the agenda for a meeting of the faculty that is called by the Senate or by the Senate Chair.

- 7.3. The conduct, frequency, and agendas of Senate committees shall be determined by those committees.

- 7.4. Senate business shall have priority over class scheduling. Senators' class schedules shall permit their attendance at Senate meetings from 2:00 to 5:30 PM on Tuesdays and Thursdays.

8.0 Order of Business (Agenda)

- 8.1. The regular order of business of the Senate shall be the agenda prepared by the Senate Executive Committee.
- 8.2. Any member of the Senate may present to the Secretary of the Senate items for the agenda. Resolutions, if not forwarded by a committee, have to be endorsed by at least 5 voting senators (endorses to be listed at the end of the text). The Secretary shall deliver all such items to the Executive Committee, which shall place them on the agenda for the next regular Senate meeting or refer them to a specific committee. Disposition of such items shall be indicated in the minutes of the Senate Executive Committee.
- 8.3. The senate agenda as approved by the Senate Executive Committee shall be made available in writing no later than four working days before a University Senate meeting.
- 8.4. Any senator may bring an information item on the approved agenda of the University Senate to the floor for debate. To move it to action a simple majority vote is needed.
- 8.5. Any member of the Senate may present an action item on the senate floor. A two-thirds majority vote is needed to place it on the agenda.

9.0 University Policy File

- 9.1. The Senate shall establish and maintain a University Policy File, containing the policies and regulations adopted by the Senate and approved by the President, and various references to executive orders and legislative codes.
- 9.2. The Secretary of the Senate shall review such additions and changes as are adopted by the Senate and approved by the President for the Policy File and shall reword or reorganize, without substantive change, such portions as are necessary to conform to the standard format of the Policy File. The Secretary of the Senate, with advice from the Committee on Constitution and Bylaws, shall ensure the accuracy of the Policy File.
- 9.3. Printed copies of the Policy File shall be distributed upon request to the Secretary of the Senate. A full copy of the Policy File shall be maintained on the Senate Website.
- 9.4. The language of the Policy File shall clearly and concisely describe or narrate prescriptive or prohibitive policies and procedures. It may include the purposes for policies or procedures but shall avoid histories, contexts, and motivations. "Shall" or "shall not" shall indicate prescription or prohibition; "may" shall indicate option or ability; "should" shall indicate advice or suggestion.

10.0 Parliamentary Procedure

- 10.1. All questions of parliamentary procedure not covered by these Bylaws shall be decided according to the latest edition of Robert's Rules of Order Newly Revised.
- 10.2. Unless objections are raised immediately following a Senate vote, the terms "unanimous" or "without dissent" may be used in the minutes when all votes are affirmative and in spite of abstentions.

11.0 Presidential Approval of Senate Actions

- 11.1. Official minutes of Senate meetings shall be available and delivered to the President within two weeks after Senate meetings. Within 30 days of the conclusion of a Senate meeting, the President may approve or reject the recommendation or may postpone a decision. A Senate action approved by the President shall become official university policy at the time the President approves the action and shall be implemented as soon as is practical, which may precede its appearance in the university policy file.
- 11.2. The Chair of the Senate shall ensure that the President is informed promptly by suitable means of Senate actions that would require implementation in fewer than 30 days after Senate action, in order that such legislation not be unduly delayed.

12.0 Interpretation of Senate Actions

Interpretations made by the Committee on Constitution and Bylaws shall be reported in writing to the Senate and shall be considered binding unless reversed or altered by action of the Senate. Such interpretations shall be considered binding on the

university only after they have been approved by the President.

13.0 Availability of Documents and Records

- 13.1. All agendas, minutes, reports, other attachments, and action memos of all regular and special Senate and Senate Standing Committees shall be posted on the senate website. These posted documents shall be available to any member of the university community and other CSU senates and counsels upon request.
- 13.2. Confidential material shall be redacted or omitted from posted materials, but the agenda item in which confidential material is addressed shall be included in the table of contents and minutes.
- 13.3. The policy file shall be linked on the senate website.

14.0 Amendments

Amendments to these Bylaws may be adopted at a regular business meeting of the Senate by a two-thirds vote of those present, provided the amendments have been presented at the previous meeting.

UNIVERSITY POLICIES: Academics

Absence from Class, Student

1.0 Absence from First Class Meeting

If a student who is enrolled in a course does not attend the first class meeting of the semester or session and is not present at the start of the second meeting, the course instructor may request an administrative drop for nonattendance with the approval of the College Dean or designee(s). Instructors must be able to provide attendance records.

2.0 Absence for Official University Events and Activities

Official university events and activities such as inter collegiate athletics, fine arts performances, forensics, and other academic competitions supported by the university require participation by students as official members of groups. Responsibilities shall be as follows:

- 2.1. Sponsoring Departments or Programs: A sponsor of an official university event or activity shall provide each student participant with a memorandum regarding specific absences from classes. The memorandum shall be given to the student's instructors within the first two weeks of classes. If scheduling changes occur, the sponsor shall provide the student with a revised memorandum to be given to instructors.
- 2.2. Student Participants: Within the first two weeks of classes, a student who expects to be part of an official university event or activity shall notify the instructors of affected courses. At that time, the student shall request accommodation for any missed examinations or other assignments. If scheduling changes occur, the student shall immediately notify the instructors.
- 2.3. Instructors: When possible, the instructor shall reasonably accommodate the student's required absence from class. An instructor who believes that the anticipated absences would preclude successful completion of the course or would seriously affect the student's grade shall inform the student by the end of the second week of classes.

3.0 Absence for Religious Observances

- 3.1. The university is committed to supporting students who wish to practice their religious beliefs.³ Students anticipating an absence or missed coursework due to religious observances should provide reasonable advance notice to their instructor for the purposes of identifying and developing an appropriate accommodation.⁴
- 3.2. Instructors shall reasonably accommodate students who notify them in advance of planned absences for religious observances.

Advising, Undergraduate Academic

1.0 Mission and Purpose

Academic advising engages students in a dynamic relationship to support their growth and development as they seek to earn their degree. SDSU academic advisors help students:

- Identify and mobilize a community of support (including faculty, staff, students, and family);
- Envision a positive future and make a four-year plan to reach that vision;
- Grow in their capacity to navigate the University and the challenges of college life;
- Become well-informed about campus processes, policies, resources, and requirements.

2.0 Coordination

- 2.1. The Associate Vice President for Faculty Advancement and Student Success shall lead in consultation with the Associate Vice President and Dean of Students and the Associate Vice President for Enrollment Services a coordinated

campus approach to advising, including:

- a) Dissemination of information (e.g., General Education requirements, academic deadlines),
- b) Preparation and updating of written statements (e.g., Catalog and Class Schedule) describing those academic requirements, regulations, and policies applicable to all students,
- c) Identification of academic policy matters and their referral to the Undergraduate Council for consideration, and to prepare action for The Senate,
- d) Systematic consultation with Student Affairs regarding implementation of,
- e) Assessment of campus advising activities for the purpose of program development, change, and improvement, including general navigational and developmental advising essential to student sin transition or in special populations,
- f) Support of technological innovation to support advising services,
- g) Recognition of outstanding academic advisers, and
- h) Advising-related training and support.

2.2. Academic advising shall take place in three major venues:

- a) First-year and specific population (including, for example, EOP, Athletics, Health Professions) coordinated care advising to be provided by assigned advisors as determined by the Associate Vice President for Faculty Advancement and Student Success and the Dean of Students;
- b) College and department or school academic advising for students in the relevant major fields involving assistant deans, faculty and staff advisors, and informal contacts with faculty members in the major department or school, with Faculty Advancement and Student Success providing support for undeclared students;
- c) Office of Evaluations advising for students seeking assistance with technical questions relevant to transfer credit, evaluation and for undergraduate students seeking to qualify for graduation.

3.0 Academic Advising Council

An Academic Advising Council will be formed and directed by the designee of the Associate Vice President for Faculty Advancement and Student Success, to promote best practices and ensure campus coordination and alignment for undergraduate academic advising initiatives. This council will consist of one representative from each academic college, and one representative from other advising departments (e.g. Office of Evaluations, Athletics, Global Campus, Imperial Valley Campus, and each advising unit in Student Affairs and Campus Diversity). Members will help provide feedback and support for campus advising initiatives and monitor advisor training compliance and assessment of advising outcomes.

4.0 Undergraduate Advisers

Colleges shall develop academic advising structures to support majors and minors. Academic unit-based advisors (a) shall provide clear, current, and accurate course and program information, including department or school policies and procedures and specific graduation requirements for the major and minor, (b) shall assist with course selection, (c) shall suggest career options and opportunities for further study, and (d) refer to other campus offices for specialty support including the Career Services Center, the Office of Financial Aid and Scholarships, Student Ability Success Center, Counseling & Psychological Services, etc. The adviser shall also make judgments on petitions for adjustment of academic requirements in the major or minor and shall maintain liaison with the Office of Evaluations and the evaluators assigned to the major. Credential or certificate programs may bring additional advising responsibilities. Other faculty members throughout the university may assist in advising through individual student conferences on educationally related concerns.

5.0 Student Affairs offices may provide various aspects of academic advising. Student Affairs advisors and counselors, therefore, may provide services related to employment, financial aid, disability-related accommodations, careers, personal, and related nonacademic concerns. These offices shall cooperate with the Associate Vice President for Faculty Advancement and Student

Success, Enrollment Services, and department or school advisers throughout the university to ensure that information is current and accurate.

Assessment

- 1.0 Faculty shall be responsible to their students, colleagues, and the community for providing competent and ever improving instruction and programmatic quality. The purpose of assessing Degree Learning Outcomes shall be to identify opportunities to improve teaching, learning, and academic advising at the individual, course, programmatic, and institutional level.
- 2.0 In order to assess the extent to which students are achieving their Degree Learning Outcomes, San Diego State University shall be committed to systematic evaluation of instructional programs. Such evaluation shall extend both to broad interdisciplinary programs such as General Education and to degree-related programs within specific disciplines and departments or schools. The university shall encourage department and school faculties to engage in assessment research related to teaching and learning, and to disseminate such efforts through scholarly peer-reviewed venues.
- 3.0 Evidence of student achievement with respect to assessment shall not be used to evaluate individual faculty members or to publicly compare departments, schools, or institutions. Where assessment evidence is presented within lecturer evaluations or faculty retention, tenure, and promotion process, the evaluative focus shall be on the approach that the instructor has taken to demonstrate where students are with respect to desired outcomes and the evidence-based pedagogical and curricular actions undertaken to improve student achievement.
- 4.0 Assessment of student learning shall:
 - a) Be used directly by disciplinary faculty to (a) articulate educational outcomes, (b) develop assessment methodologies to evaluate student achievement with regard to these outcomes, (c) undertake curricular planning, revision, and improvement;
 - b) Be characterized by an approach that embraces multiple methods in order to provide valid information for improving academic programs;
 - c) Be driven by the faculty, who shall have the primary responsibility for deciding how to assess, that is, how to design, select, and administer assessment methods, to interpret the results, and determine how the data shall be used to improve programs;
 - d) Be part of strategic planning efforts that include consideration of sufficient resources to carry out the plan;
 - e) Facilitate discussion of and agreement upon common principles across disciplines in programs such as General Education and identify or develop assessment mechanisms to evaluate student performance;
 - f) Articulate programmatic and instructional goals and expectations and make these public to students and the general public;
 - g) Open new areas of discussion with community colleges for coordinated assessment and curricular planning to improve student access and retention;
 - h) Be reported within the established university-wide relational database (i.e., WEAVE Online);
 - i) Be an integral component of the Academic Program Review process for departments, schools, and programs.
- 5.0 In addition to its primary roles of improving program effectiveness and promoting student achievement, data collected for academic assessment purposes may also be published or otherwise publicly disseminated as the scholarship of teaching and learning. If the data obtained in an assessment process are intended for eventual public dissemination, for example—in the form of journal publications or conference presentations—then the data protocol shall have received prior approval through San Diego State University’s Human Research Protection Program. Interested faculty should consult with their college representative on the Student Learning Outcomes and Program Assessment Committee and the Human Research Protection Program staff for more information.
- 6.0 **Student Support Services:** Student outcomes assessment of co curricular activities, which are integral to student learning, shall be necessary for a complete picture of students’ campus experience. These activities may involve the library,

academic advising, counseling and career planning, housing, financial aid services, extracurricular activities, health services, and campus climate.

Calendar

Each Fall (or earlier, if possible), the Associate Vice President for Faculty Advancement and Student Success (in consultation with appropriate campus officers) shall prepare the Academic Calendar for the following year, referencing a) guidelines established by the State of California and b) an approved set of rules, principles, and algorithms to create it; the Calendar shall then be presented to the Senate as an Information item.

However, the Calendar shall be presented for review to the Committee on Academic Policy and Planning for any year in which there are special circumstances that call for deviation from the approved rules, principles and algorithms; the Committee's report shall then be forwarded to the Senate for approval and recommendation to the President.

Cheating and Plagiarism

- 1.0** Institutions of higher education are founded to impart knowledge, seek truth, and encourage one's development for the good of society. University students shall thus be intellectually and morally obliged to pursue their course of studies with honesty and integrity. Therefore, in preparing and submitting materials for academic courses and in taking examinations, a student shall not yield to cheating or plagiarism, which violate both academic and student disciplinary standards.

2.0 Definitions

- 2.1. Cheating shall be defined as the act of obtaining or attempting to obtain credit for academic work by the use of dishonest, deceptive, or fraudulent means. Examples of cheating include, but are not limited to (a) copying, in part or in whole, from another's test or other examination; (b) discussing answers or ideas relating to the answers on a test or other examination without the permission of the instructor; (c) obtaining copies of a test, an examination, or other course material without the permission of the instructor; (d) using notes, cheat sheets, or other devices considered inappropriate under the prescribed testing condition; (e) collaborating with another or others in work to be presented without the permission of the instructor; (f) falsifying records, laboratory work, or other course data; (g) submitting work previously presented in another course, if contrary to the rules of the course; (h) altering or interfering with the grading procedures; (i) plagiarizing, as defined; and (j) knowingly and intentionally assisting another student in any of the above.
- 2.2. Plagiarism shall be defined as the act of incorporating ideas, words, or specific substance of another, whether purchased, borrowed, or otherwise obtained, and submitting same to the university as one's own work to fulfill academic requirements without giving credit to the appropriate source. Plagiarism shall include but not be limited to (a) submitting work, either in part or in whole, completed by another; (b) omitting footnotes for ideas, statements, facts, or conclusions that belong to another; (c) omitting quotation marks when quoting directly from another, whether it be a paragraph, sentence, or part thereof; (d) close and lengthy paraphrasing of the writings of another; (e) submitting another person's artistic works, such as musical compositions, photographs, paintings, drawings, or sculptures; and (f) submitting as one's own work papers purchased from research companies.

3.0 Academic and Disciplinary Sanctions

Cheating and plagiarism in connection with the academic program at the university may warrant two separate and distinct courses of disciplinary action that may be applied concurrently in response to a violation of this policy: (a) academic sanctions, such as grade modifications; and (b) disciplinary sanctions, such as probation, suspension, or expulsion. Academic sanctions are concerned with the student's grades and are the responsibility of the instructor involved. Disciplinary sanctions are concerned with the student's records and status on campus and shall be the responsibility of the university President or designated representative. The Coordinator of Judiciary Procedures shall be the President's representative in matters of student discipline

4.0 Due Process in Review of Alleged Violations

- 4.1. Disciplinary Sanctions: Only the university President or designated representative shall be authorized to exercise disciplinary authority over students and in so doing shall be mandated to accord students all the elements of "due

process.” The steps set forth in the Executive Order 1098-Revised (2015) related to student conduct procedures shall be followed in the delineation of these matters.

4.2. Academic Sanctions

- 4.2.1. The instructor involved shall be expected to determine the type of academic sanction for cheating or plagiarism. Usually, “grade modification” shall be used; however, grade modification shall not be considered punishment and shall be used only if the instructor is satisfied that cheating or plagiarism did occur. The grade modification shall be left to the discretion of the instructor. Grade modification may include (a) a zero or F on the paper, project, or examination, (b) a reduction in one letter grade (e.g., C to D in the course), or (c) an F in the course. In addition to grade modification, certain departments or schools may have policies that state that cheating can show unsuitability for the program or profession. Students should be made aware of the penalties for cheating and of their appeal rights.
- 4.2.2. Furthermore, before applying grade modification, the instructor should advise the student of the alleged violation and should have reasonable evidence to sustain that allegation. Reasonable evidence, such as documentary evidence or personal observation or both, shall be necessary for the allegation to be upheld.
- 4.3. When a student is accused of cheating or plagiarism, the instructor should arrange an informal office conference with the student and at that time advise the student of the allegation as well as the evidence supporting it. The purpose of the office conference shall be to bring together the persons involved to discuss the situation informally and to decide upon an appropriate solution. If more than one student is involved in the incident, the instructor may call the students together to confer as a group if the students so desire. All notes and discussions between the student and instructor shall be confidential, except as may be relevant in subsequent campus disciplinary proceedings or subsequent legal action.

5.0 Disciplinary Record

In order to coordinate information so as to permit appropriate disciplinary action for first-time and repeat offenders, instructors shall contact the Center for Student Rights and Responsibilities (<http://csrr.sdsu.edu/>) to submit the required reports. Instructors should describe violations of this policy according to the requirements stated in Executive Order 1098-Revised (2015) related to student conduct procedures.

- 6.0 For additional discussion of professional responsibilities of faculty with respect to plagiarism, see University Policies: Faculty, Professional Responsibilities.

2.0 Proficiency in Writing⁵

- 2.1. San Diego State University students shall demonstrate proficiency in writing skills as a requirement for graduation. Such skills shall incorporate basic rules of good writing, subject to the argument, format, logical development, demonstration of evidence, and style appropriate to various disciplines. Furthermore, departments and schools should insist upon effective expression in their courses and should stress the need for improving substandard writing.
- 2.2. Certification of Upper Division Writing Proficiency: Students shall enroll in one intensive upper division writing course (W) or two disciplinary writing courses (DW).
 - a) Completion of an approved writing course(s) with a minimum grade of C or Cr shall mean the student has met the Certification of Upper Division Writing Proficiency.

Students in majors that will exceed the 120 unit cap and are graduating in AY 22-23 can request a waiver to the Upper Division Writing requirement.

Course Prerequisites

- 1.0 Prerequisites for each course shall be stated in the Catalog course description. Students shall complete a course prerequisite or its equivalent before registering for the course. Only those prerequisites listed in the course catalog shall be enforced. Instructors may not add additional course prerequisites or require entrance examinations for course admission.
- 2.0 Each department or school shall review its courses and submit proposals to reaffirm, modify, or delete existing prerequisites or to add new prerequisites according to the following guidelines:
 - 2.1. Departments and schools shall clarify upon what basis the consent of the instructor is to be given if such consent is a course prerequisite.
 - 2.2. Departments and schools shall be aware that upper division and senior standing are determined solely on total number of units completed. Such standing shall not guarantee that prior coursework has been completed in the discipline.
 - 2.3. Departments and schools shall devise systems for monitoring the enforcement of their own prerequisites, such as requiring students to sign a statement indicating where and when prerequisites were completed and what grade was received.
 - 2.4. Departments and schools may use “strongly recommended” or “recommended” instead of “prerequisite.”
 - 2.5. Students with a continuous enrollment record shall retain catalog rights with respect to prerequisites. Prerequisites added to a course in subsequent catalog years shall not be imposed on students with prior catalog rights.
- 3.0 Faculty may request to drop a student from a class if the student fails to meet listed prerequisite requirements. Faculty-initiated drops have to be verified by the College Dean or designee(s) before students are dropped.

Courses, Credit/No Credit Undergraduate

Only those courses designated in the General Catalog as being offered only for credit/no credit shall be approved for implementation.

Courses, Cross-Listed

- 1.0 Cross listed courses are defined as courses that are offered two or more academic units, have identical course elements (title, description, units, mode of instruction; prerequisites and number, unless one of the academic units has already used that number for another course then the next closest number should be used) except the course prefix which reflects the academic department or program; are interchangeable for degree requirements; cannot be repeated for degree credit under separate prefixes; may be scheduled with the same instructor, room, and meeting pattern; may be scheduled with all, some, or one of the course prefixes.
- 2.0 Process for approving a cross-listed course: If the course is an approved course in the catalog and additional department(s) want to cross-list the course, use a "Course Modification" form and get signatures from all participating department chairs and college deans. Forward the signed Course Modification form to the Curriculum Committee as an information item and to the Office of Enrollment Services.

If the course has never been taught, approval for a new cross-listed course shall follow the campus curriculum guidelines associated with a new course proposal.
- 3.0 **Criteria**
 - 3.1. A cross-listed course shall have the same title, number, unless one of the academic units has already used that number for another course, prerequisites, description, unit value, and grading method in its description as listed

in every unit.

- 3.2. Catalog and course schedule listings shall indicate that the course is cross-listed. Materials presented to students, such as syllabi and course descriptions, shall also indicate that the course is cross-listed.
- 3.3. The academic units shall agree that students may take the course under any of its listings to fulfill an academic unit's requirements.

Courses, Experimental and Interdisciplinary Limited-Duration

(Numbered 296, 496, 580, and 596, and General Studies 250, 350, 550)

- 1.0 The 496 number shall designate defined, selected topics not specifically treated in regular Catalog courses. It may thus be used either as an experimental precursor to a new course proposal or as a vehicle to explore current interests through a standard course format, including syllabus, texts of bibliography, explicit procedure or methodology, and an appropriate student population. Unlike the 499 Special Studies course, the topics course should be subjected to a reasonable department or school review for need, relevance, and substance in order to pass a series of reviews before being included in the Class Schedule.
- 2.0 **Residence Courses:** Proposals for experimental and interdisciplinary limited-duration courses shall follow the same procedure as regular undergraduate curricular proposals but with the following exceptions:
 - 2.1. Proposals shall not be constrained by General Catalog and committee deadlines for regular course proposals; they shall be dealt with on demand and shall be completely processed during one semester for implementation the next semester.
 - 2.2. Proposals may go concurrently to the college curricular screening body, the dean of the college, and the Associate Vice President for Enrollment or designee. The process shall conclude with the Undergraduate Topics Subcommittee, which shall report to the Undergraduate Curriculum Committee, which in turn shall report to the Senate.
- 3.0 **Extension Courses:** Proposals for experimental and interdisciplinary limited-duration courses offered for academic credit by Global Campus shall be reviewed by the Undergraduate Topics Subcommittee, which shall report to the Curriculum Committee, which shall report to the Senate.

Courses: Hours and Preparation

- 1.0 A course shall meet for the required number of hours and shall offer an opportunity to prepare, to study, and to cogitate for the required hours, as stated in the General Catalog.
- 2.0 A unit credit hour shall represent 50 minutes of lecture or recitation combined with two hours of preparation per week throughout one semester of 15 weeks. Two credit hours of activity (e.g., in Exercise and Nutritional Sciences) or three credit hours of laboratory (e.g., in Physics) shall be considered equivalent to one credit hour of lecture.
- 3.0 A course offered in a term of less than 15 weeks shall contain the same contact hours, preparation time, content, and requirements as the same course offered over a 15-week semester.
- 4.0 The approval of the department, school, or program and of the college dean shall be required to schedule all short-term or weekend courses.
- 5.0 One-unit courses scheduled on consecutive days shall not be scheduled for less than four consecutive calendar days.

Courses Not Offered in Two Years, Undergraduate

- 1.0 Each year the Associate Vice President for Enrollment or designee (or other administrative officer who shall coordinate the curricular process) shall identify the courses not offered during the past two years and shall inform each department or school that failure to offer the courses within the next academic year shall subject the courses to

deletion from the Catalog. A course not offered during that third year shall be deleted by the Office of Curriculum, Assessment, and Accreditation.

2.0 Reinstatement of Deleted Courses: For up to three years after the deletion of an undergraduate course by the Undergraduate Curriculum Committee the course (same number, title, credit, units, prerequisites, Catalog description) may be reinstated.

- 2.1. The academic department, school, or program shall forward to the dean of the college a completed Course Reinstatement form.
- 2.2. If the dean approves the request, the form shall be forwarded to the Office of the Provost for inclusion in the next General Catalog; however, a reinstated course may be listed in the Class Schedule and taught prior to the publication of that catalog.
- 2.3. The department, school, or program shall teach the reinstated course within two semesters of the submission of the Course Reinstatement form. Failure to do so shall result in a second deletion of the course from the curriculum; courses thus deleted shall be restored to the curriculum only through the process to approve new courses.

Courses Rejected by the Curriculum Committee

Courses rejected by the Curriculum Committee shall not be offered under special topics numbers or otherwise included in the schedule of classes unless specifically authorized by the Provost, who shall report such action to the Undergraduate Curriculum Committee.

Courses, Special Study

- 1.0 A course numbered 299, 499, or 599 signifies a well-defined, one-of-a-kind, special study usually on a topic or in an area not covered by a regular, titled Catalog course. It may be offered only with the consent of the instructor and is intended only for a student who has demonstrated ability to work independently and who is clearly qualified to work at an advanced level in the discipline. The instructor shall meet with the student regularly and by schedule to plan, monitor, and direct progress. Standard grading procedures shall apply as in all other university courses. The maximum credit for 299, 499, and 599 courses applicable toward a bachelor's degree shall be nine units.
- 2.0 A 499 number shall not be used (a) to offer lower division coursework, (b) to extend internships, (c) to award academic credit in place of pay, (d) for work experience, (e) for class-sized groups.

Courses, Undergraduate Collaborative

- 1.0 Collaborative courses shall be developed collaboratively under two or more rubrics by two or more academic units responsible for course development (typically departments, schools, or interdisciplinary programs). Collaborative courses shall be listed among the courses of each collaborative unit.
- 2.0 Approval for collaborative courses at the 100- through 500-level shall rest with the Undergraduate Curriculum Committee. Approval for a collaborative course shall be considered only after the course itself, whether new or revised, has been approved for content in the normal process as presented on a New Course Proposal form. Approval as a collaborative course requires that the collaborative process be described under which the course was developed and that all units participating in the collaboration agree to the conditions of the collaboration. In addition, the units shall agree that, if the course is not team taught, the instructor shall be knowledgeable in all of the content areas.
- 3.0 **Conditions of Collaboration**
 - 3.1. Each collaborative unit shall agree to any change in course title, number, prerequisites, description, unit value, content, or grading method. If a collaborative unit disagrees to a proposed change, no change shall be made. If a unit withdraws from a collaboration, the course shall be deleted, and each unit shall formally reapply by the new course proposal process to teach that material, even if the unit taught that material before

the collaboration.

- 3.2. If a collaborative course is acceptable for General Education, the following General Education policies apply:
 - a) A student shall not receive more than 12 units of GE credit from an academic unit, including collaborative courses offered therein.
 - b) A student shall not receive more than seven units of GE credit in GE sections II, III, and IV from an academic unit, including collaborative courses offered therein. Courses in a student's major unit or collaborative courses listed therein shall not be used in section IV (Explorations).

4.0 Criteria

- 4.1. A collaborative course shall have the same title, number, prerequisites, description, unit value, and grading method in its description as listed in every collaborative unit.
- 4.2. Experimental topics courses, General Studies 250 and 350, and variable title and variable unit courses shall not be collaborative courses.
- 4.3. Catalog and course schedule listings shall indicate that the course is collaborative. Materials presented to students, such as syllabi and course descriptions, shall also indicate that the course is collaborative.
- 4.4. The collaborating units shall jointly maintain responsibility for course content.
- 4.5. The collaborative units shall agree to the special conditions above. If the course is offered for General Education credit, the collaborative units shall agree to the special conditions on collaborative General Education courses above.
- 4.6. The collaborative units shall agree that students may take the course under any of its listings to fulfill an academic unit's requirements.

Credit by Examination

- 1.0 Credit by examination shall be restricted to students who are regularly enrolled (matriculated), not on probation, and enrolled in at least one regular course. Credit/no credit shall be applied only to regular undergraduate courses and shall be limited to 30 units. Credit by examination obtained through credit/no credit shall be limited by the usual restrictions on credit/no credit grading to 15 total units. Credit by examination shall not be treated as part of the student's study load, but the student shall pay for additional units if costs exceed fees already paid.

2.0 To obtain credit by examination:

- 2.1. The student shall register during the change-of-program period in an actual course for which credit by examination is being requested. Credit by examination units shall not be counted toward full- time enrollment. The student shall be registered in at least one other course.
- 2.2. Before taking an examination, the student shall obtain on the appropriate special form, available through the Office of the Registrar or the department or school office, the permission of the chair or director of the department or school offering the examination and of the dean of the appropriate college to enroll in the course and to take it for credit by examination as the grading option.
- 2.3. After department or school approval has been obtained, the Office of the Registrar shall verify the student's enrollment and probation status and shall add the course to the student's record. The grading option of credit by examination shall be so indicated on the system at that time and shall be reflected in reports such as enrollment confirmations, class lists, and grade sheets.
- 2.4. The student shall take the examination and be evaluated by the department or school. The grade may be submitted by the department or school to the Office of the Registrar either immediately or on the regular grade

sheet for the course at the end of the semester or session

3.0 Department or school policies shall be subject to the following:

- 3.1. A department or school may exclude any of its courses from credit by examination, or it may prevent a student from obtaining credit by examination in a course that is a prerequisite to a course the student has taken or is currently taking.
- 3.2. In a course a department or school may require credit/no credit grading only for credit by examination.
- 3.3. If a student takes an examination, a grade, if only “no credit,” shall be entered on the student’s transcript.
- 3.4. A department or school may develop its own procedures regarding a student who signs up for credit by examination and then either elects not to take the examination or fails the examination; however, the department or school shall inform the student of its policy.

Credits Earned by High School Students

- 1.0 Upon recommendation by their counselor, principal, or the coordinator of a gifted students program, students who have completed their junior year of high school and are of exceptional academic ability and achievement may apply for admission to the SDSU Summer Session program. Credits earned during the summer shall be placed on a permanent record by the Office of the Registrar and may be applied toward a degree at San Diego State University. Registration in a particular course shall be subject to the approval of the instructor.
- 2.0 International Baccalaureate Program: Students who have completed the requirements for the International Baccalaureate Diploma may be admitted to San Diego State University. Course credit for specified courses or advanced placement for specified test scores may be awarded at the discretion of appropriate departments or schools.

Credit for Academically Related Work Experience

- 1.0 Academic credit may be granted for academically related work experience supervised and evaluated by a faculty member in accordance with university policies and standards.
- 2.0 Academically related work experience shall be defined as practical experience, paid or unpaid, that the sponsoring faculty member considers likely to contribute directly to a student’s academic and professional growth. Outside the structure of courses specifically designed to facilitate such experience, academic credit related to work experience shall be awarded only for satisfactory completion of clearly articulated academic requirements agreed upon in advance by the student and the sponsoring professor and duly approved and recorded in compliance with department or school policy.

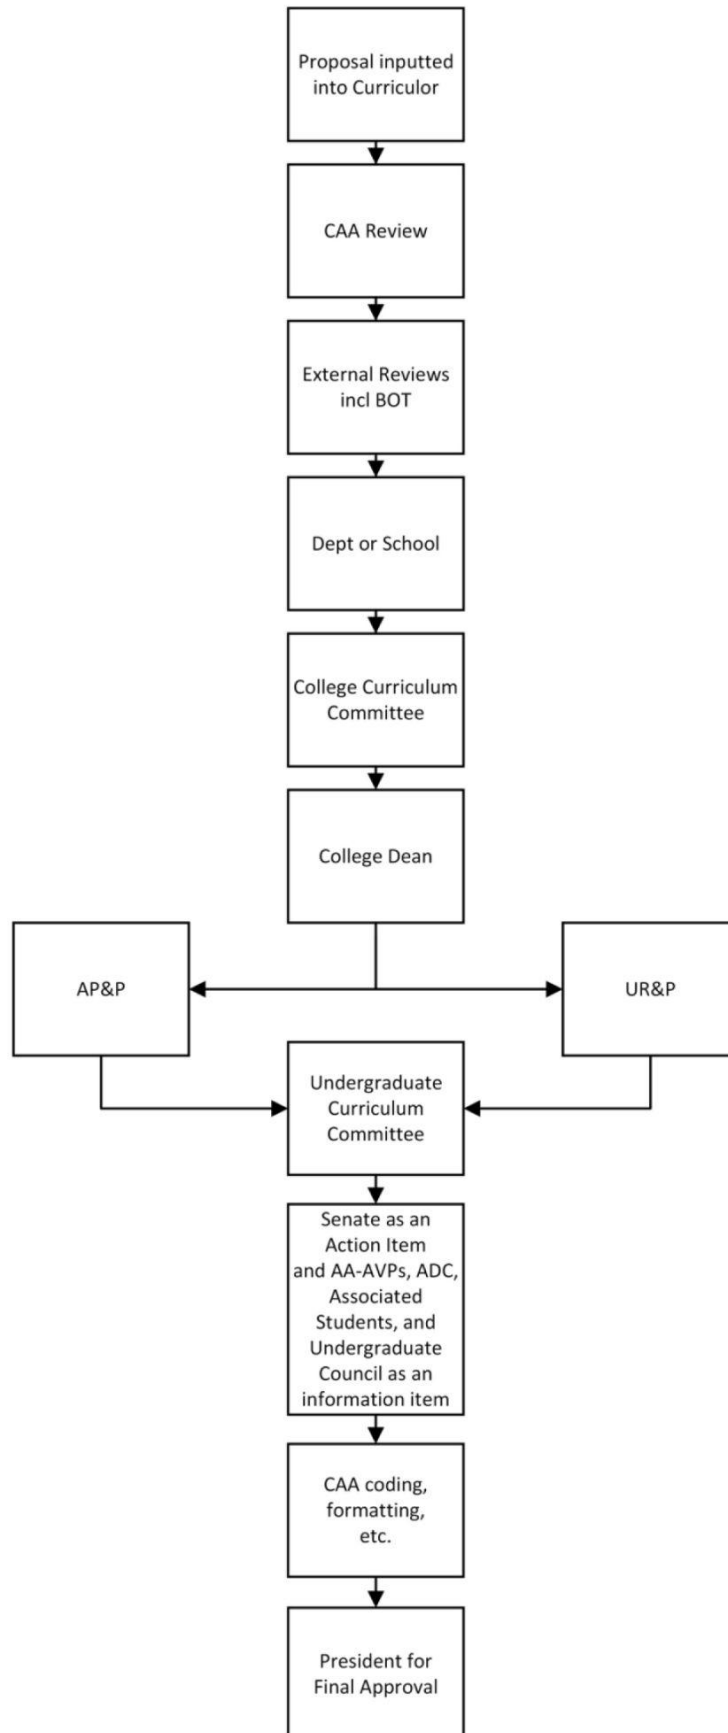

Curriculum Changes, Undergraduate and Graduate⁶

- 1.0 Initiation:** Proposals for changes in the curriculum may originate from faculty, departments or schools, deans, college curriculum committees, or the Undergraduate Curriculum Committee.
 - 1.1. The Office of Curriculum, Assessment, and Accreditation shall provide assistance in the preparation of proposals.
 - 1.2. A schedule of deadlines for submission of curricular proposals from the colleges to the Office of Curriculum, Assessment, and Accreditation shall be established and published annually in the Curriculum Guide. Colleges may establish internal deadlines if they so desire.
- 2.0 The Office of Curriculum, Assessment, and Accreditation Review (CAA):** Proposals shall be reviewed for proper format, content, and elements that might conflict with existing policy, regulations, administrative code, or with other agencies within the university. The Office of Curriculum, Assessment, and Accreditation shall also be responsible for ensuring external review of proposals are done in a timely manner. This includes review by the CSU Board of Trustees, WSCUC, and the CSU Chancellor's Office as appropriate.
- 3.0 College Review:** Each college shall develop and file in the Office of the Provost procedures for review of curricular proposals, including department or school-level review. Every proposal should be reviewed by the College Curriculum Committee following the procedures outlined by the College. Review should be concerned with the academic merit of the proposal and its relationship to the academic program of other departments or schools and the college as a whole.
- 4.0 Approval by the dean of the College:** In general, every curricular proposal shall be submitted to the dean of the college concerned for approval or disapproval. The dean should announce a decision within 10 academic workdays. The dean's approval shall be based on the determination that the proposal is consistent with plans for the long-run development of the college, that all budget needs of the proposal (teaching positions, space, equipment, supplies, staff, etc.) have been considered carefully, and that the dean is prepared to give the needs of the program high priority in the college's budget.
- 5.0** When the final form is acceptable to the college, dean, and the department or school, the curriculum proposal, depending on the type of proposal, shall be forwarded by Curriculum Services using the following workflow:
 - 5.1. New Undergraduate Degree Proposals**
 - 5.1.1. After Intent forms have been submitted and approved by the Board of Trustees as appropriate (for new programs only), requests for new degree programs, new minors, emphases, options, basic certificates, and concentrations not in the Academic Master Plan shall be sent concurrently to the Committee on Academic Policy and Planning to be considered for inclusion in the Academic Master Plan and to the Committee on Academic University Resources and Planning to be evaluated for resource implications.

⁶ The following was approved as a temporary policy / process that will expire after the AY23-24 year: 1. After consultation with the Department/School Curriculum Committee and faculty, Chair/Director or chair/director's designee initiates the program elevation form in Curriculog. This shall include a plan for deactivation of the existing concentration or specialization and a teach-out plan for the remaining students. Curriculum services will submit a Subchange Screening Form for WSCUC on behalf of the department. 2. The Elevation proposal is evaluated by the College Curriculum Committee to ensure that the degree requirements and other Catalog items are exactly the same as the original concentration or specialization. 3. The Dean evaluates the proposal to ensure that adequate resources are available within the college to support the elevation. Since all these programs already exist and are being offered, the Dean should ensure that separation of the concentration or specialization into its own degree does not cause complications with advising. 4. Elevations approved by the College and Dean that do not include any other curriculum changes are forwarded to SEC and the Senate for approval. 5. Approved proposals for elevation are forwarded to the Chancellor's Office. 6. Once the Chancellor's Office approves of the elevation, the program will be forwarded to CAL State Apply for inclusion in the application process.

- 5.1.2. Proposals approved by APP and URP shall be routed to the Undergraduate Curriculum Committee for approval.
- 5.1.3. Proposals approved by the Undergraduate Curriculum Committee shall be sent to the Senate as an action item and to the AA-AVPs, Academic Deans Council, Undergraduate Council, and Associated Students as information items. Proposals approved by the Senate shall be sent to the President for final approval. Once approved, the Office of Curriculum, Assessment, and Accreditation will work with the Chancellor's Office, CAL State Apply, and the Registrar's Office to prepare the programs for admissions.

Proposals approved by the Senate shall be sent to the President for final approval. Once finalized, the Office of Curriculum, Assessment, and Accreditation will notify the Chancellor's Office and other external bodies.

Dean's List

- 1.0 Computation for the Dean's List shall be based on a minimum of 12 units of credit, each carrying a letter grade. Students shall be placed on the Dean's List if they receive a grade point average of 3.50 or above for the given semester. The computation of the grade point averages for the semester shall be made within six weeks after the end of the semester to permit students to convert incomplete (I) grades to letter grades in time to be included in the computations.
- 2.0 "Dean" shall refer to the dean of each line college. The Associate Vice President for Faculty Advancement and Student Success shall recognize undeclared majors and special majors; the Dean of the College of Education shall recognize Liberal Studies majors.
- 3.0 A student's transcript shall indicate each inclusion on the Dean's List.

Degree Program Discontinuation

1.0 Procedures

- 1.1. Proposals for the discontinuation of degree programs may be initiated by departments or schools, faculty members, college or university committees, or administrative officers of the University. Proposals shall specify mechanisms to protect the interests of students enrolled in such programs and, if possible, to allow the students to complete their degrees in a reasonable time. Proposals shall include a declaration of intent to effect (a) a degree program discontinuation or (b) the discontinuation of degree program with department or school dissolution. Proposals shall address employment options, informed by the applicable Collective Bargaining Agreement (CBA), for the affected tenured and probationary faculty and for permanent staff.

 - 1.5.4. Approved proposals shall be forwarded to the President for final action.

2.0 Dissolution of a Department or School: If a proposal for degree program discontinuation implies the dissolution of a department or school, this procedure shall be followed:

- 2.1. Proposals for the discontinuation of degree programs may be initiated by departments or schools, faculty members, college and university committees, or administrative officers of the university. Proposals shall specify means to protect the interests of students enrolled in the programs and, if possible, to allow those students to complete their degrees in a reasonable time. Proposals for degree program discontinuation shall include a declaration of intent to effect (a) a degree program discontinuation or (b) the discontinuation of degree program with department dissolution. If the dean or deans determine that the proposal has no merit, this recommendation together with the original proposal shall be forwarded to the Provost. If the dean or deans determine that the proposal does have merit, the dean or deans shall form a special ad hoc committee to give the matter full and serious consideration. The ad hoc committee shall have at least five members, at least two of whom shall be department chairs or school directors with one chair or director drawn from an uninvolved college.
- 2.4. The ad hoc committee shall report its recommendations to the dean and the executive committee (or equivalent) of the colleges involved, and the dean shall subsequently transmit final recommendations to the Provost who shall in turn convey the recommendations with comments to the Committee on Academic Policy and Planning.
- 2.5. The Committee on Academic Policy and Planning shall seek broad consultation with groups or persons likely to be affected by the degree program discontinuation, including enrolled students in the affected degree program. The Committee shall forward its recommendations regarding deletions or transfer of programs to the Undergraduate Curriculum Committee for review. The Committee on Academic Policy and Planning shall

present its recommendation regarding dissolution of a department or school to the Senate as an action item concurrent with the Undergraduate Curriculum Committee report on the deletion or transfer of programs.

- 2.6. The Undergraduate Curriculum Committee shall present its recommendations regarding the deletion or transfer of programs to the Senate as an action item.
- 2.7. Approved proposals shall be forwarded to the President for final action.

Degree Revocation

- 1.0 The University's award of academic credit and Degrees constitutes its formal certification of student achievement. However, a Degree may be awarded to a Student in error, or as a result of fraud, misrepresentation, or other intentional or unintentional actions. In order to preserve the integrity and academic standards of Degrees granted, San Diego State University (hereafter the University) may exercise the right to revoke a previously conferred Degree as set forth in the following procedure. The authority to revoke a Degree resides with the President. The President hereby delegates that authority to the Provost.

2.0 Definitions

- 2.1. *Advisor*: An Advisor is someone who may accompany the Student at the Degree revocation hearing. The Advisor's role is limited to consulting and providing support, and may not speak for, or on behalf of, the Student. The Advisor may not be an attorney.
- 2.2. *Clear and convincing evidence*: Evidence of such convincing force that it demonstrates, in contrast to the opposing evidence, a high probability of the truth of the fact(s) for which it is offered as proof. Such evidence requires a higher standard of proof than proof "by a preponderance of the evidence" but a lower standard than required for proof "beyond a reasonable doubt."
- 2.3. *Degree*: Degree includes any form of academic Degree, credential, certificate, or professional designation or other award (e.g., Honors designation) conferred by the University, or any of its colleges, departments or units, including Global Campus.
- 2.4. *Registrar*: Registrar refers to the management personnel in the Office of the Registrar at the University.
- 2.5. *Notice of Intent to Revoke Degree*: Notice of Intent to Revoke Degree is the written notice issued to a Student possessing a Degree the University intends to revoke under the terms of this policy.
- 2.6. *Student*: The term Student may refer to any current or former student, including those enrolled through Global Campus.
- 2.7. *Hearing Officer*: The Hearing Officer referred to herein shall be a person selected by the Provost in consultation with the Associate Vice President for Administration. The Hearing Officer shall be a University faculty member or administrator who has relevant experience, or who shall have received appropriate training, regarding this policy and procedure as well as the standards associated with the granting of the Degree at issue in the proceedings. Student conduct administrators and their subordinates, persons with a conflict of interest in the matter, and perceived witnesses giving rise to the matter are ineligible to serve as Hearing Officers. If a conflict of interest or other cause prevents the selection of a Hearing Officer employed by the University, a Hearing Officer who is a faculty member or administrator at another CSU campus shall be asked to serve as a Hearing Officer.
- 2.8. *Timelines*: The University may, but is not required to, extend timelines set forth herein. Extensions shall be determined by the Provost or designee. The Provost or designee shall promptly and in writing notify the Student and any University administrators involved of any revised timeline.

3.0 Basis for Revocation

- 3.1. A Degree may be revoked by the University if: 1) upon examination of a Student's record, it is determined that the requirements for the Degree awarded as established by the California Code of Regulations, Title 5, were not

met; or 2) information comes to light that, if known at the time the Degree was awarded, would have resulted in a determination that the Degree should not be conferred. The bases for a Degree revocation include, but are not limited to, the following:

- 3.2. Academic misconduct by Students, faculty, staff, or administrators, including fabrication, falsification, plagiarism, or fraud.
- 3.3. Unauthorized altering of information on a Student record (including in an official University student information system).
- 3.4. Error(s) by administrators, faculty, staff, or Students that resulted in the awarding of the Degree that would not have been awarded otherwise.
- 3.5. Other violations of the University's Student Conduct Code that are of such a nature that had the misconduct been discovered prior to the issuance of the Degree, it would have resulted in the suspension or expulsion of the Student from the University.

4.0 Investigation

- 4.1. When information comes to light that places into question the validity of a previously conferred Degree, it shall be referred to the Provost through the Dean of the college from which the Degree in question was granted.
- 4.2. Upon receipt of such information, the Provost or designee shall conduct an initial review of the information and determine whether such information is credible and whether, if established as true, the evidence would justify the revocation of a Degree.
- 4.3. If the Provost determines that the information is credible and, if established, would justify the revocation of a Degree, the Provost shall select an investigation committee of faculty and/or administrators. Members of the investigation committee shall be selected according to expertise as it pertains to the details of the case. The investigation shall be completed within sixty (60) calendar days, and the investigation committee shall present a report of findings with regards to the information examined and a recommendation as to whether the investigation establishes by clear and convincing evidence that the Degree should be revoked.
- 4.4. The Provost shall review the report and, if appropriate, may ask the General Counsel and/or other University personnel to investigate any other information relevant to whether the Degree should be revoked. If the Provost determines that there is sufficient information to make a determination as to whether to issue a "Notice of Intent to Revoke Degree" ("Notice"), the Provost or designee shall issue the Notice to the Student possessing the Degree in question. If the Provost determines that there is insufficient evidence to justify a revocation, no further action shall be taken and the Degree shall stand.

5.0 Process When Notice of Intent to Revoke Degree is Issued

- 5.1. The Notice shall advise the Student that the University has clear and convincing evidence that justifies the revocation of the Student's Degree pursuant to this policy. The Notice shall identify the Degree and year it was awarded and describe the evidence upon which the Notice is based in sufficient detail to allow the Student to respond to the Notice. A copy of this policy shall also accompany the Notice. The Notice shall state that if the Student decides to contest the revocation, the Student shall, within thirty (30) calendar days of receipt of the Notice, make a written request to the Provost for a hearing. The Notice shall also state that if the Student requests a hearing, the Student shall prepare a written response to the Notice ("Response") stating whether the Student disputes the information set forth in the Notice and/or the University's conclusion that the Degree should be revoked, as well as the specific evidence and reasons upon which the Student bases such dispute or conclusion.
- 5.2. The Notice shall be sent by certified mail, personal or overnight delivery, to the last known mailing or contact address for the Student. If possible, the Notice shall also be sent concurrently via email. The Student's written request for a hearing and Response shall be sent to the Provost via certified mail within the thirty (30) day period set forth in Paragraph 5.1. Absent good cause to be determined by the University, the failure to timely request a hearing and submit a Response shall result in the University revoking the Degree as set forth in Paragraph 5.4.

- 5.3. The thirty (30) calendar day period within which the Student may request a hearing shall commence as of the date of receipt by the Student as reflected on the written confirmation received by the University that the Student received the Notice. This confirmation can be a document signed by the person who delivered the Notice indicating that the Student was given the Notice; a receipt signed by the Student acknowledging receipt of the Notice by certified mail; a signed acknowledgement by the Student acknowledging receipt of the overnight mail containing the Notice; or other proof of actual receipt by the Student, such as email delivery confirmation.
- 5.4. If the University receives confirmation pursuant to Paragraph 5.3 and the Student does not request a hearing, the University may revoke the Degree without further proceedings. If the University does not obtain appropriate confirmation, it may nevertheless proceed with revocation in accordance with Paragraph 5.11 of this policy.
- 5.5. If the Student requests a hearing, the Provost or designee shall use reasonable efforts to schedule such hearing no sooner than thirty (30) and no later than sixty (60) calendar days after the Student notifies the University of the request for a hearing. The Student shall be provided with a written notice of the scheduled hearing date and location no later than fourteen (14) days prior to the hearing.
- 5.6. The Student shall be entitled to review the evidence that supports the University's Notice and may request a copy of such evidence at a cost not to exceed that provided under the California Information Practices Act (Civil Code section 1798 et. seq.). The Student and the Provost, or a designee, shall exchange a list of witnesses to be called at the hearing no later than fourteen (14) calendar days prior to the hearing. At the Student's written request, the University shall send a "notice to appear" to any University employee-witness at her or his University-assigned email address. If, after this deadline, the Student and/or the University wish to supplement their witness list, they shall request permission from the Hearing Officer to do so.
- 5.7. The Student may be accompanied at the hearing by an Advisor, who may neither speak for, nor on behalf of, the Student. The Advisor may not be an attorney.
- 5.8. The hearing shall take place before a Hearing Officer selected by the Provost in consultation with General Counsel. The Provost or designee shall represent the University.
- 5.9. Subject to Paragraph 5.6 of this policy, the Student and the University shall be allowed to introduce evidence and call witnesses to testify at the hearing. The formal rules of evidence applied in courtroom proceedings do not apply in the hearing. All information that responsible persons are accustomed to rely upon in the conduct of serious affairs is considered, although unduly repetitive information may be excluded. The Hearing Officer controls the proceedings.
- 5.10. If, after requesting a hearing, the Student fails to appear at the hearing without good cause, the hearing shall proceed and the Hearing Officer shall render a decision based on the evidence submitted by the University and the Student's written response. The Hearing Officer shall weigh the evidence presented and shall draw no inferences from the Student's absence from the hearing.
- 5.11. If, despite its own due diligence, the University receives no confirmation that the Student received the Notice, or is unable to locate the Student to provide the Notice, the University may nonetheless seek revocation of the Degree. The University shall schedule a hearing within sixty (60) calendar days of the date of the Notice that shall proceed in the absence of the Student. The Hearing Officer shall consider the evidence presented by the University at the hearing and shall determine whether there is sufficient evidence to revoke the Student's Degree pursuant to this policy. The Hearing Officer shall draw no inferences from the Student's absence from the hearing.
- 5.12. The Hearing Officer shall consider and weigh the evidence and shall prepare written findings concerning whether there is clear and convincing evidence to revoke the Degree. If the Hearing Officer finds that the evidence establishes that the Degree should be revoked, the Hearing Officer shall also consider whether the Student should be permitted to complete the requirements for the revoked Degree after some sanction (if appropriate) is applied. Sanctions may include, but are not limited to, a ban from enrollment for some period of time or a loss of catalog year rights. The Hearing Officer shall submit such written findings and any appropriate recommendations to the Provost no later than thirty (30) calendar days after the hearing.

- 5.13. The Hearing Officer may consider and recommend alternative remedies to revocation.
- 5.14. The Provost shall prepare a decision letter that accepts the Hearing Officer's recommendation, adopts a different result, or refers the matter back to the Hearing Officer for further findings on enumerated issues. The decision letter shall be issued within fifteen (15) calendar days of the Hearing Officer's recommendation. Any decision letter that refers the matter back to the Hearing Officer shall include timelines for the Hearing Officer's supplemental findings/recommendations as well as the subsequent supplemental decision letter.
- 5.15. If a Degree is revoked in accordance with Paragraph 5.11 (University unable to locate Student), a Student who later learns of the revocation and wishes to contest it may request a rehearing of the matter in writing. The Student shall provide clear and convincing evidence to the Provost that the Student did not receive any advance notice (either in writing or verbally) of the University's intent to revoke the Student's Degree through no fault of the Student. The decision to grant or deny a rehearing shall be made by the Provost and shall be final. The decision shall be made within sixty (60) calendar days of receipt of the request and provided to the Student in writing. If a rehearing is granted by the Provost, a new Hearing Officer shall be assigned to hear the matter.
- 5.16. The Provost or designee may direct the Registrar to place an administrative hold on the issuance of any official transcript for a student to whom a Notice of Intent to Revoke Degree has been sent. The student will be able to request and access unofficial transcripts under the same conditions as any other student.
- 5.17. Nothing in this policy shall be construed to prevent the Provost from agreeing to an informal resolution of the matter with a Student in lieu of, or after, a hearing.

6.0 Post-Revocation Steps

- 6.1. If a Degree is revoked pursuant to Paragraph 5.4 (Student does not request a hearing), 5.11 (University unable to locate Student), or 5.12 (after hearing), then the following actions shall take place:
 - 6.1.1. The Registrar shall ensure that all relevant records of the University relating to the Student are promptly amended to reflect the Degree revocation;
 - 6.1.2. The Registrar shall note the effective date of the revocation on the Student's transcript and use reasonable efforts to transmit a copy of the official (revised) transcript to the Student; and
 - 6.1.3. The Provost or designee shall use reasonable efforts to notify the Student that the Student is no longer entitled to represent to any person that he or she is the recipient of the revoked Degree and that the Student should take appropriate steps to notify all former and current employers, relevant educational institutions, professional registration bodies or associations, or others as applicable that the Degree has been revoked. If, despite its own due diligence, the University is unable to provide this notice to the Student due to an inability to contact or locate the Student, the University shall place a hold on the Student's records until such time as it is able to provide such notice. If at the time of the revocation the Student is enrolled at the University, the Provost or designee shall promptly notify the Vice President for Student Affairs and Campus Diversity of the revocation so that the Vice President of Student Affairs and Campus Diversity can consider whether to take any steps pursuant to Executive Order 1073 (2012) and any other applicable policies.

Enrollment Management and Impaction

- 1.0 As part of The California State University, San Diego State University shall be committed to providing qualified students with the greatest possible access to excellent higher education and lifelong learning. Accordingly, the university shall continue to search for innovative ways to provide access with available funding.
- 2.0 Selection criteria shall allow the university to enhance, not compromise, the diversity reflected by our enrollment. Diversity shall remain an important concern of the University.
- 3.0 Enrollment management strategies shall evolve with the consultation of various constituencies, so that the use of selection criteria or other techniques shall not distort the current array and balance of programs.

- 4.0 Changes in the proportions among lower division, upper division, and graduate division students as well as among majors and professional programs shall be a fundamental policy question. Changes in the relative growth of these populations shall be deliberative, consultative policy decisions.
- 5.0 Enrollment management shall take into account and increase where appropriate the impact on the ratio of tenured and probationary faculty to lecturers insofar as it affects faculty responsibilities in teaching, advising, professional growth, shared governance, and curriculum development. Decisions regarding changes in this ratio for the university, colleges, schools, departments, and programs shall occur through consultation.
- 6.0 The University shall recognize its commitment to the greater San Diego region, including Imperial County, and in the admissions process shall consider its responsibilities to the region.
- 6.1. The University shall admit all CSU-eligible, upper division place-bound students who reside within its regional service area. Place-bound admission may be determined by
- a) a low-income designation using a measure such as eligibility for application fee waiver, or
 - b) an essay addressing place-bound status.
- 6.2. The University shall admit all first-time freshmen who are CSU-eligible with no remedial needs and who reside within its regional service area. This policy shall provide greater access to local students and shall support the Trustees' policy to reduce the need for remedial coursework.
- 6.3. The University shall admit all first-time freshmen within its regional service area who are CSU- eligible and who graduate from high schools where educational opportunities are limited by economic circumstances.
- 7.0 The Committee on Academic Policy and Planning shall annually review the previous year's outcomes as well as any enrollment management changes proposed by the administration, and it shall annually report to the Senate. This review shall include consultation with, among others,
- a) the Associated Students,
 - b) the college councils of chairs, and
 - c) administrative divisions, including staff, particularly in units that act as liaisons with the San Diego community and the public schools.
- 8.0 The University shall solicit the concerns of external constituencies and shall advise them of anticipated changes in the University's selection criteria for admission.

Enrollment Management Strategy

- 1.0 Preamble: To manage its enrollment effectively, SDSU shall implement a comprehensive admissions process. This process shall support increased access for local high school graduates and community college transfers, respond to a commitment to diversity, and enhance student success while bringing greater fairness in decision-making across the region.
- 2.0 **A Comprehensive Model for Admissions:** SDSU shall pursue a comprehensive admissions model yielding students who are more diverse and academically prepared. The guiding principles for this model shall be:
- 2.1. Access for the Local Region – SDSU is committed to serving the larger public with a strong commitment to students from San Diego and Imperial counties.
 - 2.2. Access for Diverse Communities – SDSU is committed to providing access to students who have been historically underrepresented and underserved in education.
 - 2.3. Enhancing Student Success - SDSU has the responsibility to ensure students who are admitted have the necessary preparation to succeed both at the institution and in their major.
 - 2.4. Fairness in Decision-Making – SDSU is committed to admissions practices that foster equitable access to the

university, in general, and more specifically for students across K-12 and community college districts in our service area.

- 2.5. Additional considerations that guide the enrollment management process include:
 - 2.5.1. Enrollment targets: Specific target setting discussions should begin at the college level, with participation and engagement from faculty and college leadership.
 - 2.5.2. Fiscal impact: Maintaining or changing the balance of resident to out-of-state students has significant and long-term fiscal implications for the university, which should be considered as part of the target-setting process.
 - 2.5.3. Information sharing: SDSU is committed to providing robust access to information with our K-12 and community college partners.
- 2.6. These Enrollment Management Strategies shall be reviewed annually as part of the systematic review of Impaction and Enrollment Management policies by the Senate Committee on Academic Policy and Planning, as outlined in University Policies: Academics: Enrollment Management and Impaction, 7.0.

3.0 Freshman Admissions: SDSU shall use as a basic foundation for its freshman admissions a comprehensive set of indicators, that may include: but not be limited to:

- 3.1. Grade Point Average (GPA) - GPA is calculated based on the college preparatory courses completed in meeting the California A-G standards. Based on the specific major cluster, differential weights may be used for determining ranked GPA in each A-G area.
- 3.2. SAT/ACT Scores - Academic performance is also assessed based on an applicants' score on the Scholastic Assessment Test (SAT) or the American College Test (ACT). In cases of multiple re-examinations, the highest overall score is used. The ACT employs the composite score, which does not include the writing section.
- 3.3. College Preparatory Coursework - College Preparatory Coursework may include the total number of math, English, and science courses taken, grades earned in math, English and science courses, as well as participation and grades in Advanced Placement, International Baccalaureate, and dual enrollment coursework.
- 3.4. Local Area - Local area enrollment refers to students who have completed high school in a school or district within SDSU's service area.
- 3.5. Ability to Thrive in a Diverse Environment - The ability to contribute to and thrive in a diverse environment is an essential component of a healthy campus climate and shall be assessed based on a multitude of factors, such as: progressive involvement in community service and work experiences, educational experiences (e.g., clubs, service, coursework beyond A-G), and biliteracy or multilingual competence (e.g., fluency, candidate for Seal of Biliteracy, AP test scores).
- 3.6. Contextual Factors - Environmental contextual factors shall refer to attendance at public high schools that have high proportions of students who are underrepresented minorities, foster youth, receive free and reduced lunch, and/or are English language learners. In a similar manner, neighborhood characteristics (e.g., median family income, homeownership rates) may also be employed. In addition, SDSU shall consider special circumstances, such as whether students were in foster care, wards of the court, emancipated minors, homeless, or other factors that may have previously inhibited academic success in high school.
- 3.7. College Preparatory Programs - Participation in approved college-readiness programs supported by educational and/or nonprofit organizations is essential to student success. Programs are approved and assessed for continued partnership by Enrollment Services in collaboration with the Division of Student Affairs and Campus Diversity.
- 3.8. Tribal Affiliation - Tribal affiliation is based on whether prospective students identify as being enrolled members or the dependent of an enrolled member of a Federally Recognized Tribe.

4.0 Transfer Admissions: SDSU shall use as a basic foundation for its transfer admissions a comprehensive set of indicators,

that may include: but not be limited to:

- 4.1. Local Area - Local area enrollment refers to students who have completed community college in a district within SDSU's service area.
- 4.2. College Transition Programs - Participation in approved college success and transition programs may include existing community college programs such as: Umoja Community, Hermanos-Unidos Brothers United (HUBU), Puente Project, CalWorks, and Extended Opportunity Programs and Services (EOP). Programs are approved and assessed for continued partnership by Enrollment Services in collaboration with the Division of Student Affairs and Campus Diversity.
- 4.3. Deferred Admission - A Local Freshmen Deferred Admission (LFDA) priority may be provided to community college students in SDSU's service area who were denied admission but graduated from a local high school and were CSU-eligible and are transferring from a local community college. In addition to attending a local community college, students will need to complete the following requirements by spring or fall admission:
 - Complete CSU "Golden Four" course requirements with C- grade or higher
 - Complete a minimum of 60 transferable semester units
 - Complete 30 units of General Education courses (includes CSU Golden Four courses)
 - Complete major preparation courses and meet required GPA for the major
 - Complete the above requirements within three years of their initial application

Audition and portfolio majors (such as Music, Dance, and Theatre Arts: Performance) or direct admit majors (e.g., Nursing) are excluded from the deferred admission program.

Examinations and Projects

1.0 Final Examinations and Projects

- 1.1. Because of many valid methods of instruction, not all courses may require the standard, comprehensive final examination. When, however, an instructor does conclude a course with a major, comprehensive final examination, that examination shall be given at the place and time scheduled during the final examination week. Other tests such as an hour exam or quiz may be given during the final week of classes. No examinations shall be given on "study and consultation" days.
- 1.2. Although university policy does not demand the administration of a final, comprehensive examination on the day, time, and place specified in the Class Schedule, the days designated for Final Examinations shall be counted among the academic workdays constituting the legally defined semester or session. Every instructor, therefore, shall conduct some class business with students on the day and at the time officially scheduled for the final examination for each course. The instructor may use the scheduled final examination period to review examinations or projects with the class.
- 1.3. Should an instructor determine that final course assignments can be called neither "major, comprehensive final examinations" nor "hour exams" nor even "projects," the instructor shall exercise professional expertise and responsibility, common sense, and good will to translate the letter and spirit of this policy.

2.0 Examinations for Disabled Students

Instructors shall give students with certified disabilities time and opportunity to complete examinations without undue disadvantage.

3.0 Saturday Examinations

- 3.1. By the end of the third week of classes, students shall notify instructors of conflict with Saturday examinations for religious observance.
- 3.2. Instructors shall reasonably accommodate students who notify them of conflict with Saturday examinations for

religious observance.

4.0 Group Examinations

- 4.1. No department or school shall be assured of more than a single examination period in which to hold common examinations for multiple section courses.
- 4.2. Group examination periods shall be allotted in available spaces according to the number of students.
- 4.3. Requests for special time periods shall be granted only if received in the Office of the Provost in time for announcement in the Class Schedule.
- 4.4. Group midterm examinations requiring the use of hours outside the regular class schedule shall be permitted for multiple section courses that require a common midterm examination. Specific regulations are as follows:
 - 4.4.1. The dates and times of group midterm examinations shall be announced in the Class Schedule.
 - 4.4.2. Regularly scheduled class meetings should be reduced to compensate for the time used to test in-group midterm examinations.
 - 4.4.3. Midterm examinations outside of regularly scheduled class meeting times shall be prohibited for single-section courses (i.e., courses taught in one section during a term).
 - 4.4.4. Sections not participating in a group examination for a multiple section course may hold any midterm examinations during regularly scheduled class periods.
 - 4.4.5. Group midterm examinations shall be scheduled after 4:00 p.m. on Mondays through Fridays. All midterm examinations for a given course shall be scheduled for the same day of the week.
 - 4.4.6. Rooms for group midterm examinations shall be assigned according to available spaces at the times requested and according to the number of students served. Priority in room assignments shall be given to regularly scheduled classes.

Global Campus

1.0 Degree Programs through Special Sessions

- 1.1. Degree programs providing residence credit may be offered through Global Campus. Students enrolling in these programs shall meet all San Diego State University and California State University entrance requirements. Existing degree programs may be offered through Global Campus if not enough General Funds are available to meet student demand or to serve the needs of those not served by the university.
- 1.2. These degrees shall be offered with the approval of an academic department or school and college and of the Provost in consultation with either the Dean of the College of Graduate Studies or the Associate Vice President for Faculty Advancement and Student Success. With the approval of the academic units, the university administration, the Chancellor's office, and the Postsecondary Education Commission, a degree not already being offered by San Diego State University may be developed and run for self-support through Global Campus.

2.0 Concurrent Enrollment of Global Campus Students

- 2.1. Non-matriculated students may take regular university courses through concurrent enrollment (Open University) in Global Campus.
- 2.2. Departments or schools and colleges shall have complete autonomy in designating the undergraduate courses in the regular program in which concurrent enrollment students are permitted to register.
- 2.3. Concurrent enrollment in a course shall require the approval of the course instructor.

- 2.4. Concurrent enrollment shall not take place before registration.
- 2.5. Concurrent enrollment shall be permitted in classes that have reached maximum size with regular enrollments only at the request of the instructor of the class.
- 2.6. Concurrent enrollment shall not be the basis for the addition of a new section or the continuation of an under-enrolled section. When enough students enroll to form a separate concurrent enrollment class and if a qualified instructor and adequate facilities are available, a concurrent enrollment section may be established.
- 2.7. Concurrent enrollment students shall meet the same course prerequisites as regular students.
- 2.8. Records shall be kept of registrations through concurrent enrollment for purposes of research and department or school allocation.
- 2.9. There shall be no additional compensation for instructors who accept concurrent enrollment students in regular classes.
- 2.10. Concurrent enrollments shall not accrue as FTEs to departments or schools for budget support purposes.
- 2.11. The net revenue collected from concurrent enrollments in regular classes shall be deposited in the Professional and Continuing Education (PaCE) Fund, one-half of which shall be made available for department or school support.
- 2.12. Concurrent enrollment shall earn resident credit and shall be subject to limitations.
- 2.13. Course requirements and grading procedures shall be the same for concurrently enrolled students as they are for the matriculated students.

3.0 Certificate Programs and Global Campus Courses

- 3.1. The Undergraduate Curriculum Committee shall periodically review proposed and continuing credit certificate programs.
- 3.2. Courses numbered X-01 through X-79, X-397, and X-997 shall be Extension professional advancement units offered only through Global Campus to meet specific academic needs of community groups. Courses numbered X-01 through X-79, X-397, and X-997 shall not be acceptable for degree programs. All courses numbered X-01 through X-79, X-397, and X-997 shall be processed according to the procedures established for the review and approval of new courses through Global Campus.

Freedom of Expression

- 1.0** Principles: Recognizing that the principles established in the First Amendment of the United States Constitution, Article 1, Section 2 of the Constitution of the State of California, and the California Education Code (sec. 66301) apply to all faculty, staff, and/or students, San Diego State University (SDSU) affirms the following principles of the free expression of ideas:

- 1.1. Freedom of expression is a tenet of higher education; is integral to the mission of the University and to its students, staff, and faculty; is a central and inviolate freedom to learn and teach; necessary for an educated populace; is a requisite to a free society; is incompatible with the suppression of opinions; is incompatible with prior restraint; encompasses forms of expression other than speech; and defends the expression we abhor as well as the expression we support.

2.0 Scope

- 2.1. SDSU supports and promotes freedom of expression and assembly by students, faculty, staff, and the general public. Reasonable regulations may be designed to avoid disruption of the mission of the university, particularly academic instruction, research and creative activity or to protect campus safety and security. See the SDSU Mission and Goals Statement for a more complete explanation of these aspects of the university's mission.
- 2.2. The intent of this policy is to guide the development of specific regulations regarding the exercise of free expression rights on campus. In developing these regulations, the intent of this policy is to provide as much opportunity for

freedom of expression, as is consistent with the limits of the law and section 2.1 hereof.

- 2.3. This policy should in no way be regarded as placing prohibitions beyond those prescribed by law or section 2.1 hereof on the right to express political, religious, philosophical, ideological, or academic viewpoints by any individual on the SDSU campuses. In addition, it is not the intent of this policy to conflict with provisions of collective bargaining agreements that may be in force at SDSU, and those agreements shall control in the event of any conflict.
- 2.4. SDSU does not support cooperation with agencies that unlawfully investigate, surreptitiously monitor or harass persons due to the legitimate exercise of their constitutionally protected prerogatives of free speech and assembly.

3.0 Time, place, and manner

- 3.1. SDSU campuses shall be open to noncommercial speech and expressive activities, subject to appropriate time, place, and manner regulations. Regulations may be created to ensure that the university's mission of instruction, research, and creative activity is not disrupted and that campus safety and security are not compromised. In drafting these regulations the intention and effect should be to maximize opportunities, in terms of time, place, and manner, for free expression. Regulation of noncommercial free speech and free expression activities shall be content neutral. All legal speech, even offensive speech is permitted. Noncommercial speech and expressive activities by students, faculty, staff and the general public may include but are not limited to: picketing, demonstrating and other forms of peaceful assembly, petitioning, leafleting, postering, the display of signs, tabling, chalking, music, dance, audio-visual and theatrical performances.
- 3.2. Regulations may be created to assure that campus grounds and facilities are available in a fair and equitable manner that has the effect of encouraging opportunities for the expression of diverse points of view. Regulations may be created to avoid competition for resources required for such expression.
- 3.3. Noncommercial speech and expression activities may occur on campus, either indoors or outdoors, where they will not disrupt the university's mission of instruction, research, or creative activity or threaten safety and security. Regulations may provide for the voluntary reservation of various outdoor and indoor locations on campus, although SDSU is under no obligation to provide or otherwise make available indoor locations or facilities. Individuals and groups who have made such reservations for a given date and time should be granted priority over those who have not. In allocating space and facilities that may be reserved, recognized student, faculty and/or staff organizations may be granted priority over individual members of the university community. Members of the university community may similarly have priority for use of space and facilities over the general public. However, regulations should be designed so that reasonable access to the campus for noncommercial speech and expressive activities is available to all, including those who may not have made a reservation in advance, are not a member of a recognized campus organization, or are not members of the university community.
- 3.4. Additional regulations and reasonable restrictions, such as limits on amplification or decibel levels of sound, may also be established.
- 3.5. Commercial expression, defined as activities designed primarily to sell goods and services or to promote the sale of goods and services, may be regulated by the President in accordance with Trustee policy to a greater extent than noncommercial speech and expressive activities.

4.0 Oversight

- 4.1. Noncommercial Speech and Expressive Activities. The President, in consultation with the Vice Presidents, shall designate a coordinator for events where noncommercial speech and expressive activities are expected to occur. Groups planning such events should be encouraged to work with the coordinator to ensure that these events do not materially disrupt instruction, research, or creative activity or endanger campus safety and security. Prior notification of noncommercial speech and expressive activities shall be voluntary except where advance notice is reasonably required to permit consideration of public safety, disruption to education or similar concerns.
- 4.2. Commercial expression. The President shall designate a coordinator for commercial events held on campus and at SDSU facilities. The coordinator shall be responsible for working with the vendors to ensure that the event is held in accordance with university regulations.

- 4.3. Compliance. Issues regarding compliance with this policy and complaints regarding enforcement of regulations shall be directed to the Committee on Freedom of Expression.

General Education

- 1.0 General Education courses shall be taught at least once every two years at a San Diego State University campus. A course not taught during this time shall be removed from the General Education program.
- 2.0 Courses offered for General Education credit, whether in state-funded semesters or sessions or via the College of Global Campus, shall meet all the standards set forth in the Curriculum Guide regardless of the length of time allotted for the course.
- 3.0 The Committee on General Education and its subcommittees shall oversee the General Education program and its curriculum.
- 4.0 **Waivers for Engineering**
 - 4.1. Engineering majors are exempt from completing a 3-unit course in the “Explorations in Social and Behavioral Sciences” area (CSU GE Area D explorations).
 - 4.2. Engineering majors are exempt from completing a 3-unit course in the “Lifelong Learning and Self-Development” area (CSU GE Area E).

Grades

- 1.0 In order that the assignment of grades truly reflects the student’s achievement in courses, the integrity of the academic program, and the integrity of departments or schools and instructors, grades shall genuinely distinguish between high and low levels of achievement. Although no formula for a curve shall be appropriate to all courses offered at the university, instructors shall use all grades from A through F to distinguish among levels of academic accomplishment. The grade for average undergraduate achievement shall be C; the grade for average graduate achievement shall be B.
 - 1.1. Undergraduate grades shall be: A, outstanding achievement; B, praiseworthy performance; C, satisfactory performance, the most common undergraduate grade; D, minimally passing; and F, failing. Graduate grades shall be: A, superior performance; B, satisfactory performance; C, minimally passing; D, unacceptable for graduate degree credit; and F, failing.
 - 1.2. Faculty may assign plus and minus grades.
- 2.0 **Variations:** Some courses naturally call for varied application of the policy above. Courses graded credit/no credit do not produce the distribution of grades indicated in the grade descriptions above. Courses in which the differential quality of performance is difficult or impossible to assess may be graded other than A through F when authorized by the same officers, agencies, and procedures required for changes in the curriculum. When requested by a department, school, or program, experimental departures from regular grading practices may be authorized in undergraduate courses by the Undergraduate Council.

Competency-based courses shall normally be graded credit/no credit. Upper division work, including specialized work, shall not be a normal exception to the general grading policy. Although students are prepared to do higher level work than in lower division courses, higher levels of achievement shall be demanded therein for higher grades.

- 3.0 **Administration of Policy**
 - 3.1. To facilitate common understanding of grading policy, each department, school, and program shall have a grading policy based on University policy and elaborating all general and special applications of the policy acceptable to the relevant college academic policy and planning committee and on file in the college dean’s office.
 - 3.2. Every member of the faculty shall assign grades in his or her classes in conformity with the policies set forth above. To facilitate common understanding between the instructor and students, the specific coordination of

course requirements and University grading policy shall be presented to the students at the beginning of a course.

- 3.3. Responsibility for maintaining department, school, or program integrity in grading practices shall rest with the department or program chair or school director. Every semester or session the chair or director shall receive data on grades awarded in courses offered in the department, school, or program. The chair or director shall compute and distribute the department, school, or program grading data according to internal procedures. The department, school, or program shall maintain grading integrity chiefly through discussions of grading practices and peer pressure. An instructor who provides a professionally defensible explanation for marked or persistent departure from predictable grading patterns shall be in conformity with policy.
- 3.4. Late Grade Submission: Every instructor shall report grades to the Office of the Registrar by the published due date. Not turning in grades on time shall constitute failure to perform the responsibilities of the position (cf. California Education Code, sec. 89535(f)). Violations of this policy shall result in progressive discipline, including written warnings, reprimands, and, in the case of repeated incidents, disciplinary action as stated in the Collective Bargaining Agreement. A list of all violators shall be a matter of public record. If grades have not been submitted fifteen days past the published due date, the department chair or school director may submit grades in the instructor's stead.

4.0 Options, Computation, and Registration of Grades

- 4.1. Registration of Grades: At the end of each semester or session in which a student is enrolled, a report of courses taken, showing units used in reporting shall be as follows: Grade of A (outstanding achievement, available only for the highest accomplishment), 4 points; B (praiseworthy performance), 3 points; C (average, awarded for satisfactory performance, the most common undergraduate grade), 2 points; D (minimally passing, less than the typical undergraduate achievement), 1 point; F (failing), 0 points; I (incomplete), counted as units attempted after one year, 0 points; SP (satisfactory progress), not counted in the grade point average; W (withdrawal), not counted in the grade point average; Audit, no credit earned and not counted in the grade point average; No Audit, no credit earned and the course title shall not appear on the transcript; Cr (credit), signifying units earned but not counted in the grade point average; NC (no credit), no credit earned and not counted in the grade point average; U (unofficial withdrawal), counted as F for grade point average and progress point computation.
- 4.2. Undergraduate Student Options on Grading⁸
 - 4.2.1. Credit/No Credit: An undergraduate student may elect to be graded credit/no credit (Cr/NC) in particular courses subject to the following conditions: (a) election of this option shall not be used as a criterion for denying admission to a course; and (b) students electing Cr/NC grading shall be held accountable to the same academic requirements and standards as students taking a course for a letter grade.
 - 4.2.2. Courses graded Cr/NC, whether taken at this or at another institution, shall not be used to satisfy requirements in the major or upper division courses in the minor except for those courses identified in

⁸For courses taken during the Fall 2020 semester, a change in grading basis may be made on or before Friday, December 10 by 11:59 p.m. via Petition for Credit/No Credit from the Registrar's office." 2. All courses shall be made available to students as Credit/No Credit for the Fall 2020 semester. All students shall be allowed to request to change any course they are currently enrolled in to Credit/No Credit grading for the Fall 2020 semester. To request a change in grading basis for a Fall 2020 class, students must email a completed Late Schedule Adjustment Petition to the Registrar's Office on or before 11:59 PM Pacific Daylight Time on Friday, December 10, 2020. Students shall consult with appropriate academic and financial aid advisors before changing their grading bases in any class. Deans shall work with their Chairs, Directors, and Faculty to provide students with guidance in making decisions about changing grading status. These recommendations should balance the following salient concerns: A. The need to ensure that students remain in good standing in their programs. B. The need to ensure that students can make progress towards their degrees/certificates and within the constraints imposed by accreditation and certification, as well as student specific restrictions such as those on student veterans, student athletes, international students, and those on specific types of financial aid. C. The need to offer students reprieve in the form of a Credit/No Credit option in the context of the COVID-19 pandemic. D. The understanding that under EO 1037, students will not be able to repeat a C / NC course for a letter grade at a later date. E. SDSU will waive the 15-unit maximum policy in Fall 2020 and any COVID-impacted semester. 3. College Deans and appropriate faculty committees are asked to review blanket exceptions established during Spring 2020 allowing Cr grades to count for graduation requirements (impaction, major prep, major) and notify the Office of Advising and Evaluation no later than November 30, 2020 if they wish to extend these through Fall 2020, bearing in mind the need to ensure that students can make progress towards their degrees/certificates and within the constraints imposed by accreditation and certification, as well as student specific restrictions such as those on student veterans, student athletes, international students, and those on specific types of financial aid. (Passed Senate meeting November 10, 2020, extended indefinitely for all COVID-19 impacted semesters).

the course listing as graded Cr/NC.

- 4.2.3. No more than 15 units graded Cr/NC shall be offered in satisfaction of the total units required in a bachelor's degree program, except that all units accepted as transfer credit from another institution at the time of the student's admission may be used. If 15 or more units graded Cr/NC are transferred, the student shall offer no additional courses graded Cr/NC to satisfy total units required for a bachelor's degree. Exceptions to this rule may be made if a student is required to take a San Diego State University course for credit/no credit.
 - 4.2.3.1. If for a reason such as change of major or minor or transfer from another institution courses graded Cr/NC are offered to satisfy requirements in the major or upper division course requirements in the minor, the student may be required by the department or school to pass competency examinations at an acceptable level or to take prescribed alternate courses before continuing in the major.
 - 4.2.3.2. Selection of the grading basis (A through F or Cr/NC) shall be made at the time of registration for the course. Change of grading basis may be made (through Web Portal) on or before the last day of the schedule adjustment period.
 - 4.2.3.3. A grade of Credit shall be awarded for work equivalent to A, B, or C. No Credit shall be awarded to work equivalent to C-, D, or F.
 - 4.2.3.4. The Cr/NC option shall not be used for courses in the Communication and Analytical Reasoning section of the General Education program.
 - 4.2.3.5. The election of the Cr/NC option shall be solely at the discretion of the student.
- 4.2.4. Audit credit shall be awarded if the minimum criterion of attendance has been met. The Office of the Registrar shall implement the No Audit policy through the following administrative procedures: (a) instructions shall be distributed to instructors about the appropriate ways to make "No Audit" notations on the grade sheets; (b) upon receiving a No Audit grade report, the Office of the Registrar shall institute an administrative drop of the course; and (c) the following shall appear in the Catalog section on Audit: "Failure to meet required class attendance may result in an administrative drop of the course."
- 4.3. Grades for Classified Graduate Students: Graduate courses graded credit/no credit shall be limited to courses 796, 797, 798, 799, and certain 600- and 700-numbered courses in the College of Education. No 500-numbered courses graded credit/no credit shall be acceptable on a master's degree program. No undergraduate courses graded credit/no credit shall be assigned to the deficiencies or foreign language option(s) of a master's degree program. At least 70 percent of the units used to fulfill the minimum requirements on a master's degree program shall be graded A, B, C, D, or F.
- 4.4. Grade Point Average (GPA): To compute the grade point average, one shall divide the total number of grade points earned by the number of units attempted. Units earned with a Cr (credit) shall not be included in the computation nor shall an I (incomplete) until one year has elapsed. The minimum GPA for a bachelor's degree shall be 2.0 (C); that is, the student shall have earned at least twice as many grade points as units attempted.
- 4.5. Incomplete Grade
 - 4.5.1. An incomplete shall signify that a portion of required course work has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. It shall be the student's responsibility to bring pertinent information to the instructor and to reach agreement on the means by which the remaining course requirements shall be satisfied. A final grade shall be assigned when the work agreed upon has been completed and evaluated. An incomplete shall be made up within one calendar year immediately following the end of the term in which it was assigned. This limitation shall prevail whether or not the student maintains continuous enrollment. Failure to complete the assigned work within one calendar year shall result in an incomplete being counted as equivalent to an F (or a NC) for grade point average and progress

point computation.

- 4.5.2. A candidate for graduation with the baccalaureate degree whose record carries a grade of incomplete shall be graduated provided he or she is otherwise eligible for graduation. However, the incomplete shall not be made up after the degree has been granted. In order to preclude graduation with the incomplete grade, a student shall be obliged to officially cancel the application for graduation.
- 4.6. Satisfactory Progress Grade (SP): SP shall be used for courses that extend beyond one academic term. It shall indicate that work is in progress and has been evaluated and found to be satisfactory to date but that assignment of a precise grade awaits completion of additional work. Cumulative enrollment in units attempted shall not exceed the total number applicable to the student's educational objective. Work shall be completed within a stipulated time not to exceed one year; exception shall be granted for graduate degree theses for which the time may be up to two years but may not exceed the overall time limit for completion of all master's degree requirements. Extension of time limit shall receive prior authorization by the Associate Vice President for Faculty Advancement and Student Success (for undergraduate courses) or the Dean of the College of Graduate Studies (for graduate courses).
- 4.7. Uncompleted Theses
 - 4.7.1. A student who registers for course 799A, Thesis, but does not complete the thesis by the end of the semester or session in which he or she registers for it shall receive, upon the recommendation of the thesis committee chair, an SP (satisfactory progress) grade. This grade symbol shall remain on the student's record until the thesis is completed or up to two calendar years from the end of the semester or session of registration in the course, whichever occurs first. If at the end of two years the thesis is not completed, the grade NC (no credit) shall be recorded unless an extension of time for completion due to extenuating circumstances has been recommended in advance by the thesis committee chair and the department chair or school director and is approved by the Dean of the College of Graduate Studies. A second registration in course 799A, Thesis, shall be expressly prohibited.
 - 4.7.2. A student who has been assigned the SP for Thesis shall be required to register for course 799B (0 units, Cr/NC) in a semester or session (within the two years as outlined above) in which the student expects to use the facilities and resources of the university; also the student shall be registered in the course when the completed thesis is granted final approval.

5.0 Challenges and Revocations

- 5.1. The instructor's grading practices shall meet the highest professional standards of objectivity, fairness, and accuracy. Testing procedures shall be designed reasonably to measure the attainments of students in the subject matter covered by the course.
- 5.2. Student grievance procedures shall offer the student a means of redress if an instructor has abused university grading policy. They also shall offer the instructor redress if falsely charged with abuse of University grading policy.
- 5.3. Except as authorized by policies and procedures approved by the Senate, no grade for a course shall be assigned or changed except by the instructor responsible for the course.
- 5.4. If a student receives a lower grade than earned in a course due to a mistake by the instructor, the instructor shall direct the Office of the Registrar to raise the grade by completing the required form. If the grade is to be lowered, the change shall have the approval of the dean of the appropriate academic unit. The student shall be notified by the registrar when a change becomes an official part of the student's record.
- 5.5. The instructor is expected to administer examinations or other exercises measuring the level of student attainment in a manner reasonably calculated to minimize the possibility of dishonesty by the student. When plagiarism or other dishonesty does occur, normal grade expectations are altered.

6.0 Good Academic Standing

6.1. Undergraduate Academic Good Standing: Academic standing for undergraduate students shall be determined by the grade point average earned in university courses. At the undergraduate level, good academic standing shall mean that the student has an overall cumulative GPA and an SDSU cumulative GPA of 2.0 or better.

6.2. Graduate Academic Good Standing

6.2.1. Graduate students are considered to be in Good Standing with the College of Graduate Studies if they:

- 1) maintain good academic standing with the university (based on cumulative GPA),
- 2) are in good judicial standing (as defined by the Center for Student Rights and Responsibilities),
- 3) make continued good progress toward the degree each semester (as defined by the graduate program),
- 4) maintain matriculation (enroll in classes or file Leave of Absence, each Fall and Spring semester).

6.2.2. Appeals may be submitted in writing to the Graduate Dean to reinstate Good Standing with the College of Graduate Studies. The consequences for loss of Good Standing may also be appealed in writing to the Graduate Dean.

7.0 Undergraduate Disqualification and Reinstatement

7.1. Probation and Disqualification

7.1.1. An undergraduate student whose grade point average falls below a C average (2.0) for either all baccalaureate-level college work attempted or all work attempted at San Diego State University shall be placed on academic probation at the end of the semester. Provided a student earns a C average or better in San Diego State University work during the semester while on academic probation, academic probation may be continued up to a maximum of three semesters. Academic Probation shall be lifted when the student has attained a C average or better on all baccalaureate-level college work attempted and on all work attempted at San Diego State University.

7.1.2. An undergraduate student on academic probation shall be disqualified at the end of the fall or spring semesters if the student's GPA in all units attempted or in all units attempted at SDSU falls below the following as a freshman (up to 30 units earned), 1.5; as a sophomore (30-59 units earned), 1.7; as a junior (60-89 units earned), 1.85; as a senior (90+ units earned), 1.95. Undergraduate students who are on probation shall be subject to disqualification at the end of the semester in which their academic record first falls to or below the disqualification level as defined in Title 5 of the California Code of Regulations, sec. 41300, and Executive Order 1038 (2008).

7.2. Reinstatement Principles

7.2.1. First Consideration

7.2.1.1. Except under exceptional circumstances, a disqualified student may not be reinstated earlier than the third semester after disqualification. Disqualified students seeking reinstatement shall petition for readmission or reinstatement during the normal admission application periods established by the university. Under exceptional circumstances, the Director of the Student Ability Success Center (SASC) or an Assistant Dean for Student Affairs may initiate a petition on behalf of a student for reinstatement before the third semester. Such petitions shall be reviewed in the same manner as other reinstatement petitions.

7.2.1.2. Criteria for the adjudication of an application include either or both of the following: (a) removal of the conditions that caused the initial poor academic performance that led to disqualification and (b) evidence of baccalaureate coursework applicable to the student's degree program at San Diego State University. The coursework shall be at a level clearly indicating progress to degree completion.

7.2.1.3. The dean or designees of the college of the applicant's proposed major shall make decisions on reinstatement.

7.2.1.4. Previously disqualified students shall be readmitted with probationary status.

7.2.2. Second Consideration: Normally, students who have been disqualified twice from San Diego State University shall not be considered for reinstatement.

8.0 Unofficial Withdrawal (WU)

The symbol WU shall indicate that an enrolled student did not withdraw from the course but failed to complete course requirements. It shall be used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible. For purposes of grade point average and progress point computation, this symbol shall be equivalent to an F. The U shall be awarded to a student who has not completed any graded work in the class.

9.0 Official Withdrawal (W)

After the Schedule Adjustment Deadline, a student may withdraw from a course(s) under conditions outlined below. For late withdrawals processed from the Schedule Adjustment Deadline through Census, all notation of the course shall be deleted from the student's record; for late withdrawals processed after Census, the symbol W shall replace an assigned grade. Summer Session deadlines may vary.

9.1. Late Schedule Adjustment

9.1.1. Withdrawing from a course(s) after the Schedule Adjustment Deadline and before the last 20% of instruction shall be permitted only for unforeseen serious and compelling reasons. All such requests shall be accompanied by appropriate verification. Undergraduate students may withdraw from no more than 18 semester-units attempted at SDSU. Permission to withdraw from a course(s) during this period shall be granted only with the approval of the instructor, the approval of the College dean or designee (Graduate Dean or designee in the case of graduate students). Permission to withdraw from all courses in the current term shall be granted with approval of the College dean or designee (Graduate Dean or designee in the case of graduate students). Catastrophic Withdrawals (see 9.1.2.) during Late Schedule Adjustment do not count toward the unit maximum.

9.1.2. Catastrophic Withdrawal: Students shall not be permitted to withdraw from a course(s) during the final 20% of instruction except in cases, such as accident or serious illness where the cause of the withdrawal is due to circumstances clearly beyond the student's control and the assignment of an incomplete is not practical. All such requests shall be accompanied by appropriate verification. Such withdrawals will not count against unit maximums in 9.1.1. Permission to withdraw from a course during this period shall be granted only with the approval of the instructor, the College dean or designee, and an Academic Affairs administrator appointed by the president. Permission to withdraw from all courses in the current term shall be granted with approval of the College dean or designee and the Academic Affairs Administrator or designee. For graduate students, withdrawal from one or more courses during the final 20% of instruction shall require the signature of each instructor, who shall indicate the student's grade in the class, and approval of the Dean of the College of Graduate Studies or designee.

9.2. Retroactive Withdrawal

9.2.1. After the last day of the semester or session, a student who wishes to change assigned grades to W grades may request to withdraw from either individual courses, or the full semester's or session's work. Such requests may be granted only in cases such as accident or serious illness where the cause for substandard performance was beyond the student's control. All requests shall be accompanied by appropriate verification. Only those retroactive changes from an assigned grade to a W shall be made that are approved by the dean or designee (including assistant deans) of the college of the student's major and the Academic Affairs Administrator or designee.

- 9.2.2. For graduate students, each retroactive change from an assigned grade to a W shall be approved by the instructor who assigned the original grade except that (a) the Dean of the College of Graduate Studies or designee may authorize the change of U or WU to W and (b) department chairs or school directors shall act on behalf of instructors no longer affiliated with the university or absent from the university for a length of time that would unduly delay processing the withdrawal request.

10.0 Repeated Courses and Grade Forgiveness for Undergraduate Students

- 10.1. A student who receives a grade of C– or lower (fewer than 2.0 grade points per unit) may request that the course repeat policy for grade forgiveness be applied to that course. Students may request up to a limit of 16 units for course forgiveness. The course repeat policy shall be applied to courses taken at San Diego State University, except where enrollment is restricted or the student no longer qualifies for admission to a course.
- 10.2. A course may be repeated once for grade forgiveness. Although the original grade(s) shall remain on the transcript, only the latest grade shall be used in calculating grade point averages. Courses taken in summer term and courses taken through Open University shall be counted for grade forgiveness.
- 10.3. If a student repeats a course in which a grade of C or better was received, only the original grade and units earned shall be used for calculation of grade point average and units needed for the degree. In addition, the only courses that may be repeated with a credit/no credit option are those in which the student previously received a grade of no credit; if a course taken for a grade is repeated credit/no credit, the original grade shall continue to be used in computing grade point average.
- 10.4. The repeat policy for grade forgiveness for a specific course shall be applied automatically unless the student notifies the Office of the Registrar before the end of the change of program period.

The grade earned in that course that semester or session shall be used to calculate grade point averages. In cases where a student exceeds the allowed number of grade forgivenesses, he or she shall have the right to define which courses receive grade forgiveness.

- 10.5. A course shall not be repeated for grade forgiveness by a student found by the Office of Student Rights and Responsibilities to be guilty of academic dishonesty in that course.
- 10.6. Enrollment in a repeated course shall not be allowed if the student has already cumulatively repeated 34 units of coursework.

Graduation

1.0 Approval of Candidates for Graduation

- 1.1. Each semester, lists of candidates for graduation shall be made available to faculty by Enrollment Services. Lists shall be distributed as follows: (a) Senate office, one copy of all lists; (b) Office of the Provost, one copy of all lists; and (c) For each major, one copy of candidates for graduation will be distributed to the corresponding academic department, school or equivalent unit.

Faculty shall be notified of the distribution. At the final Senate meeting of each academic term, the Senate will be presented a report which contains the number of candidates for graduation (aggregated by college and major), comparative information, and details on how Enrollment Services will be evaluating each candidate to ensure that all degree requirements have been met. The report will also specify how late graduation candidates will be managed and evaluated in accordance with CSU and SDSU policies.

- 1.2. Faculty objecting to the appearance of any candidate's name on any of the graduation lists may register such objections through the department chair or school director or the Senate office. The objections shall be forwarded to the Provost, who shall investigate the objections and report to a closed session of the Senate Executive Committee. The Provost shall make necessary adjustments in the graduation list.

- 2.0 Summer Graduation:** The faculties of the summer session shall be expressly delegated the authority by the faculty of the university to act for the faculty of the university in the matter of recommending all candidates for graduation at the end of the

summer session.

3.0 Required Scholarship for Graduation

3.1. Time Limit on Completion of Requirements for the Major: As authorized by Title 5 of the California Code of Regulations, sec. 40401, departments or schools may require that specific baccalaureate degree requirements be met within as few as seven years of the date of the degree. The requirements shall consist of advanced courses and examinations in areas of knowledge changing so rapidly that information may be obsolete after seven years. Proposals to identify degree requirements subject to the seven-year restriction shall be approved by the department or school, college, and university. The requirements shall be identified in the General Catalog, and departments or schools shall keep evaluators informed how students may certify recency of subject matter. When a student is required to repeat a course taken more than seven years before, only the last grade shall be used in computation of the grade point average.

3.2. Scholarship required by Title 5 reads:

“40402. Required Scholarship. Each undergraduate student shall complete with a grade point average of 2.0 (grade C) or better:

- (a) All units applicable toward a degree, including those accepted by transfer from another institution;
- (b) All units in the major; and
- (c) All units attempted at the college granting the degree except that only those courses in which a letter grade (A, B, C, D, F) is assigned shall be used in computing grade point average.”

Proposals to interpret the work “applicable” in 40402(a) as excluding from the calculation of the GPA all courses for which a failing grade have been recorded shall be improper and unacceptable.”

4.0 Graduation with Honors

4.1. Graduation with honors shall be granted to those undergraduate students in each graduating class who achieve high grade point averages. Excellence shall be recognized at three levels: cum laude (3.50–3.64), magna cum laude (3.65–3.79), and summa cum laude (3.80–4.00).

4.2. For determination of eligibility, two grade point averages are computed; both shall satisfy the minimum grade point average for the appropriate honors designation: (a) the GPA calculated on all units taken at this institution (a minimum of 24 graded units), and (b) the overall (cumulative) grade point average (including both San Diego State University and transfer units).

4.3. Grades for the final semester’s or session’s work shall be included in calculation of eligibility for graduation with honors. Students shall be tentatively designated as eligible for graduation with honors if the GPA meets required standards at the beginning of the fall semester for mid-year graduates, and at the end of the fall semester for May and summer session graduates. Notation of cum laude, magna cum laude, or summa cum laude on transcripts and diplomas shall be based on achievement when all courses for graduation are completed. Grades for removal of incompletes and all other grade changes shall be received in the Office of the Registrar no later than the end of the fifth week of the semester in which the student plans to graduate, and the student shall file an application for graduation before the published deadline.

4.4. Upon recommendation of the major department or school, a student doing superior work in his or her major field may be graduated with distinction in that field.

4.5. Honors lists shall be distributed to the Senate Executive Committee, rather than to the entire faculty.

5.0 Outstanding Graduates/Outstanding Graduates

5.1. At Commencement each college and the Office of Faculty Advancement and Student Success shall select an Outstanding Graduate who shall receive a bachelor’s diploma on behalf of the graduating class.

5.2. To be eligible for Outstanding Graduate, a student shall complete the college course in not over 10 semesters (excluding summer sessions) and shall have not fewer than 54 units in residence at San Diego State University.

Three quarters shall equal two semesters.

Honorary Degrees

- 1.0 Nominations of persons to receive honorary degrees shall be encouraged from any member of the San Diego State University community, including Trustees, the Chancellor, presidents, faculty, students, staff, alumni, Campus Advisory Board members, and other friends of the university. Nominations originating in any of the campus communities shall be submitted to the President of the University.
- 2.0 The Advisory Committee on Honorary Degrees shall review all nominations and submit recommendations to the President.

Honors Societies, Student

- 1.0 Academic Honor Societies: An academic honor society shall be a campus organization that values and reinforces the high academic standards of the university and selects its members, at least in part, based on superior academic performance.
- 2.0 Honor societies shall receive academic sanction by the university through the appointment of a faculty adviser subject to approval by the Provost.
- 3.0 Honor societies shall be required to obtain on-campus status through the Office of Vice President for Student Affairs and Campus Diversity. Campus wide multidisciplinary honor societies shall be required to obtain approval from the Provost.
- 4.0 Honor societies with on-campus status shall be represented by the Honors Council.

Hybrid, Online and Intercampus Classes: Definitions and Scheduling

- 1.0 Hybrid, online, and intercampus classes involve a formal educational process in which student and instructor are not necessarily in the same physical location, but interact in a synchronous or asynchronous manner through technology. Classes in which 20% to 50% of the scheduled sessions are conducted through this process are defined as hybrid. Classes in which greater than 50% of the scheduled sessions are conducted through this process are defined as online. Classes in which the instructor is located on one SDSU campus and interacts with students on another SDSU campus shall be defined as intercampus; such intercampus classes shall be arranged through consultations between the instructor and the appropriate personnel on each campus. For all three class modes, any required synchronous interactions (e.g. weekly sessions, aperiodic examinations, capstone presentations) shall be clearly established in the official schedule of classes with respect to specific dates, days, times, and locations as appropriate.
- 2.0 **The following guidelines shall apply to new hybrid and online classes.**
 - 2.1. The initial offering of a given course by a given instructor in hybrid and online modality shall be established through consultations between the instructor of record, the department chair, the college curriculum committee, and the associate dean of the college. An example "Initial Offering of Hybrid or Online Class" form to facilitate such consultations may be found in the Curriculum Guide. Each college shall establish and disseminate specific policies, expectations, and timelines for the submission and approval of such hybrid/online courses and instructors. Proposed hybrid/online course-instructors pairings that have not been previously approved through the college's established process may be removed from the schedule of classes by the Dean's office.
 - 2.2. Hybrid online classes shall be so identified in the official schedule of classes, which shall notify students of any required participation in synchronous class activities beyond those session times indicated in the schedule of classes.
 - 2.3. The schedule of classes shall notify students of any software and hardware required for participation in class meetings taking place when the student and instructor will not be in the same physical location.
 - 2.4. Ownership of materials, faculty compensation, copyright issues and the use of revenue derived from the creation and production of hybrid and online classes, including software, or other media products shall be in accordance

with the policy on Intellectual Property.

- 2.5. Regardless of the modality in which they are offered, classes should be consistent in terms of purpose, scope, quality, assessment and expected learning outcomes with other classes bearing the same department code, number, and course title. Courses shall meet all the standards set forth in the Curriculum Guide regardless of their modality.
- 2.6. Students enrolled in hybrid and online classes shall not be denied access to advising, grievances, or other key academic rights and services, nor shall they be excused from the academic responsibilities expected of all students.

Impact and Enrollment Management

- 1.0 As part of The California State University, San Diego State University shall be committed to providing qualified students with the greatest possible access to excellent higher education and lifelong learning. Accordingly, the university shall continue to search for innovative ways to provide access with available funding.
- 2.0 Selection criteria shall allow the university to enhance, not compromise, the diversity reflected by our enrollment. Diversity shall remain an important concern of the University.
- 3.0 Enrollment management strategies shall evolve with the consultation of various constituencies, so that the use of selection criteria or other techniques shall not distort the current array and balance of programs.
- 4.0 Changes in the proportions among lower division, upper division, and graduate division students as well as among majors and professional programs shall be a fundamental policy question. Changes in the relative growth of these populations shall be deliberative, consultative policy decisions.
- 5.0 Enrollment management shall take into account and increase where appropriate the impact on the ratio of tenured and probationary faculty to lecturers insofar as it affects faculty responsibilities in teaching, advising, professional growth, shared governance, and curriculum development. Decisions regarding changes in this ratio for the university, colleges, schools, departments, and programs shall occur through consultation.
- 6.0 The University shall recognize its commitment to the greater San Diego region, including Imperial County, and in the admissions process shall consider its responsibilities to the region.
 - 6.1. The University shall admit all CSU-eligible, upper division place-bound students who reside within its regional service area. Place-bound admission may be determined by (a) a low-income designation using a measure such as eligibility for application fee waiver or (b) an essay addressing place-bound status.
 - 6.2. The University shall admit all first-time freshmen who are CSU-eligible with no remedial needs and who reside within its regional service area. This policy shall provide greater access to local students and shall support the Trustees' policy to reduce the need for remedial coursework.
 - 6.3. The University shall admit all first-time freshmen within its regional service area who are CSU- eligible and who graduate from high schools where educational opportunities are limited by economic circumstances.
- 7.0 The Committee on Academic Policy and Planning shall annually review the previous year's outcomes as well as any enrollment management changes proposed by the administration, and it shall annually report to the Senate. This review shall include consultation with, among others, (a) the Associated Students, (b) the college councils of chairs, and (c) administrative divisions, including staff, particularly in units that act as liaisons with the San Diego community and the public schools.
- 8.0 The University shall solicit the concerns of external constituencies and shall advise them of anticipated changes in the University's selection criteria for admission.

SDSU Imperial Valley: Curriculum and Academic Policy

- 1.0** An SDSU Imperial Valley Admissions Board shall have authority to apply principles acceptable to the San Diego State Enrollment Services Board in admitting special applicants, especially in regard to Title 5, sec. 50801 (Adult Special Students).
- 2.0** All curricular activities and academic programs of IV Imperial Valley shall maintain and reflect the traditions and standards of San Diego State University. All graduates from SDSU Imperial Valley shall be awarded San Diego State University degrees.
- 3.0** Curricular Procedures: Curricular proposals for new courses, new minors, new emphases, topics courses, and changes in courses, programs, and degrees offered at SDSU Imperial Valley shall be initiated either by the IVC or by academic departments or schools of the San Diego campus; however, in either case such initiations shall be approved both by SDSU Imperial Valley and by the relevant San Diego campus department or school and college before University review and approval.
 - 3.1.** Furthermore, San Diego campus departments or schools and their colleges shall by committees and periodic reviews share with the SDSU Imperial Valley the responsibility for the quality of IVC programs and courses.
 - 3.2.** With consultative approval of the relevant academic departments or schools and the Chairs of the Curriculum Committee and Graduate Council of the San Diego campus, SDSU Imperial Valley may make minor substitutions in approved programs to fit local needs and faculty availability.
 - 3.3.** Requests to implement an undergraduate degree already offered at the San Diego campus shall be routed as follows: SDSU Imperial Valley faculty, SDSU Imperial Valley Dean, San Diego campus department or school, San Diego campus college and dean housing the mirrored degree, Senate, the President (or designee).

Intellectual Property

- 1.0** The intellectual property policies of the university shall consist of two components: (a) the SDSU Patents policy and (b) the SDSU Copyrights, Trademarks, and Trade Secrets policy. Intellectual property shall include works of authorship, inventions, and discoveries that may be subject to protection by copyrights, trademarks, patents, and trade secrets. (See also Copyrights, Trademarks, and Trade Secrets; and Patents.)
- 2.0** These intellectual property policies shall foster and encourage the development of creative works and further to protect the rights of all parties involved, namely: San Diego State University, the San Diego State University Research Foundation, San Diego State University faculty, staff, and students, and external sponsors and contractors. Furthermore, these policies shall serve to educate the university community in the proper use of intellectual property and the application of intellectual property law.
- 3.0** Members of the university community shall become familiar with the provisions of these policies before engaging in activities covered by these policies. It may be necessary to disclose the creation of intellectual property and to sign a written agreement regarding this work. Inquiries concerning these policies shall be addressed to the Vice President of Research and Innovation.

Major

- 1.0 Declaration of Pre-major and Major**
 - 1.1.** Newly admitted freshmen shall be admitted to a pre-major or as undeclared. Newly admitted transfer students shall be admitted to a major or pre-major.
 - 1.2.** A lower division student may request a change from one pre-major to another pre-major at any time; similarly, a lower division student may change from undeclared to a pre-major at any time.
 - 1.3.** Every upper division student shall have a declared major or pre-major.

- 1.4. A student may major in two departments or schools. All requirements for both majors shall be satisfied; units for courses that could satisfy requirements in both majors shall be counted only once.
- 1.5. A student may earn two majors in one department or school only where specific combinations of majors are authorized in the Catalog. All requirements for both majors shall be satisfied; units or courses that could satisfy requirements in both majors shall be counted only once. Students pursuing two majors in one department or school shall be required to file with the Office of Evaluations a master plan approved by the major department or school.

2.0 Changes in Undergraduate Major

- 2.1. An upper division student may request a change from one major to another major at any time. Upper division students wishing to change majors into any subject area that has limited admission quotas may do so only with written permission from the department, school, or program. Such transfers shall be counted toward the quota established for each academic subject area concerned.
- 2.2. The catalog in effect at the time of a change in major shall govern the requirements for that major, unless the student elects to meet the requirements in effect at the time of graduation.

Matriculation by Faculty Members

- 1.0 Members of the faculty of San Diego State University may be candidates for degrees on this campus.
- 2.0 Faculty may not seek degrees or register for courses within their own departments, programs, or schools and retain faculty status in that unit.

Minor

- 1.0 The minor shall provide the opportunity to develop a degree of competence in a field beyond the area of major course of study. Like the major, the minor shall offer an integrated and coherent pattern of coursework organized around the principal areas of interest or subfields of academic disciplines and interdisciplinary areas. It shall combine lower and upper division coursework in proportions appropriate to the various disciplines.

2.0 Units

- 2.1. The minor shall consist of 15–24 units, the specific number to be determined by the academic departments, schools, and programs and approved through the normal university curricular process. Minors that require considerable lower division preparation for upper division work shall tend to include more units than others.
- 2.2. Normally, 12 units of coursework in the minor shall be upper division. A minimum of six upper division units shall be completed at San Diego State University. In minors where the number of prerequisite lower division units precludes taking 12 upper division units without exceeding a total of 22 to 24 units, the required upper division coursework may be reduced to six units with the approval of the Undergraduate Curriculum Committee.

3.0 Subject Areas

- 3.1. Departments, schools, and programs offering minors shall indicate the specific subject areas to which individual courses relate rather than permit a merely random selection of courses from a department, school, or program.
- 3.2. The subject areas in which programs in the minor are offered should be such that the limited number of units required in a minor is sufficient to enable a student to achieve a reasonable degree of competence in the area. The degree of competence achieved shall be considerably less than that required by a major but should nevertheless constitute a worthwhile educational objective.
- 4.0 Courses taken in satisfaction of a minor may be used to meet requirements in General Education. In addition, courses taken to satisfy the preparation for the major requirements may be used as a part of a minor. However, no course shall be

used to satisfy the requirements for both a major and a minor.

- 5.0** The minimum grade point average for awarding a minor at the time of graduation shall be 2.0 or better in all units applicable toward that minor, including those accepted by transfer from another institution.

Mission and Goals

- 1.0 Mission:** The mission of San Diego State University shall be to provide well balanced, high quality education for undergraduate and graduate students and to contribute to knowledge and the solution of problems through excellence and distinction in teaching, research, and service. The university shall impart an appreciation and broad understanding of human experience throughout the world and the ages. This education shall extend to:

- a) Diverse cultural legacies,
- b) Accomplishments in many areas, such as the arts and technology,
- c) The advancement of human thought, including philosophy and science,
- d) The development of economic, political, and social institutions, and
- e) The physical and biological evolution of humans and their environment.

The university shall accomplish this through its many and diverse departments and interdisciplinary programs in the creative and performing arts, the humanities, the natural and mathematical sciences, and the social and behavioral sciences. Through the President's Shared Vision, students, parents, faculty, staff, administrators, and the community have identified the following five challenges:

- 1.1. To extend and enhance the university's deep and abiding commitment to academic excellence expressed through superior teaching, research, creative activity, and public service;
- 1.2. To nurture a learning centered university that supports the growth and development of the whole person;
- 1.3. To create a community proud of its diversity and committed to furthering social justice on and off campus;
- 1.4. To promote the growth, development, and wise use of our human and fiscal resources; and
- 1.5. To create a global university.

- 2.0 Academic Goals:** Responding to these and other challenges, the university shall pursue the following academic goals to sustain and strengthen our position as a leading university:

- 2.1. To encourage the intellectual and creative development of a diverse group of students by helping them learn about themselves and others, their own and other cultural and social heritages, and their environment;
- 2.2. To foster development of critical thinking, writing, reading, oral communication, and quantitative and qualitative analysis as well as a commitment to lifelong learning and international perspectives needed to contribute to communities and fields of endeavor;
- 2.3. To provide the basis for informed citizenship in a democracy;
- 2.4. To offer advanced undergraduate and graduate students professional training and preparation for further study in a broad range of disciplines, with special emphasis on the preparation of teachers;
- 2.5. To support faculty in developing specialized contributions to knowledge, including innovative curriculum and pedagogy responsive to intellectual and professional needs of undergraduate, master's, and doctoral students;
- 2.6. To support faculty in their professionally related community activities and informed exchanges with diverse professional and lay communities that strengthen the university's courses and scholarship;
- 2.7. To encourage scholarship, including the creative and performing arts, by students, faculty, and administrators

from all areas of the university; and

- 2.8. To continue our commitment to research, including the expansion of externally funded projects and doctoral programs where appropriate.

3.0 The Faculty: Given these challenges and academic goals, we hope to create

- 3.1. A Faculty of Teacher Scholars: Every faculty member shall demonstrate excellence as a teacher scholar. The faculty shall adopt and evaluate innovative teaching methods and shall incorporate active scholarship into teaching. The university's research orientation, distinctive within The California State University, shall afford graduate and undergraduate students the opportunity to become involved in research as well as interact with active research faculty.
- 3.2. A Faculty That Meets the Needs of Departments, School, and Programs to Provide Quality Degree Programs: Proud of our accomplishments in many areas, we shall continue to build upon the excellence of our academic offerings.
- 3.3. A Faculty That Is Diverse: Because academic discourse is informed and enriched by diverse ideas, the university shall diversify its faculty to meet the academic need for various perspectives and experiences, to address our student demographics, and to prepare students for the world in which they will live and work.
- 3.4. A Faculty That Provides International Perspectives: In our increasingly global society, we shall recruit faculty who can bring international perspectives to their work, who are committed to internationalization in their teaching and scholarship and in advising students, and some of whom are bilingual or multicultural.
- 3.5. A Faculty with Community Based Interests: To strengthen the university's courses and scholarship and to bring university expertise to the community, the faculty shall address the needs of the region through teaching, research, and service, which may include community-based activities such as applied research, training grants, and service learning.
- 3.6. A Faculty That Provides Interdisciplinary Perspectives. Because societal issues are multidimensional and transcend traditional academic disciplines, the faculty shall be expert in its disciplines and shall collaborate across disciplines to encourage students to work in groups and to provide an integrated educational perspective.

4.0 Diversity: Diversity shall be an essential consideration in all university policies and decisions, and shall be guided by the following statements that shall be published in staff and faculty handbooks, in the University Policy File, in the University General Catalog, the Graduate Bulletin, the IVC Bulletin, and linked from the Mission and Goals section on the main University web homepage.

- 4.1. San Diego State University is a community diverse in race, ethnicity, language, culture, social class, national origin, religious and political belief, age, ability, gender, gender identity, and expression, and sexual orientation. As a university committed to learning in all its forms, San Diego State University recognizes the need to attract and retain a critical mass of diverse persons who will advance its goals and ideals. This fundamental commitment to diversity 1) enriches the institution and provides an atmosphere in which all human potential is valued, 2) promotes learning through interactions among people of different backgrounds and many perspectives, and 3) better enables the university to prepare all members of its community to promote social responsibility, equity, freedom, and productive citizenship in a global society.
- 4.2. Diversity means not only the opportunity for all groups to be represented among faculty, student, staff, and administration but also the support for these persons as they seek the highest achievements. Attitudes, actions, programs, and policies that foster diversity engender the vigorous exchange of ideas, enhance respect and consideration for individuals and groups, strengthen the understanding of our mutual dependence, and form the core of the university. Diversity promotes enriched learning and produces positive educational outcomes for all.
- 4.3. Vigorous efforts to increase the diversity of the faculty, staff, administration, and students shall continue as a high priority, and as access increases, the university will create changes in its environment that enhance the opportunities for the success of all members of the campus community.

- 4.4. The university shall cultivate a campus climate that promotes human dignity, civility, and mutual appreciation for the uniqueness of each member of our community. Because the university's educational goals are founded on the values of intellectual honesty, appreciation for diversity, and mutual respect, it is critical that our academic and co-curricular programs, scholarships, courses, workshops, lectures, and other aspects of campus life reflect diverse perspectives. Freedom from discrimination, harassment, and violence against persons or property is a basic right and is requisite for learning. Freedom of speech shall be protected. By the same token, the campus community shall denounce and confront acts of intolerance, abusive behaviors, and the beliefs and past events that have separated us as a people.

Records

- 1.0 In compliance with federal and state law, San Diego State University has adopted a Student Records policy designed to protect the confidentiality of student records. The policy shall be maintained in the Office of the Provost and shall be the governing document in this matter.
 - 1.1. Only such records as are demonstrably and substantially relevant to the educational or related purposes of the university, its divisions, departments or schools, or agents shall be generated or maintained.
 - 1.2. No student shall be required to furnish, but may do so voluntarily, information as to the student's race, color, religion, sex, handicap, marital status, age, national origin, or political affiliation or preferences, except as specifically required by state statute, federal law, or valid federal or state rules or orders.
- 2.0 **Student Rights**
 - 2.1. Further, the laws generally prohibit the disclosure of personally identifiable information from a student's education records without the prior consent of the student.

 - 2.3.2. The right to inspect and review education records shall include (a) the right to an explanation or interpretation of the record, where appropriate, by a qualified university official or employee and (b) the right to obtain copies of the record, unless otherwise provided by this policy, where failure to provide copies would effectively curtail the right of access.
 - 2.3.3. Access to inspect and review such records shall be granted no later than 15 working days following receipt of the request for access.
 - 2.4. Disclosure of Personally Identifiable Information
 - 2.4.1. Personally identifiable information from the education records of students, except Directory Information not previously restricted by the student, is considered confidential and may not be disclosed to any party for any

2.5. Challenge

2.5.1. Students may challenge the content of their education records and request that a specific record be amended on the grounds that the record is (a) inaccurate, (b) misleading, (c) an unsubstantiated personal conclusion of the observer, (d) a conclusion or inference outside of the observer's area of competence, (e) not based upon the personal observation of a named person within the time and place of the observation noted, or (f) otherwise in violation of their privacy or other rights.

2.5.2. Rights afforded to students in Section 2.5.1. shall not be interpreted as permission to contest the assignment of grades.

Before the end of the schedule adjustment (drop/add) period for each semester of intended leave, the student shall submit a Leave of Absence Request through the SDSU WebPortal. A continuing student who fails to submit a Leave of Absence Request by this deadline may be subject to consequences that range from losing registration priority order to being required to apply for admission to the university as a returning student.

Should employees elect to move themselves, reimbursement for such moves may not exceed the costs that would have been incurred had a commercial firm been used.
 - 1.4. An employee may be reimbursed for actual lodging expenses, supported by a voucher, plus meal and incidental expenses, in accordance with the CSU Internal Regulations Governing Travel Expenses and Allowances, sec.

105, Rates for Housing and Lodging (App. A). This allowance shall be paid for not more than 60 days unless the Chancellor or campus president has determined in advance that the search for a new residence will result in unusual and unavoidable hardship for an employee and, therefore, has granted an exception. This allowance shall terminate immediately upon establishment of a permanent residence.

- 1.5. When an employee is required to change assignment and designated place of work that requires the sale of residence, the employee may be reimbursed for actual and necessary selling costs as determined by prevailing practices within the area of sale. Actual and necessary selling costs may include brokerage commission, title insurance, escrow fees, prepayment penalties, taxes, charges, or fees fixed by local authority required to consummate the sale of the residence. Miscellaneous seller's costs customary to the area may be reimbursed if determined appropriate by the Chancellor or campus president. Actual and necessary selling costs shall be reimbursed for that portion of the dwelling the employee actually occupies if the employee owns and resides in a multifamily dwelling.
 - 1.6. Whenever an employee is required to change an officially designated place of work and such change requires the settlement of a lease on the employee's former residence, the employee may receive the actual and necessary cost of settlement of the unexpired lease to a maximum of one year. Reimbursement shall not be allowed if the Chancellor or campus president determines that the employee knew or reasonably should have known that relocation was imminent before entering into a lease agreement.
- 2.0** If an employee whose moving or relocation expenses have been reimbursed does not continue employment with the CSU for a period of at least two years (unless the discontinuance of the employment was the result of death, disability, or other similar unexpected cause beyond the control of the employee as determined by the Chancellor or campus president), the employee or appropriate representative shall repay 100 percent of the amount received for reimbursement for the moving and relocation expenses if employed less than six months; 75 percent if employed at least six months but less than 12 months; 50 percent if employed at least 12 months but less than 18 months; 25 percent if employed at least 18 months but less than 24 months.
- 3.0** The university shall ensure that a copy of these regulations is given to the employee upon notice to the employee of an impending move.
- 4.0** The university shall not:
- a) Differentiate between single and married people in allocating such funds,
 - b) Use this fund for paying moving or travel expenses for people brought to campus for interviews,
 - c) Use this fund to pay moving or travel expenses of temporary personnel acting as replacements,
 - d) Use this fund to pay moving and traveling expenses of lecturers.

UNIVERSITY POLICIES: Codes

University offices such as Judicial Procedures, University Police, Center for Fraternity and Sorority Life, Office of Student Life and Development, Office of Student Rights and Responsibilities, and Housing and Residential Life, which are charged with the responsibility for enforcing alcohol and drug policies and imposing sanctions for violations shall, be adequately supported to carry out their responsibilities.

 - 4.5. Within the rules of applicable state and federal laws and regulations, the university shall communicate to students and organizations instances when sanctions are invoked.

Copyrights, Trademarks, and Trade Secrets

1.0 Introduction: Copyrights are used to protect the rights of creators of a diverse group of products ranging from traditional literary, musical, artistic, and dramatic works to lecture notes, multimedia classroom productions, and computer software. This policy shall be flexible and adaptable.

2.0 Definitions

- a) “assignment of rights”: a transfer of rights under copyright by the owner to the university, a publisher, or any other individual, agency or corporate entity. A transfer of copyright ownership shall not be valid unless it is in writing.
- b) “author” or “creator” (synonymous): one who produces a copyrightable work and is the initial owner of the copyright in the work, except a “work made for hire.” Authors of a “joint work” shall be co-owners of the copyright in the work. Unless otherwise assigned, the author of a contribution to a “collective work” shall be the owner of the copyright in the separate contribution as distinguished from the copyright in the collective work.
- c) “auxiliary”: The official auxiliaries of San Diego State University shall be Aztec Shops, San Diego State University Research Foundation, Campanile Foundation, and the Associated Students.
- d) “auxiliary resources”: funds and material resources, regardless of the sources, that are administered under the control, responsibility, or authority of the President of San Diego State University and the boards of directors of the designated auxiliaries.
- e) “contractual agreement”: an enforceable agreement between the university and individuals or parties.
- f) “copyright”: a legal right to protect certain original works of authorship that are fixed in any tangible form of expression from unauthorized reproduction, sale or other transfer, display, performance, or preparation of a derivative work. Copyright protection shall extend to but not be limited to the following works: (1) literary works such as books, textbooks, technical articles, manuscripts and class notes; (2) musical works, including any accompanying music; (3) dramatic works, including any accompanying music; (4) pantomimes and choreographic works; (5) pictorial, graphic, and sculptural works; (6) motion pictures and other audiovisual works, including classroom videos; (7) sound recordings; and (8) computer software, CD ROM systems, and other programs fixed in a tangible medium.
- g) “copyright notice”: For visually perceptible copies, the copyright notice should contain (1) the symbol “©” or “copyright” or “copr.,” (2) the year of first publication of the work; and (3) the name of the owner of copyright in the work. The copyright notice for sound recordings should contain (1) the symbol, (2) the year of first publication of the sound recording, and (3) the name of the owner of the copyright. The notice should be affixed to copies of the work in such a manner and location as to give reasonable notice of the copyright claim. Copyright is secured automatically when the work is created. For works published on and after March 1, 1989, use of the copyright notice shall be optional, though highly recommended. Before March 1, 1989, use of the notice was mandatory on all published works, and any work first published before that date shall bear a notice or risk loss of copyright protection.
- h) “derivative work”: a work based upon one or more existing works. It is created when one modifies by annotation, editing, translating, or otherwise significantly changing the contents of a work. Only the copyright owner shall have the right to make derivative works. Anyone who creates an unauthorized derivative work, including a user who downloads a copyrighted file, may be liable if the unauthorized derivative work is reproduced, distributed, publicly performed, or publicly displayed.
- i) “duration of copyright”: term of copyright registration. For a work created on or after January 1, 1978, it shall be automatically protected from the moment of its creation and shall be terminated 70 years after the death of the author. For a joint work the term lasts for 70 years after the last surviving author’s death. For “works made for hire” and both anonymous and pseudonymous works, the duration of copyright shall be 95 years from publication or 125 years from creation, whichever is shorter.
- j) “employee”: University employees shall include full-time and part-time faculty, classified staff, student employees, appointed personnel, graduate assistants and teaching associates, persons with “no salary” appointments, and shall also include visiting faculty and academic professionals who develop intellectual property using university or auxiliary resources and facilities unless there is an agreement providing otherwise. Persons who are not such university or auxiliary employees and who come to the university as guest lecturers or to teach colloquia, seminars, or short courses

shall not be considered university employees in their teaching and classroom activities unless an agreement provides otherwise.

- k) “fair use”: a use of copyrighted material permitted by law even though no express authorization is granted by the copyright owner as long as the use is for purposes such as criticism, comment, news reporting, teaching, scholarship, or research. Demonstration of such a purpose shall not by itself be sufficient to sustain a claim that the use is “fair.” Fair use shall be determined by the following statutory criteria: “(1) the purpose and character of the use; (2) the nature of the copyrighted work; (3) the amount and substantiality of the portion used in relation to the copyrighted work as a whole; and (4) the effect of the use upon the potential market for the value of the copyrighted work” (U.S. Copyright Act, 1976, sec. 107).
- l) “infringement”: except for fair use and other specifically permitted exceptions, exercise without permission of rights granted by law to the copyright owner; for example, when a material portion of a copyrighted work is copied or is commercially exploited without such permission.
- m) “institution” or “university”: San Diego State University and its auxiliaries.
- n) “institutional support”: resources associated with the creation, production, or distribution of a copyrighted work provided by either San Diego State University or its auxiliaries.
- o) “intellectual property”: ideas, products, processes, and resultant communications that can be protected by law from unauthorized exploitation. This shall encompass copyrights, patents, trademarks, trade secrets, technical data, or know-how.
- p) “license”: that which provides for a contractual relationship in which a copyright owner grants permission for use of the copyrighted material. An “exclusive license” shall provide an agreement by the licensor not to license any other person to exploit the licensed intellectual property and also that the licensor or his agents will not exploit the licensed property. A “sole license” shall reserve the right of the licensor to use or sell the licensed property. A “nonexclusive license” shall allow the licensor to grant other licenses to the intellectual property.
- q) “material”: all copyrightable works including but not limited to writings, lectures, musical or dramatic compositions, sound recordings, films, videotapes, and other pictorial reproductions, computer programs, listings, flow charts, manuals, codes, instructions, and software.
- r) “non-copyrightable works”: works not protected by copyright as follows: (1) ideas, systems, processes, procedures, concepts, or methods; (2) titles of works, names of products or services, even if they are novel or distinctive; (3) names of businesses, organizations, or groups; (4) catch words, slogans, short phrases, and familiar symbols for familiar designs; (5) lists of ingredients, contents, or as a general rule, forms; and (6) information that is in the public domain (common property and property that contains no original authorship) such as standard charts, measuring devices, tables, or lists taken from government public sources.
- s) “owner”: the party or parties who own(s) or control(s) rights to copyrightable material.
- t) “public domain”: material is said to be in the public domain if it is not protected by common law or statutory copyright and is therefore available for copying without infringement.
- u) “publication”: sale, lease, loan, giving away, or otherwise making available to the public the original or tangible copies of a work
- v) “San Diego State University resources”: funds and material resources, regardless of the source, administered under the control, responsibility or authority of both the President of the university and the State of California.
- w) “trademarks,” “trade names,” and “service marks”: A trademark shall be any word, name, symbol, or device, or combination of these, adopted and used by a manufacturer or merchant to identify its goods and to distinguish them from those manufactured or sold by others. A trade name shall be the name of a business, corporation, company, etc., that distinguishes one business entity from another. If the mark is used to identify a service, it shall be classed a service mark. In general, trademarks appear on products and service marks appear in advertising. The first user of a mark generally shall have the right to exclude subsequent users from adopting a similar mark on similar goods or services.

- x) “trade secret”: in California and defined by statute, “information, including a formula, pattern, compilation, program, device, method, technique or process, that derives independent economic value from not being generally known to the public or to other persons who can obtain economic value from its disclosure or use; and is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.” A trade secret shall not be claimed on something that may be readily available by reverse engineering or disassembly. A trade secret shall be kept secret and shall give its owner a competitive advantage over those who do not have access to the secret. Other forms of intellectual property shall be protected via disclosure. Whether particular information constitutes a legally protectable “trade secret” shall be determined through litigation, and misappropriation of a “trade secret” shall be the basis for civil and criminal action.
- y) “work made for hire”: a specifically ordered or commissioned work or a work prepared by an employee within the scope of employment. In such cases, the employer shall be considered the legal author and owns all of the rights in the copyright unless otherwise expressly agreed in writing.

3.0 Ownership of and Rights Related to Copyrightable Material

- 3.1. Those who engage in scholarship and creative activity shall have specific privileges and responsibilities associated with the products of such work. San Diego State University shall subscribe to the general principle that the results of scholarship and creative work shall be the property of those who originate them and who therefore have the right of copyright or final disposition of their work. Such property rights, however, shall be defined in relation to all of the resources contributed by persons, institutions, and agencies involved in the scholarship and development of the creative work.
- 3.2. Institutional support shall refer to both state and auxiliary resources. In institutional support for scholarship and creative activities, auxiliary resources shall be disbursed through the San Diego State University Research Foundation. Nothing in this policy should be construed as affecting the current legal relationship between San Diego State University and its auxiliaries as set forth in the Operating Agreement Between Trustees of The California State University and San Diego State University Research Foundation.
- 3.3. The university shall facilitate creative activities among its faculty and students and shall make its facilities available for such purposes. Where use of university resources has been made in the creation of copyrightable works, the university may exercise its right to participate in the management, protection, and marketing of such works. The assignment of property rights between the institution and its employees shall depend upon the nature and degree of institutional support devoted to the creation of the copyrightable work. Institutional support for an employee’s project yielding copyrightable results shall be classified under one of four categories: (a) commissioned or assigned works, (b) institutional works, (c) partial institutional support, and (d) no institutional support, as defined and specified below.

3.3.1. Commissioned or Assigned Works

- 3.3.1.1. A product shall be commissioned or assigned when there exists between the university, acting through any of its agents or auxiliaries, and the author a contractual agreement to develop that specific product.
- 3.3.1.2. In a commission or assignment, the contractual agreement shall specify the terms applying to the relative rights and ownership of the copyright and the distribution of royalties between the author and the university or its auxiliary.
- 3.3.1.3. In a commission or assignment by the university, the terms of the agreement shall be consistent with university policy.

3.3.2. Institutional Works (Works Made for Hire)

- 3.3.2.1. A product shall be an institutional work when it is created for the university or its auxiliaries within the scope of the creator’s employment rather than through a specific contract as in sec. 3.31. For instance, as defined by law, work assigned to employees such as writing a manual or computer program shall be a “work made for hire” whether or not there is an express written agreement specifying that work as a “work made for hire.”

However, the parties may agree otherwise in a signed written agreement to that effect in accord with the processes outlined in section 7.4.

- 3.3.2.2. Unless specifically commissioned or assigned by the university (sec. 3.31), traditional faculty developed academic works (e.g., class notes and syllabi, recorded or broadcast instructional activity, books and articles, works of fiction and nonfiction, poems and dramatic works, musical and choreographic works, pictorial, graphic, and sculptural works, and educational software commonly known as “courseware”) are not considered works made for hire.
- 3.3.2.3. When such works are created independently and at the faculty member’s own initiative for traditional academic purposes, the faculty member shall retain copyright ownership of the work. This policy shall apply independently of the physical medium in which these “traditional academic works” appear, that is, on paper or in audiovisual or electronic form. However, any such works which involve the use of significant institutional resources must be disclosed to the university by the faculty member in accordance with sec. 3.33, Partial Institutional Support. When the university has invested substantial resources in the production of copyrightable material (fixed media), then the work falls under Partial Institutional Support.
- 3.3.2.4. The university shall retain, for educational, research, and administrative purposes only, an irrevocable, royalty-free, non-transferable, non-exclusive license to use by its employees and students of any syllabus that has been authored by an SDSU employee and used as the syllabus for an SDSU course offering. The Vice President for Research or designee may waive the university's rights to such a license on a case-by-case basis.
- 3.3.2.5. The university or a designated auxiliary shall be considered the legal author and shall own all rights in the copyright to institutional works.

3.3.3. Partial Institutional Support

- 3.3.3.1. A product shall be considered to have partial institutional support if the author has made use of institutional resources in the development of the product and if the resource cost to the institution is significant. In computing the total cost of the product, the author’s contribution will include all direct costs incurred by the author and a reasonable value placed on the cost of the author’s time (not all of the author’s time will necessarily be allocated to the author’s credit). Institutional support will include (a) those costs that would not have been incurred by the institution in the absence of the development of the copyrightable work and (b) those other costs associated with the significant use of institutional equipment, supplies, facilities, employee time, or other institutional resources.
- 3.3.3.2. The author’s use of office, library, or personal computer shall not be construed to be “significant” use of institutional resources, and projects limited to such institutional support may not be disclosed to the university. Consequently, authors who produce textbooks or other noncommissioned or unassigned works and use no other university resources, shall not be considered to have made “significant” use of institutional resources, and therefore the provisions of sec.3.331 shall not apply. If, however, additional and significant use of university resources was made (e.g., additional and significant secretarial time, photographic services, use of recording studios, or specially purchased materials) in the development of the work, the work shall be considered to have been made with significant institutional support, and therefore the provisions of sec. 3.331 shall apply.
- 3.3.3.3. Assigned time for special educational or research projects, or other institutional grants, fellowships, or scholarships shall be considered to be significant university resources when used in conjunction with the development of a copyrightable work. When such resources are accepted as part of a specific commission or assignment that might lead to a

copyrightable work, the acceptance constitutes the type of commission or assignment referred to in sec. 3.312, and the terms of secs. 3.331–332 shall apply. When noncommissioned or otherwise unassigned copyrightable works (e.g., textbooks, creative artistic works) are developed in conjunction with the use of such resources awarded primarily for purposes of faculty professional development (including sabbatical leaves and difference-in-pay leaves), the university shall make no claim of copyright ownership or royalty distribution, and the terms of sections 3.331–332 shall otherwise apply.

- 3.3.3.4. If a project that is likely to lead to the development of a copyrightable work entails partial institutional support as defined above, the author shall disclose the project to the university. A contractual agreement shall then be made by the institution and the author at the written request of either party. If at all possible, this contractual agreement should be drafted and signed before the author accepts institutional support. The contract should specify all terms having to do with the assignment of copyrights and granting of licenses and the distribution of royalties. These terms shall be negotiated and determined by mutual agreement of the author and the university or the San Diego State University Research Foundation.
- 3.3.3.5. If no such agreement can be reached or no contract is made prior to the creation of the work, the issue shall be referred to the University Copyrights and Patents Committee (UCPC). The UCPC shall recommend how the Vice President for Research and Innovation might determine the relative ownership of copyrights and the division of royalties. In the absence of a prior contract stipulating otherwise or as otherwise provided in this policy, this recommendation shall reflect the following general principles:
 - a) In compliance with existing university policy, the State shall be compensated for its part of the total institutional support.
 - b) The remaining royalties shall be distributed between the author and the San Diego State University Research Foundation according to the relative values of the author's contribution and the support contributed by the university and the Research Foundation. This calculation will be subject to the limitations of sec. 3.331.
 - c) If the difference in the relative contributions of the author and the institution is not significant, net income derived from licensing, distribution, sale of the work shall be divided 50 percent to the author and 50 percent to the San Diego State University Research Foundation. The share distributed to the author shall be the personal income of the author.
 - d) Copyright ownership may vest in whole or in part with either the author or the institution, depending on the relative values of the author's contribution and the institution's support.
- 3.3.3.6. Each contractual agreement regarding ownership or assignment of rights to a copyrightable work having partial institutional support shall include the reserved right for the university to use the work for research or educational purposes free of royalties. Similarly, the author shall have a royalty-free right to use the work for personal, noncommercial purposes.
- 3.3.3.7. Whenever persons or organizations other than university employees intend to use university resources or facilities in connection with the creation of a copyrightable work, exclusive of libraries, an agreement shall be executed in advance setting forth the understanding regarding the use of said resources and facilities, ownership rights, and financial arrangements.
- 3.3.3.8. If intended or used for commercial purposes, otherwise noncommissioned or non-assigned fixed media reproductions (e.g., films, phonorecords, or magnetic and other electronic recordings) of "real time" performance events occurring in San Diego State University venues, including classroom lectures, laboratory demonstrations or related instructional activities shall be disclosed to the university, and all rights in the copyright to such works shall be determined in accordance with sec. 3.33. The university or its auxiliaries shall not

make, distribute, or sell any such works without prior written agreement of the author involved.

3.3.4. No Institutional Support

- 3.3.4.1. A project shall be considered to have received no institutional support if the author has not caused the institution to incur any cost over and above the normal costs of supporting instructional activities.
- 3.3.4.2. Lacking institutional support, the author of a copyrightable product shall hold all rights and shall receive all royalties. (Cf. sections 7.66–67.)
- 3.3.4.3. Authors disclosing copyrightable works created without institutional support or independent of their employment at the university may refer their works to the University Copyrights and Patents Committee for copyright assignment or other disposition. If the University Copyrights and Patents Committee recommends such disposition upon disclosure by the author, the author shall, on the approval of the Vice President for Research, execute a Copyright Agreement and an Assignment of Rights with the San Diego State University Research Foundation. Royalties, less deduction for expenses, shall be shared by the author and the San Diego State University Research Foundation according to the terms specified in the Copyright Agreement as agreed to by both parties.

- 3.4. Works of intellectual property created at San Diego State University that are both copyrightable and patentable shall be governed by the terms of the San Diego State University Patent Policy
- 3.5. Intellectual property developed by students as a result of classwork is ordinarily owned by the students with following exceptions: (a) unless significant institutional resources have been used in the development of the work, in which case ownership shall be determined in accordance with sections 3.3.3 and 3.4; or (b) unless the student has entered an agreement with the instructor specifying alternative terms of copyright ownership; or (c) unless the work was completed under the terms of a contract with the university or its auxiliaries, in which case ownership shall be determined in accordance with sec. 3.3.1.
- 3.6. Ordinarily the author of a thesis or dissertation completed at San Diego State University shall hold the copyright to the manuscript, but that right shall not automatically extend to the data used in developing the manuscript or to subsequent publications based on that data.

4.0 Use of the Copyrighted Works of Others

- 4.1. The university shall protect and shall not infringe on the copyrights of others within or without the university community. Use of copyrighted works without permission of the owner may subject the user and the university to liability from an infringement action or other possible causes of action. Administration, faculty, staff, and students shall restrict their use of copyrighted materials according to university policies, university guidelines, applicable statutes, and relevant court decisions.
- 4.2. Neither shall the rights of copyright owners be exclusive, nor shall permission be necessary for every use. Exceptions to the exclusive rights of copyright owners shall include inter alia (a) “Fair Use” of copyrighted works; (b) limited copying of computer programs; (c) certain “Library Exemptions”; (d) application of the “First-Sale Doctrine,” which shall allow the display and resale of purchased copyrighted work but shall not apply to sound recordings, computer programs, or distribution through a computer network.
- 4.3. The university shall encourage use of copyrighted materials either through acquiring the permission of the copyright owner or under one of the legitimate exceptions outlined in sec. 4.2. (See also “Fair Use of Copyrighted Works: A Crucial Element in Educating America,” The Trustees of The California State University [1995].)

5.0 San Diego State University Trademarks, Trade Names, and Service Marks

- 5.1. Trade or service marks relating to goods or services distributed by the university and its auxiliaries shall be owned by the university or the auxiliary. Examples include names, symbols, logos, seal, mascot, or other logos

used with university activities and events.

- 5.2. It shall be inappropriate to use without permission the name of the university or any of its auxiliaries with any activity not sponsored or authorized by the university.
- 5.3. Requests to license university trademarks should be addressed to the Vice President for Business and Financial Affairs. Requests to license trademarks owned or affiliated with any of the university's auxiliaries should be addressed to the General Manager's office of the auxiliary.

6.0 Trade Secrets: Certain technologies may be licensable to industry as trade secrets. Use of trade secret protection may be approved by the university but should be used rarely. However, if public disclosure will inhibit a company's willingness to invest the necessary funds for product development and commercialization, the university, in consultation with the employee, may license the subject intellectual property as a trade secret.

- 6.1. Knowledge formalized as a trade secret cannot be disclosed in any open scientific forum as long as it maintains legal trade secret status.
- 6.2. Intellectual property falling within this category shall be treated with regard to licensing and income sharing as are other patented technologies and copyrighted works.

7.0 Administration of Policies and Procedures

- 7.1. Authorized Contracting Officer: The Vice President for Research and Innovation, acting for the President of the university, shall be designated the institutional officer responsible for matters involving intellectual property. The officer may designate other managers or directors of auxiliaries or units of the institution to act on his or her behalf. After consultation with the University Copyrights and Patents Committee and the college dean involved, the Vice President or designee may (a) approve agreements with respect to ownership and other rights related to intellectual property, (b) register copyrights and obtain patents, and (c) grant licenses in the name of the institution for all intellectual property.
- 7.2. San Diego State University Research Foundation: Pursuant to the Operating Agreement between the Trustees of the California State University and the San Diego State University Research Foundation, the San Diego State University Research Foundation shall be designated as the university's agent for securing and executing agreements with external entities on behalf of the university with respect to intellectual property, in matters other than the award of compensation for university (i.e., State) expenses. The San Diego State University Research Foundation shall also establish and maintain a Technology Transfer Office for the development, management, and commercialization of all intellectual property secured in the name of the university and of all licenses granted by or to the university. The President may designate persons to act as university agents and contracting officers responsible for securing and executing agreements about copyrightable works or trademarks owned by other designated auxiliaries.
- 7.3. Copyrights and Patents Committee: A University Copyrights and Patents Committee shall be appointed (see Committees: Copyrights and Patents Committee).
- 7.4. Intellectual Property Agreements
 - 7.4.1. Agreements Involving University-Commissioned or -Assigned Works (Works Made for Hire)
 - 7.4.1.1. When employees accept a commission or assignment from the university or one of its auxiliaries to produce a copyrightable work not specifically within the defined scope of their employment, an agreement shall be reached specifying the terms that apply to ownership of the work and to the distribution of royalties between the creator(s) and the San Diego State University Research Foundation. Unless otherwise specified in the agreement, the university shall be considered the author and owner of such specially assigned or commissioned works.
 - 7.4.1.2. Before commencing any such work on institutional matters involving the creation of intellectual property for or on behalf of the university, nonemployees, independent contractors, and outside consultants shall sign an agreement with the university setting forth the understanding of the use of university resources and facilities, ownership rights, and

financial arrangements.

- 7.4.2. Agreements Involving Works Developed with University Resources: Whenever significant institutional support in the form of either financial or physical resources is used in the creative process from which the intellectual property results, the institution shall have an interest in the work, and a contractual agreement shall be made between the institution and the creators of the work. The contractual agreement shall specify the terms applying to ownership of the work, assignment of copyrights, and the distribution of royalties between the creator(s) and the San Diego State University Research Foundation. These agreements shall be prepared and executed within a reasonable time, ordinarily not to exceed 60 days from the disclosure of the work to the university. If possible, especially wherein the use of university (i.e., State) resources is likely to be substantial, the agreement shall have been made before the use of these resources.
- 7.4.3. Agreements on the Reimbursement of State Resources. Wherein considerable university (i.e., State) resources have been used in the development of intellectual property, agreements upon the reimbursement of State expenses shall be executed. The Vice President for Business and Financial Affairs shall prepare such agreements and shall represent the interests of the State in negotiating proper agreements with the San Diego State University Research Foundation and the author. These agreements shall be prepared and executed within a reasonable time ordinarily not to exceed 60 days from the disclosure of the work to the university. If possible, wherein the use of university (i.e., State) resources is likely to be substantial, the agreement on reimbursement shall have been made before the use of these resources.
- 7.4.4. Agreements with Outside Sponsors
 - 7.4.4.1. If an outside agency provides support for an educational or research project that may result in the creation of intellectual property, the San Diego State University Research Foundation may enter into an agreement with that agency governing the ownership of property rights and the distribution of royalties. In such cases, the Research Foundation may require a written intellectual property agreement with the author on file in order to legally execute contractual agreements about the disposition of copyrightable works of the faculty.
 - 7.4.4.2. - 3.3.2.4. If the parties have not reached an agreement prior to acceptance of institutional support, the issue shall be referred to the University Copyrights and Patents Committee (UCPC). The UCPC shall recommend to the Vice President for Research and Innovation a determination of the ownership of patent rights and the division of royalties. This recommendation shall reflect the following general principles:
- a) The royalty interests in the invention shall be divided in accord with the relative value of the inventor's contribution and the State or non-State institutional support channeled through the university or the San Diego State University Research Foundation.
 - b) In computing these values, the inventor's contribution shall include direct costs incurred by the inventor (including patent application costs) and a reasonable value placed on the inventor's time (unless compensated by the institution).
 - c) Institutional support shall include only (1) those costs which would not have been incurred by the institution in the absence of the development of the invention (including patent application costs) and (2) those other costs associated with the significant use of institutional equipment, supplies, facilities, employee time, or other institutional resources.
 - d) If the difference in the relative contributions of the inventor and the institution is not significant, net income derived from commercialization of the invention shall be divided 50 percent to the inventor and 50 percent to the San Diego State University Research Foundation. The share distributed to the inventor shall be the personal income of the inventor.
 - e) Unless otherwise covered by a prior agreement with the inventor (sec. 3.323) or with an outside sponsor (sec. 4.0), or unless the UCPC determines that the contribution of the institution is not significant, ownership of rights to inventions, trademarks, and other tangible research property conceived, reduced to practice, or developed with partial institutional support shall be assigned to the San Diego State University Research Foundation even though the Research Foundation shall share some of the net royalties with the inventor, as specified above.
- 3.3.2.5. If a patent management corporation is used to assist with the commercialization of an invention, the provisions of this section shall govern only that part of the royalties in excess

of the portion retained by the management corporation.

- 3.3.2.6. The UCPC, after consultation with the Vice President for Business and Financial Affairs, may recommend that pursuing a patent would not be in the best interest of the university. In this case, the Vice President for Research and Innovation may determine that patent rights associated with the invention shall belong to the inventor, and the inventor shall be so notified in writing.
- 3.3.2.7. Each commercial license or assignment of an invention shall include the reserved right for the university to use the invention for research or educational purposes free of royalty.
- 3.4. Wherein persons or organizations other than university employees intend to use university resources or facilities in connection with an invention, exclusive of libraries, an agreement shall be executed in advance setting forth the understanding regarding the use of said resources and facilities, ownership rights, and financial arrangements.
- 3.5. Inventors disclosing inventions conceived, reduced to practice, or developed without institutional support or independent of their employment at the University may at their option refer their inventions to the University Copyrights and Patents Committee for patent prosecution or other disposition. If the UCPC recommends such disposition upon disclosure by the inventor, the inventor shall on the approval of the Vice President for Research and Innovation execute a Patent Agreement and an Assignment of Rights with the San Diego State University Research Foundation. Any royalties (after deduction for expenses, including the costs of a patent management corporation, if applicable) shall be shared by the inventor and the Research Foundation according to the terms specified in the Patent Agreement as agreed to by both parties.

4.0 Ownership of Patent Rights on Sponsored Grants and Contracts

- 4.1. If an outside agency provides support for a scientific research project, which may result in the conception, reduction to practice, or development of an invention, it may be necessary for the San Diego State University Research Foundation to enter into an agreement with that agency governing the ownership of patent rights and the distribution of royalties. In such cases, the Research Foundation may have to have a written patent agreement with the inventor on file in order to legally execute contractual documents, which agree to dispose of inventions of the faculty.
- 4.2. Faculty engaged in research on sponsored projects that stipulate assignment of patent rights to the San Diego State University Research Foundation or the sponsor shall (a) execute a written Assignment of Patent Rights with the San Diego State Research Foundation, on behalf of the University, encompassing all current and future contracts and grants, (b) promptly disclose any invention to the University Copyrights and Patents Committee by means of the invention disclosure process, and (c) execute a written Assignment Agreement in order to effectuate patent prosecution rights and authority.
- 4.3. The San Diego State University Research Foundation shall notify the sponsor of any inventions and shall take the necessary further action.

5.0 Copyrights and Patents Committee: A University Copyrights and Patents Committee shall be established.

6.0 Patent Agreements

- 6.1. The Vice President for Research and Innovation, acting for the President of the University, shall be designated as the institutional officer responsible for matters involving intellectual property. The Vice President may designate other managers or directors of auxiliaries or units of the institution to act on his or her behalf. After consultation with the University Copyrights and Patents Committee, the Vice President or designee may approve agreements with respect to (a) ownership and other rights related to inventions, (b) obtaining patents, and (c) granting licenses in the name of the institution for all inventions.
- 6.2. Pursuant to the Operating Agreement between Trustees of The California State University and San Diego State University Research Foundation, the San Diego State University Research Foundation shall be designated as the University agent for securing and executing agreements for the University with respect to patents and inventions, in matters other than the award of compensation for University (i.e., State) expenses. The Research Foundation

shall also establish a Technology Transfer Office for the development, management, and commercialization of University-owned technologies and shall maintain a central file for patents secured in the name of the University and licenses granted by or to the University.

- 6.3. Wherein University (i.e., State) resources have been used in the development of an invention, agreements upon the reimbursement of State expenses shall be executed. The Vice President for Business and Financial Affairs shall prepare such agreements and shall represent the interests of the State in negotiating proper agreements with the Research Foundation and the inventor. These agreements shall be prepared and executed prior to the initiation of the patent search. If possible, wherein the use of university (i.e., State) resources is likely to be substantial, the agreement on reimbursement shall be made before the use of these resources.

7.0 Appeals: Inventors may appeal a decision of the Vice President for Research and Innovation or the Vice President for Business and Financial Affairs with respect to the disposition of patent rights and royalties. Appeals shall be directed to the President of the university, who may, after examining the required evidence, request additional review or modification of the patent agreement.

8.0 Obligations of University Employees and Other Included Parties

- 8.1. San Diego State University faculty and staff, as a condition of their employment, shall comply with the terms of this policy. Students involved in research, as a condition of their education or employment at San Diego State University, shall also comply with the terms of this policy.
 - 8.1.1. To protect the inventor's interests and to establish the inventor's ownership rights to inventions conceived before employment at San Diego State University, each inventor shall disclose to the University Patent Officer at the time of employment, inventions conceived, reduced to practice, developed, or being developed by the inventor.
 - 8.1.2. In order to determine the rights of the inventor and the university, inventors shall promptly report to the University Patent Officer potentially patentable inventions conceived, reduced to practice, or developed while employed or enrolled at the university. Such disclosures shall be made in writing as soon as possible but no later than the 30 days before the date of first publication of the invention.
 - 8.1.3. Inventors shall inform other persons who may have rights to the invention (including co-inventors, collaborators, and research assistants) of the terms of this policy.
 - 8.1.4. Inventors shall assign to the Research Foundation the rights in and to an invention in which the university has an interest as determined by the University Patents and Copyrights Committee and in accordance with this policy.
 - 8.1.5. Inventors shall cooperate with the Research Foundation in pursuing patents or licenses or otherwise commercializing inventions assigned to the university.
- 8.2. The foregoing obligations shall also apply to those who wish to refer inventions or discoveries developed independently of the institution for patent prosecution or other disposition by the university.

9.0 Use of Funds Received from Inventions: Funds received by the San Diego State University Research Foundation through royalties or licenses or other consideration for inventions shall be distributed in accordance with the Distribution of Royalties Guidelines developed by the University Copyrights and Patents Committee, recommended by the Vice President for Research and Innovation, and approved by the President. Such funds shall be used to support scholarly activities at the university with these exceptions:

- 9.1. Funds generated by a unit of the university (e.g., an academic department) in the performance of a specific ongoing function may be used to defray the actual expenses of that function. Specific letters of agreement may be entered into between the university and units involved in such functions.
- 9.2. Royalty income allocated to the inventor(s) in accordance with a Patent Agreement (sec. 6.0) between the inventor and the SDSU Research Foundation shall be unconstrained by the stipulations of this section.
- 9.3. The disposition of funds accruing to the Associated Students shall be unconstrained by the stipulations of this

section.

- 10.0 Amendments:** Changes in or exceptions to this policy shall be recommended by the University Research Council and the Vice President for Research and Innovation for approval by the Senate and the President.

Research, Classified or Otherwise Privileged

- 1.0** San Diego State University shall not engage in classified or otherwise privileged research.
- 1.1. “Classified research” shall refer to projects restricted in whole or in part for purposes of national security.
 - 1.2. “Otherwise privileged research” shall refer to projects that involve requests from sponsors or others for the maintenance of confidentiality and that are subject to one or more of the following restrictions:
 - a) The research or its results shall be neither in whole nor in part freely publishable.
 - b) Manuscripts and other documents generated from the research shall be subject to outside sponsor restrictions on publications of more than 90 days or to editorial changes by the sponsor without consent of the author.
 - c) Proprietary information shall be restricted by confidentiality agreement(s) as to be so pervasive or so central to the research that even the general nature of the research and its methodology cannot be disclosed, and the university can no longer ensure or accept legal responsibility for adequate oversight of the research by appropriate faculty or administrators not party to the confidentiality agreement(s).
 - 1.3. Maintenance of confidentiality in research for protection of individual rights to privacy pursuant to the university’s Guidelines on the Protection of Human Subjects, the Family Education Rights and Privacy Act, the San Diego State University Student Records Policy, and other applicable state and federal regulations shall not be construed as privileged research.
- 2.0** Requests by faculty members or students for exceptions to this policy shall be forwarded through the Dean of the College to the University Research Council for recommendation to and approval by the Vice President for Research and Innovation, and the President of the university.
- 2.1. Privileged research may be acceptable under the following conditions:
 - a) Brief delays in the publication of research for patenting or other proprietary purposes (one year maximum on approval of the Vice President for Research and Innovation) or for sponsor review and comment on manuscripts (not to exceed 90 days) provided that no sponsor agree that no changes in the manuscript be made without the consent of the author;
 - b) Protection of specifically identified proprietary information essential for the conduct of the research that is disclosed to the San Diego State University investigator by an outside sponsor, person, or entity under the terms of a confidentiality agreement between the investigator, the San Diego State University Research Foundation, and the owner of the intellectual property;
 - c) Maintenance of confidentiality in certain research-related activities primarily undertaken as a service (e.g., certain subcontracted clinical trial studies) wherein the project director certifies in advance that the activity is not primarily “research” and the results are not independently publishable (on approval of the President of the university or designee).
 - 2.2. No thesis or dissertation shall be accepted as the basis for a degree if it is subject to restraints imposed by privileged research. The Dean of the College of Graduate Studies may, however, approve requests from students to withhold library shelving of a thesis or dissertation approved by the faculty for up to one year to protect the patent or other proprietary rights of students and faculty.
- 3.0** In national emergencies, the President of the university may elect to accept classified research upon the recommendations by the Dean of the College, the University Research Council, and the Vice President for Research and

Research and Scholarship, Integrity in

- 1.0** Members of the academic community involved in the conduct of research and scholarship shall adhere to the highest standards of ethical behavior. This policy applies to all individuals at San Diego State University including those engaged in research that is supported by the Public Health Service (PHS) or for which an application has been submitted. The procedures herein shall protect the rights and reputations of parties involved in alleged misconduct and shall cover allegations involving students employed on research grants or contracts. Allegations of academic dishonesty by students engaged in research, as part of their academic program, shall be dealt with according to University academic policies, student disciplinary procedures, and regulations of Graduate and Research Affairs.
- 2.0** Guidelines for Identifying Misconduct: Consistent with the Public Health Service (PHS) definition (42 CFR 93.103), research misconduct means “ fabrication, falsification, or plagiarism for proposing, performing, or reporting research results” and shall not include honest error or honest differences in interpretations or judgments of data. The same shall apply to scholarship.

The definitions of misconduct in academic research and scholarship are as follows:

- a) Fabrication is making up data or results and recording or reporting them.
- b) Falsification is manipulating research materials, equipment, or processes, or changing or omitting data or results such that the research is not accurately represented in the research record.
- c) Plagiarism is the appropriation of another person's ideas, processes, results, or words without giving appropriate credit.

3.0 Procedures for Handling Allegations of Misconduct

- 3.1. Inquiry Process. Initial reports or charges of misconduct in research or scholarship shall be directed first to the dean of the college in which the alleged misconduct has occurred. The dean shall inform the department or program chair and the research or scholarship supervisor(s) of the allegations. The dean shall also inform the involved faculty member(s) or non-faculty employee(s) of the nature of the allegations, the nature of the inquiry, and the rights of the parties involved. Diligent efforts will be made to protect the positions and reputations of those who, in good faith, make allegations of scientific misconduct.
- 3.2. The college dean, after consultation with the department or program chair and appropriate research or scholarship supervisor(s) with appropriate expertise for inquiries, shall conduct promptly a preliminary inquiry to determine whether there is sufficient prima facie evidence to merit a formal investigation of the charges and shall inform the Vice President for Research and Innovation or designee that a preliminary inquiry is under way. Precautions shall be taken to prevent real or apparent conflicts of interest on the part of those involved in the inquiry. Confidentiality shall be strictly maintained throughout the inquiry to the extent allowed by law. If an inquiry is terminated for any reason without completing all relevant requirements, a report summarizing the termination shall be sent to the appropriate official (ORI for PHS funded research). For PHS funded research, the Vice President for Research and Innovation or designee shall notify the Office of Research Integrity (ORI) of the Public Health Service within 24 hours of obtaining reasonable indication of an immediate health hazard, need to protect Federal funds or equipment and individuals affected by the inquiry, and that the alleged incident may be publicly reported.
- 3.3. The college dean shall forward without delay a written report to the Vice President for Research and Innovation or designee. An inquiry must be completed within 60 calendar days of its initiation unless circumstances clearly warrant a longer period. Any extension of this period shall be based on good cause and recorded in the inquiry file. The written report shall (a) state the evidence reviewed, (b) summarize relevant interviews, and (c) include the conclusions of the inquiry. A copy of the report of the inquiry shall be given to the person(s) against whom the allegation has been made, and their comments on that report may become part of the record. Detailed documentation of the inquiry shall be maintained by the Vice President for Research and Innovation or designee for at least three years and, in federally funded research, shall be provided upon request to authorized personnel. Appropriate interim administrative action shall be

taken to protect Federal funds and ensure that the purposes of the Federal financial assistance are being carried out.

- 3.4. If, after consideration of the report of the inquiry, the Vice President for Research and Innovation or designee determines that there is not sufficient prima facie evidence to support the charges, no further action need be taken, and the Provost and the parties involved shall be so informed. Efforts shall be taken, as appropriate, to restore the reputations of persons alleged to have engaged in misconduct when allegations are not confirmed.
- 3.5. Investigation Process. If, after consideration of the report of the inquiry, the Vice President for Research and Innovation or designee determines that sufficient prima facie evidence supports the charges, the Vice President for Research and Innovation or designee shall appoint within 30 days of the completion of the inquiry an ad hoc committee with appropriate expertise to conduct a formal investigation, and the Provost shall be so notified. The membership of the committee shall consist of at least four knowledgeable and impartial persons including one representative from the department, program, or auxiliary unit of the involved faculty member(s) or non faculty employee(s) and three faculty members from related departments, programs, or areas. For externally funded research, the Vice President for Research and Innovation or designee may also appoint a member of the San Diego State University Research Foundation as an ex officio member to represent the interests and legal obligations of the Research Foundation. In addition, the Vice President for Research and Innovation or designee may appoint members from outside the institution in order to broaden the expertise of the committee. Precautions shall be taken against the investigators' real or apparent conflicts of interest.
- 3.6. As soon as the committee has been requested to conduct a formal investigation, the Vice President for Research and Innovation or designee shall notify the accused faculty member(s) or non faculty employee(s) of the charges and the function of the committee. In consultation with the Provost and the college dean, the Vice President for Research and Innovation or designee may determine that the research activities of the involved researcher(s) may be restricted or monitored during the course of the investigation. The Vice President for Research and Innovation or designee shall also notify the President, the Provost, the school director or the department or program chair, and for funded research the Chief Executive Officer of the San Diego State University Research Foundation and the project officer(s) of the funding agencies that a formal investigation involving charges of misconduct in research or scholarship has been initiated. For PHS funded research, the Director of the Office of Research Integrity shall be notified in writing on or before the date the investigation begins, and such notification shall include (a) the name of the person(s) against whom the allegations have been made, (b) the general nature of the allegations, and (c) the application or grants involved. If an investigation is terminated for any reason without completing all relevant requirements, a report summarizing the termination shall be sent to the appropriate official (ORI for PHS funded research). Confidentiality of the affected individual(s) shall be strictly maintained throughout the investigation to the extent possible.
- 3.7. The Vice President for Research and Innovation or designee shall convene the committee, appoint one of the faculty on the committee to serve as chair, present the charges and allegations, and discuss University and Research Foundation policies and procedures pertinent to the investigation. The committee shall investigate all charges and facts and may interview parties appropriate to reaching a decision regarding the merit or lack of merit to the charges. The chair of the committee shall meet with the appropriate personnel officers (i.e., Associate Vice President for Faculty Advancement and Student Success, Director of the Center for Human Resources, and Research Foundation Director of Human Resources) regarding existing procedures and safeguards to protect all parties' rights and reputations before carrying out the investigation. Diligent efforts shall be made to protect the positions and reputations of those who, in good faith, made allegations of scientific misconduct. The committee shall begin its investigation promptly and shall provide a written report of its findings and recommendations to the Vice President for Research and Innovation or designee no later than 60 days after beginning the formal investigation. The Vice President for Research and Innovation or designee may either accept the report or return it to the committee for further information or clarification. The committee shall also forward the final copy of this report to the accused parties, who shall have an opportunity to comment on the findings. The investigation shall be completed within 120 calendar days. For PHS funded research, the Vice President for Research and Innovation or designee shall notify the Office of Research Integrity (ORI) of the Public Health Service

within 24 hours of a reasonable indication of possible criminal violations are found or about an immediate health hazard, need to protect Federal funds or equipment and individuals affected by the investigation and that the alleged incident may be publicly reported. Appropriate interim administrative action shall be taken to protect Federal funds and ensure that the purposes of the Federal financial assistance are being carried out. ORI shall be promptly advised of any developments during the course of the investigation which disclose facts that may affect current or potential DHHS funding for individual(s) under investigation or that the PHS needs to know to ensure appropriate use of Federal funds and otherwise protect the public interest. If the investigation cannot be completed within 120 days, a request for extension shall be made to the ORI with an explanation for the delay, an interim report on progress to date, an outline of what remains and an estimated date of completion.

- 3.8. If from the findings and recommendations of the committee the Vice President for Research and Innovation or designee determines that no unethical or fraudulent acts have been committed, all parties shall be notified accordingly. The Vice President for Research and Innovation or designee and the college dean shall undertake all necessary efforts to restore fully and promptly the reputation and credibility of the researcher(s) under investigation when allegations are not confirmed. All interim restrictions on research activity shall be promptly removed.
- 3.9. If from the findings and recommendations of the committee, the Vice President for Research and Innovation or designee determines that there is evidence of misconduct, he or she shall report to the Provost this conclusion and recommendations regarding the imposition of sanctions or disciplinary action. The President shall make the final determination regarding the appropriateness of the recommendations. Sanctions may include (a) termination of current research or scholarly activity, (b) public disassociation of the University from future unauthorized research or scholarly activity, (c) restriction from future research or scholarly activity for some period of time, (d) special prior review and approval requirements in future research or scholarly activities, and (e) debarment from intramurally funded research or scholarly programs. The President may also determine whether the matter warrants a reprimand or disciplinary action pursuant to the Collective Bargaining Agreement or sec. 89535–89539 of the Education Code or should be referred to the cognizant auxiliary organization for appropriate action.
- 3.10. The President shall determine whether information about the charges, the investigation, or their disposition shall be released to the public, the press, or specific parties (e.g., editors of journals in which papers or reports of the research in question may have appeared). For externally funded research, the sponsoring agency shall be notified of the findings of the investigation and the final disposition of any sanctions, disciplinary action, or restitution to be made. For PHS funded research, a written report documenting the investigative process, summary of information obtained relevant to the investigation, findings to include the actual text or summary of the views of individual(s) found to have engaged in misconduct, and sanctions taken by the institution shall be made available to the Director of the ORI, who shall decide whether that office shall proceed with its own investigation. The University shall maintain such documentation for at least three years after PHS acceptance of the final report.

Sexual Assault, Domestic Violence, and Stalking

- 1.0 San Diego State University shall be committed to creating a community free from the crimes of sexual assault, domestic violence, and stalking. All members of the San Diego State University community shall uphold this policy.
- 2.0 The university shall cooperate fully in any criminal prosecution or civil litigation that may occur as a result of crimes of sexual assault, domestic violence, or stalking that are committed on the campus, at an off- campus facility, or at a university function.
- 3.0 A person who is convicted of committing these crimes on university property, at a university off-campus facility, or at a university function shall face maximum campus sanctions as prescribed by policies, codes, and collective bargaining agreements that govern the behavior of students, faculty, staff, and guests or visitors.
- 4.0 Members of the campus community and their guests or visitors should report crimes of sexual assault, domestic violence, and stalking to the appropriate university officials. A list of those appointed to receive these complaints and a

summary of campus resources available to survivors of these crimes shall be made available.

- 4.1. Those who have experienced or witnessed the crimes of sexual assault, domestic violence, and stalking should seek immediate assistance from the University Police and campus caregivers. Those seeking assistance shall be treated with respect and dignity, and their concerns shall be responded to in a timely and professional manner. To ensure a responsive environment to victim, the university shall provide support services to address the personal and academic needs of those surviving sexual assault, domestic violence, and stalking while these crimes are being investigated and prosecuted on and off the campus.
- 4.2. University officials responding to charges of sexual assault, domestic violence, and stalking shall inform victims of their rights and the various options for relief, including the necessary steps and potential consequences of each option. These shall include but may not be limited to support in pursuing criminal prosecution, civil litigation, campus disciplinary action, and campus grievance procedures. Victims shall also be counseled about various options including mediation, alternative housing assignments, and academic scheduling assistance.

- 5.0 This policy has been enacted by San Diego State University in accordance with California State Law, Assembly Bill 3098, Postsecondary Education: Student Safety (July 1990).

Sexual Harassment

- 1.0 San Diego State University shall be committed to preventing sexual harassment and to promptly addressing violations of this policy. The university shall create and maintain a positive learning and working environment for its students and employees and shall not tolerate sexual harassment. Nothing herein shall contravene rights guaranteed in the Constitution of the State of California or the Constitution of the United States.
- 2.0 Sexual harassment and its behaviors shall be prohibited by the university: Sexual harassment is demeaning and degrading and a form of prohibited discrimination on the basis of sex. As an affront to one's dignity, sense of self, and self-esteem, it can negatively impact performance at work or in an academic setting.
- 3.0 Sexual harassment is illegal: It is a violation of state and federal laws including the California Education Code, sec. 212.5, Title VII of the Civil Rights Act of 1964, and Title IX of the Education Amendments of 1972. Sexual harassment is specifically prohibited in The California State University by Executive Order 1096 (2016).

4.0 Scope

- 4.1. This policy shall apply to all persons at the university or attending university sponsored classes, events, and programs. Visitors to the campus and workers employed by private firms engaged in business on the campus shall comply with this policy.
- 4.2. The SDSU Research Foundation, the Campanile Foundation, Aztec Shops, and the Associated Students, as auxiliaries of the university, also have policies that prohibit sexual harassment. These policies apply to programs and employees of the respective auxiliaries and each has a procedure and office designated for receiving reports of sexual harassment. Complaints related to auxiliaries may also be reported to the Office of Employee Relations and Compliance.
- 4.3. The university and its auxiliaries shall promptly and reasonably investigate complaints of sexual harassment. If the alleged harasser is an employee of the university or of an auxiliary, the employer shall investigate and implement remedies and discipline as appropriate. Wherein the alleged harasser is not an employee or student, the university or auxiliary shall take action to minimize the recurrence of the harassing behavior. Although each auxiliary has a reporting procedure, complaints may be reported to the Office of Employee Relations and Compliance, which shall redirect the complainant to the appropriate auxiliary.

5.0 Definitions

- 5.1. Sexual harassment shall be the unwelcome imposition of sexual attention often in the context of a relationship of unequal power. This policy shall apply to men and women equally with regard to both opposite sex and same sex

harassment.

- 5.2. Sexual harassment shall be any conduct, physical or verbal, that is sexual and has the effect of unreasonably interfering with a person's or a group's educational or work performance or that creates an intimidating, hostile, or abusive educational or work environment.
- 5.3. Because academic freedom shall be safeguarded and the openness and integrity of the teaching process shall be protected, discussion of sexual topics and the discussion and display of sexually explicit materials and the touching of students in certain classroom settings may be professionally appropriate and shall not necessarily constitute "sexual harassment."
- 5.4. The California Education Code, sec. 212.5, states: "Sexual harassment means unwelcome sexual advances, requests for sexual favors, and other verbal, visual, or physical conduct of a sexual nature, made by someone from or in the work or educational setting, under any of the following conditions:
 - 5.4.1. "Submission to the conduct is explicitly or implicitly made a term or a condition of an individual's employment, academic status, or progress.
 - 5.4.2. "Submission to, or rejection of, the conduct by the individual is used as the basis of employment or academic decisions affecting the individual.
 - 5.4.3. "The conduct has the purpose or effect of having a negative impact upon the individual's work or academic performance, or of creating an intimidating, hostile, or offensive work or educational environment.
 - 5.4.4. "Submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the educational institution."
- 5.5. Examples of sexually harassing conduct may include but shall not be limited to the following: (a) sexual assault, (b) derogatory comments of a sexual nature, (c) displaying sexually suggestive pictures or objects, (d) graphic verbal commentaries about a person's body, (e) impeding or blocking movements, (f) jokes of a sexual nature, (g) slurs of a sexual nature, (h) suggestive gestures, (i) unwelcome touching. Some of these examples may not, however, constitute sexual harassment if appropriate to reasonable academic purposes.
- 5.6. Conduct may be found to be sexually harassing if it is pervasive or repetitive and sufficiently severe to alter the conditions of employment, education, or participation in university-sponsored activities or is a single incident sufficiently outrageous or harmful in and of itself that it substantially alters the conditions of the environment for the complainant or interferes with a person's right to pursue an education or to perform a job-related responsibility.

6.0 Intent of Sexually Harassing Behavior: A claim by an alleged harasser that he or she did not intend to commit sexual harassment is not, as the law currently stands, a defense to a complaint of sexual harassment. Regardless of intent, the effect, characteristics, and context of the behavior shall determine whether the behavior constitutes sexual harassment.

7.0 Sanctions for Sexual Harassment

- 7.1. Sanctions that San Diego State University may impose for sexually harassing behavior or other unprofessional conduct by a faculty or staff member shall include but not be limited to reprimand, mandatory attendance at sexual harassment training programs, suspension, demotion, and dismissal (loss of tenure).
- 7.2. Sanctions imposed for sexually harassing behavior by a student shall include but are not limited to mandatory attendance at sexual harassment training program, probation, suspension, and expulsion.
- 7.3. Sexually harassing behavior by nonstudents or nonemployees may result in restricting the harasser's access to campus.
- 7.4. In addition to university-imposed sanctions, persons who commit sexual harassment shall be subject to personal

liability for damages suffered by the complainant.

8.0 Consensual Relationships: For purposes of this policy, a consensual relationship shall be any freely and mutually agreed-to dating, romantic, or sexual relationship between persons. The previous existence of a consensual relationship shall not be considered a defense in the context of a sexual harassment complaint.

9.0 Administrative Office for Coordinating Complaints: The Office of Employee Relations and Compliance shall coordinate the university response to complaints of sexual harassment and shall educate the university community about sexual harassment. It shall be a clearinghouse for university sexual harassment complaints and investigations, including those that arise in auxiliary corporations. It shall develop and disseminate sexual harassment complaint procedures to implement this policy and shall disseminate applicable state and federal regulations. Copies of these procedures shall be available at the Office of Employee Relations and Compliance and on its Website.

10.0 Mandatory Reporting by University Officers: Upon learning of allegations of sexual harassment from the alleged victim, deans, directors, department chairs, and other officers of the university shall report the allegations to the Office of Employee Relations and Compliance within five working days.

11.0 Procedures for Reporting Sexual Harassment

- 11.1. A student, staff, or faculty member who believes that he or she has been sexually harassed may initiate a complaint with the Office of Employee Relations and Compliance or the designated office in the appropriate auxiliary. The Office of Employee Relations and Compliance or the auxiliary shall investigate complaints of sexual harassment and coordinate a formal investigation, a mediated intervention, or a formal mediation.
- 11.2. A formal investigation shall be initiated by the complainant filing and submitting a Formal Complaint Form with the Office of Employee Relations and Compliance or by lodging a complaint with the appropriate auxiliary office. The procedures and time schedule for a formal investigation shall be available from the investigating office.
- 11.3. Mediated interventions shall include but not be limited to steps to stop the harassing behavior or to remove the complainant or alleged harasser from the harassing environment.
- 11.4. At any time from the initiation of a complaint to the conclusion of the campus investigation, either party or the university may suggest a confidential, nonbinding formal mediation of the dispute. Both parties and the University shall agree to any formal mediation and any resolution that arises therefrom.
- 11.5. Without filing a formal complaint, a student, faculty member, or staff member may discuss with staff in the Office of Employee Relations and Compliance behaviors that could be sexual harassment. If a described behavior fits the definition of sexually harassing behavior, some intervention may be required.
- 11.6. The university shall ensure that formal procedures appropriate to university complaints are followed. These procedures shall be governed by law, labor agreements, and university policy.

12.0 Other Persons to Contact

The Office of Employee Relations and Compliance shall coordinate the university response to complaints of sexual harassment. A list of other personnel in the auxiliaries trained to receive complaints of sexual harassment shall be available at the Office of Employee Relations and Compliance and in informational material regarding the Sexual Harassment Prevention policy. Lists shall also be available in the auxiliaries

- 12.1. Conversations with persons other than those designated shall not constitute notice to the university or its auxiliaries of allegations of sexual harassment.

The Chair shall be the Committee's administrative officer whose duties shall include the following: (a) arranging for appropriate times and places for meetings and hearings, informing members of the times and places of meetings and hearings, informing in writing all interested parties of the times and places of meetings or hearings that they are requested to attend and supplying them with a statement of alleged grievances, and informing all other interested parties that a grievance is pending and of the final disposition of the grievance; (b) securing and distributing written material appropriate for its consideration; (c) arranging for the recording of proceedings; (d) maintaining records and informing in writing the appropriate administrator of the committee's judgments regarding redress or recommendations regarding disciplinary action.
 - 2.6. Should any member of the Committee be unable to complete an appointed term, a replacement shall be appointed to fill the balance of the term by the original appointing officer or agency. Resignations shall be submitted in writing to the Chair of the Committee. The Chair shall inform in writing the appropriate officer or agency of the vacancy and shall request the prompt appointment of a replacement.
 - 2.7. Should a Committee member be unable to hear a case, an alternate shall be appointed for the course of the grievance.
 - 2.8. If a member of the Committee is granted an official leave for less time than remaining in a term, or if because of illness or other reasons a member is judged unwilling or unable to participate in the work of the Committee, the Chair shall inform the officer or agency of the appointee and shall request the prompt appointment of a temporary replacement. If a member is disqualified by the Chair from consideration, a replacement shall be appointed by the Chair from the list of alternates of the member's constituency.

3.0 Steps toward Redress

- 3.1. Steps toward redress should begin with informal discussions and should be resolved at the lowest level possible. If a satisfactory solution is not reached, the grievance should then be taken to the Student Grievance Committee for hearing and appropriate action.
- 3.2. Informal Discussion
 - 3.2.1. Informal discussion between persons directly involved in a grievance shall be essential in the early stages of the dispute and should be encouraged at all stages. An equitable solution to a problem should be sought before the persons directly involved in the case have assumed official or public positions that might polarize the dispute and render a solution more difficult. Neither persons directly involved in a case nor any other persons shall use the informal discussion, the filing of a grievance, or the character of the informal discussions to strengthen the case for or against persons directly involved in the dispute or for a purpose other than to settle the grievance.
 - 3.2.2. When a student feels aggrieved by a member of the faculty, administration, or staff, the student may consult with fellow students, non-involved faculty members, the counseling staff, the Ombudsman, the Assistant Dean of the College in which the course was taken, the Associate Vice President for Faculty Advancement and Student Success or the Dean of the College of Graduate Studies to evaluate the situation and to determine which of the following steps might best apply:
 - a) The student should bring the complaint to the attention of one or more of the proper department, school, or college committees where such grievance provision exists or to the chair, director, dean, administrator, or staff supervisor; or

- b) The student should bring a complaint against an administrator or staff member to that person's supervisor.

3.3. Procedures for Hearings by the Committee

- 3.3.1. No student grievance shall be filed with the Committee later than the last day of the semester (excluding summer session) after the semester during which the student was allegedly aggrieved.
- 3.3.2. When informal recourse fails, the student may file in writing to the Committee an appeal accompanied by available documentary evidence. Simultaneously a copy of the complaint shall be given to the respondent.
- 3.3.3. The Committee shall establish and publish its own procedures in accordance with provisions for academic due process and in accordance with the stipulations below. Present at these meetings shall be only Committee members, parties to the action and their representatives, and testifying witnesses.
- 3.3.4. The Committee, before sitting as a whole to arrive at judgment, shall arrange for a swift and comprehensive investigation of the matter. From written statements presented by the complainant and from preliminary discussions with the complainant it shall decide whether there are sufficient grounds to hear a case and whether it will accept written statements in lieu of personal appearances by witnesses. The Committee shall review and consider documentary records of department, school, or college grievance organizations relating to the case. If the Committee closes the case, having decided that there are not sufficient grounds for a hearing, it shall notify in writing the complainant and respondent as to the reasons for its actions.
- 3.3.5. If the Committee determines that the case merits further consideration, the parties involved (a) shall be informed in writing, (b) shall be consulted as to the possibility of correcting the situation, and (c) if a hearing is still required, shall be advised in writing of the scheduled time, place of the hearing, and the alleged grievance.
- 3.3.6. At the hearing the complainant, the respondent, persons directly involved, and witnesses may testify and be questioned by either party and Committee members. Written evidence presented by either party may be subject to refutation and consideration by the opposite party and Committee members. Only evidence presented in the hearings shall be considered in the final judgment.
- 3.3.7. A record of the hearing shall be presented for reference and review. A tape recording of the hearings shall be made and shall be retained for at least five years.
- 3.3.8. Proceedings shall be conducted in accordance with the American Association of University Professors' Joint Statement on Rights and Freedoms of Students (1967).

4.0 Judgment

- 4.1. Committee members shall arrive at a judgment in consultation among themselves. Only those entitled to vote on the case, their alternates, the chair, the Ombudsman, and a clerk secretary shall be present during consultation and voting. Only members of the Committee who have heard all testimony during the hearing relating to the alleged grievance shall vote on the case.
- 4.2. If informal attempts at redress fail, a judgment of the Student Grievance Committee relating to redress alone shall be forwarded to the appropriate administrator. When redress requires that a grade be changed, the Committee by vote of two-thirds of the members of the Committee who have heard the grievance shall forward their judgment to the Provost who shall affirm or deny the judgment of the Committee. If the Provost affirms the decision, the Provost will direct the appropriate administrator for recommended redress. When the decision whether to change a grade depends upon the quality of work in a course, the chair of the department involved in the grievance will be asked by the SGC to recommend faculty at SDSU or elsewhere competent in the subject matter of that course to evaluate the quality of the work. This expert consultation will be considered by the SGC before a judgment is reached.

- 4.3. The Committee shall transmit its judgment regarding academic matters to the Provost who will direct final action. The committee shall transmit its judgments regarding redress for other matters to the appropriate administrator.
- 4.4. When in the opinion of the Committee disciplinary action may be appropriate, the Committee may recommend further action to the appropriate administrator.
- 4.5. The judgments reached by this Committee shall take precedence over decisions reached by student grievance committees within departments, schools, or colleges, and over decisions made by individual deans.
- 4.6. If redress requires a policy change or if a policy change appears advisable or necessary, the Committee shall refer its recommendations to the Senate Executive Committee or to the President as appropriate.
- 4.7. Should any person, whether or not directly involved in a complaint, allegedly suffer some disadvantage, discrimination, or reprisal as the result of a complaint, testimony, or statement in connection with Committee action, the Student Grievance Committee shall, upon request or upon its own motion, exercise original jurisdiction and take the necessary steps to verify the facts and remedy the injustice.

Violations may result in University disciplinary action or referral to appropriate external authorities.

- 1.2.2. Scope of Policy. This acceptable use policy applies to all uses of University information technology (IT) resources. This includes the resources under the management or control of the Information Technology Division (ITD) or other units of San Diego State University, as well as auxiliaries e.g., Research Foundation, Aztec Shops, etc.. A "user" is defined as any individual who uses, logs into, or attempts to use or log into, an application or system; or who connects to, or attempts to connect to or traverse, a network, whether by hardware or software or both, whether on campus or from remote locations. The policy addresses the confidentiality, integrity and availability of such resources in support of the University's missions, codifies appropriate usage and establishes the need for users to

respect the rights of others and to be in compliance with other University policies, policies of external networks and resources, and all applicable federal, state and local laws and regulations.

- 1.2.3. Security and Privacy. The same principles of academic freedom and privacy that have long been applicable to written and spoken communications in the University community apply also to electronic information. The University cherishes the diversity of perspectives represented on this campus and, accordingly, does not condone either censorship or the unauthorized inspection of electronic files.

Freedom of thought, inquiry, and expression is a quintessential academic value. Material considered offensive to one person may not be to others and may constitute expression protected by the First Amendment of the United States Constitution. SDSU relies on the integrity and responsible use of campus technology resources by each of its members and expects adherence to the highest academic standards. Materials that violate applicable laws (e.g., child pornography, copyright infringement, etc.) or SDSU policy (e.g., sexually explicit content creating a hostile work environment, etc.) may not be accessed through or stored on campus technology resources.

Users should be aware, however, that the University cannot guarantee absolute security or privacy. Users should therefore engage in "safe computing" practices by safeguarding their accounts, and regularly changing and never sharing their passwords. Backup and recovery systems must be implemented in accordance with University disaster recovery guidelines, and all institutional systems must utilize security controls (such as multi-factor authentication) in accordance with effective practices and University policies and procedures.

Users should also be aware that their uses of University information technology resources are not completely private as the information contained will be subject to the University's obligation to respond to subpoenas or other court orders, reasonable discovery requests, university inquiries relating to alleged violations of law and/or policy, and public requests for documents pursuant to California and Federal Law. All University records are subject to public record requests, unless an expressed exception in the law recognizes the confidentiality of the material, such as the exceptions provided for student, medical, or library records.

The Public Records statute contains no general exception for documents generated by faculty or staff in the course of their employment. As a result, faculty and staff should refrain from keeping personal information on University systems, and utilize a personal email account for their personal communications. Additionally, users should be aware that University records that are otherwise subject to open records requests do not become confidential if they are created or stored on personally owned devices or in personal accounts. Hence, the absolute privacy of electronic communication cannot be guaranteed.

All users of SDSU information technology resources are advised to consider the open nature of information disseminated electronically, and should not assume any degree of privacy or restricted access to such information. Further, SDSU may inspect, capture, lock, or disclose electronic communications records without the consent of the holder of such records or the owner of the account:

- a) When required by and consistent with the law;
- b) When there is a substantiated reason to believe that violations of law or policy have taken place;
- c) When there are compelling circumstances that limit the ability of the record holder to give permission; or
- d) Under critical operational or security-related circumstances.

- 1.2.4. Individual Responsibilities. Access to SDSU's information technology resources is a privilege granted to faculty, staff and students in support of their studies, instruction, research, duties as employees, official business with the University, and/or other University-sanctioned activities. Access may also be granted to emeritus faculty, staff and administrators and individuals outside of SDSU, including volunteers and contractors, for purposes consistent with the mission of the University. The University retains the right to set priorities on use of its computer and network resources and to limit recreational or personal uses when such uses could reasonably be expected to cause strain, directly or indirectly, on any computing facilities; to interfere with research, instructional, or administrative computing requirements; or to violate applicable policies or laws.

Authorized users are expected to:

- Protect information, data, and systems, and clearly and accurately identify oneself in electronic communications.
- Use computer and network resources efficiently.
- Ensure that the use of computer resources and networks is oriented toward the academic and other missions of the University.
- Ensure that default passwords are changed using strong password methodologies and prohibiting use by unregistered Users.

Examples of misuse include, but are not limited to, the activities in the following list:

- Violation of applicable Federal or State laws, CSU or Campus policies.
- Copyright infringement - reproduction or distribution of copyrighted works not according to the Copyright laws or Fair use.
- Knowingly running or installing on any computer system or network or giving another user a program intended to damage or place excessive load on a computer system or network.
- Using facilities and computer systems for commercial purposes, or personal financial gain (except where permitted by academic policy).
 - Use of a University computer account to engage in consulting services, software development for private profit, advertising products/services, crypto-currency mining, and/or other commercial profit-based endeavors.
- Purposely sending electronic junk mail, phishing, or chain letters.
- Using a computer account or password that a user is not authorized to use.
- Forging or misrepresenting one's identity, or altering or concealing the source of electronic communications, such as creating or editing an email to make it appear as if the message was sent by someone else.
- Using electronic communication (via email, listserv, chat, web conference or otherwise) to harass or intimidate others. Violations of this policy may lead to disciplinary actions, up to and including termination or expulsion, as well as revocation of access to university information technology resources.

1.2.5. Implementation/Procedural Considerations. Upon initial access and annually thereafter, users must acknowledge they have read and agree to abide by the Responsible Use Policy and applicable standards.

1.2.6. Revocation of Access. Violations of university computing policies may result in the revocation of access or the discontinuance of an account or the loss of computing privileges. Any revocation of access or loss of computing privileges for faculty, staff and administrators will be subject to and consistent with university policies relating to discipline. The revocation of access, discontinuance of an account or the loss of computing privileges for an emeritus faculty, staff, or administrator or for a non-SDSU employee, including volunteers and contractors, as a result of a violation of university computing policies will be at the discretion of the appropriate campus governing bodies. Security misuse resulting in the immediate need to revoke access will be at the discretion of the Vice President for Information Technology.

The university may also revoke access and/or discontinue an account for emeritus faculty, staff, and administrators as well as for non-SDSU employees when there is a pattern of non-use over a period of one year.

1.3. Legality and Enforcement

1.3.1. University policies shall not supersede federal or state laws. Illegal actions may result in prosecution.

1.3.2. Violations of university computing policies may result in the revocation of access or the discontinuance of an account or the loss of computing privileges.

1.4. Privacy: Computer files, electronic mail, and computing accounts shall not be absolutely private and may be subject to access by various authorized persons in compliance with the California Public Records Act.

1.5. Operational procedures shall be determined and periodically reviewed by the Instructional and Information

Technology Committee.

2.0 Electronic Mail

- 2.1. Communication through electronic mail should be encouraged and supported in the same manner as in classrooms, publications, and correspondence through standard hard copy mail. Professional codes of conduct shall prevail, and users shall adhere to standards of civil communication.
- 2.2. Email messages shall be the intellectual property of the source. Acknowledgment of the source should follow general citation guidelines.
- 2.3. The email system shall be managed like other campus communications.
- 2.4. For university business, email lists may be created. Persons may request deletion from such lists but shall otherwise know the information transmitted through such lists.
- 2.5. Faculty and staff who request email service shall have an email account established and made available for their use.
- 2.6. Administrative units shall keep the university informed about email legalities. Persons should treat email with the same caution as hard copy mail.
- 2.7. Persons lacking legitimate business purposes for obtaining access to other persons' files or communications shall not use electronic mail and computer systems to access those files or communications.

Events

- 1.0 When the university or its auxiliary organizations offer, sponsor, or authorize on-campus events that contribute to teaching, research, community service, fund raising, community outreach, and campus life, the university shall facilitate campus operations to support the events and to mitigate their impact upon the campus learning environment and the surrounding community. Consultation by the Vice President for Business and Financial Affairs, the Associated Students, and the sponsoring organization shall precede a final decision to hold a controversial or conflicting event.
- 2.0 Major events shall be scheduled at least two months before the event date. The sponsoring event scheduler shall forward notice of a proposed event to the Events Calendar Coordinator for publication on the Campus Events Calendar. The Events Calendar Coordinator shall review and determine whether conflicts exist and whether the combination of events will adversely impact traffic, parking, safety, or other operations or facilities. Approval for each event shall require the resolution and mitigation of these adverse impacts, and the approval shall be vested with the Vice President for Business and Financial Affairs.

Faculty-Staff Club

- 1.0 The Faculty-Staff Club building shall be dedicated exclusively to the purposes of housing the Faculty-Staff Club.
- 2.0 Faculty and staff who are members of the Faculty-Staff Club shall contribute regularly toward its support according to a scale determined by the Faculty-Staff Club Board of Directors.

- 1.1. The loan period for faculty is six months with one renewal.
- 1.2. Books on loan to faculty are subject to recall at the request of faculty or of students. These requests are to be respected by the borrower, and the book returned. (If the book is vital to a current project, the library may be so advised so that special arrangements can be made.)
- 1.3. Nonprint items shall be loaned to faculty for a limited time.
- 1.4. Maximum periodical loan periods for faculty shall be (a) current (latest) issues: non-circulating, (b) unbound back issues: three days, (c) bound periodical volumes: seven days. The Dean of the Library may make exceptions to meet critical faculty needs.

6.0 Confidentiality: At the recommendation of Executive Board of the American Library Association, the Dean of the Library should:

- 6.1. Formally adopt a policy that specifically recognizes its circulation records to be confidential,
- 6.2. Advise librarians and library employees that such records shall not be made available to any agency of federal, state, or local government except pursuant to such process, order, or subpoena as may be authorized under the authority of, and pursuant to, federal, state, or local law relating to civil, criminal, or administrative discovery procedures or legislative investigatory power, and
- 6.3. Resist the issuance or enforcement of any such process, order, or subpoena until such time as a proper showing of good cause has been made in a court of competent jurisdiction.

Naming

- 1.0 The Trustees of the California State University have developed CSU policies on naming facilities ("Policy And Procedure On Naming California State University Facilities and Properties"), as well as colleges, schools, and other

academic entities (“Policy And Procedures On Naming California State University Colleges, Schools, and Other Academic Entities”). In these policies, the Trustees have retained for themselves the authority to name all CSU facilities and properties, i.e., all buildings; major portions of buildings; university or college streets or roads; stadium and baseball fields and other areas of major assembly or activity; plazas, malls, and other large areas of campus circulation; as well as naming all CSU colleges, schools, programs, centers, and institutes. The Trustees’ policy has stated that the naming of academic entities, as opposed to facilities, is to be reserved for fund-raising purposes only. The policies referenced above have outlined specific procedures to be followed in proposing names to the Trustees.

These policies, along with Executive Order 713 (1999), “Delegation of Authority - Naming of CSU Facilities and Properties,” (<http://www.calstate.edu/eo/EO-713.pdf>), have delegated to the President of each university in the California State University System the naming of those facilities and properties, academic entities, including endowed chairs, and scholarships for which the Trustees have not reserved the naming rights.

The intent of the following policy is to guide the process of naming entities for which the President of San Diego State University has been delegated ultimate responsibility.

2.0 Principles

- 2.1. Naming proposals may originate from administrators, faculty, staff, or students. Each proposal for naming shall be considered on its own merits. No commitment for naming shall be made before final approval of the proposed name. Confidentiality shall be maintained throughout the process of submitting a naming proposal.
- 2.2. Individuals originating proposals where the naming is associated with a philanthropic gift should seek guidance on procedures from the Office of the Vice President for University Relations and Development. When such proposals include the naming of facilities and properties, the Director of Facilities Planning, Design, and Construction should be consulted to ascertain the projected cost of the facility and to ensure that proposed design changes, including signage or other modifications, are appropriate. Non-philanthropic proposals that involve naming facilities and properties should proceed through the Campus Development Committee.
- 2.3. A name of an SDSU facility, academic entity, or project shall meet one or more of the following criteria:
 - 2.3.1. It designates the function of a facility or entity.
 - 2.3.2. It reflects geographic or topographical features of the facility or entity.
 - 2.3.3. It reflects a traditional theme of the university or college.
 - 2.3.4. It honors one or more individuals or an organization for one of more of the following reasons:
 - a) Unique distinction in higher education or public service,
 - b) Academic service to the university and a national or international reputation as a scholar or extraordinary contributions to SDSU or the CSU,
 - c) Administrative service to the university marked by extraordinary contributions to SDSU or the CSU,
 - d) Staff service to the university marked by extraordinary contributions to SDSU or the CSU, or
 - e) A monetary gift or gift-in-kind to the university or an income generating gift, including a gift made by another in the named individual’s behalf.
- 2.4. Substantial contributions for naming purposes shall be encouraged from both private and corporate donors. In general, the amount of the contribution should equal or exceed the “best practice” for the sort of naming envisioned, as determined by data from the Council for Advancement and Support of Education.

3.0 The Role of Consultation in the Naming Process.

- 3.1. Appropriate faculty members should be consulted whenever the naming of a facility or an entity directly affects them.
- 3.2. Appropriate students should be consulted whenever the naming of a facility or an entity directly affects them.

The Associated Students shall determine the procedures by which students should be consulted in the naming process.

4.0 The Senate Executive Committee (SEC) shall act on behalf of the Senate in considering naming proposals.

4.1. The committee may receive such proposals at its regular meetings, or special meetings of the SEC may be called for the purpose of acting on naming proposals. The SEC shall meet in executive session to consider these proposals and shall maintain confidentiality regarding its deliberations. In reviewing naming proposals, the SEC shall consider:

- a) The fit between the proposal and the criteria for naming outlined in Section 2.0 above.
- b) The appropriateness of the monetary gift involved, if any, for the significance of the entity to be named.
- c) The vetting process that was employed to ensure the integrity of the gift, as well as the integrity of the donor.
- d) The consultation process is employed to ensure that the proposal has the support of affected faculty and/or students.

4.2. The SEC's recommendation shall be transmitted confidentially to the President.

Noise Abatement

- 1.0** An instructor, staff member, or student hampered by noise pollution may call the Office of the Director of Public Safety to request a decibel meter reading of the sound level in his or her classroom or office. The Director of Facilities Planning, Design and Construction shall prohibit repeatedly noisy events from occurring in specific areas, order removal of noisy machinery to a more remote site, or do whatever is necessary to eliminate a persistent source of noise pollution.
- 2.0** Equipment buyers in Physical Plant operations shall consider carefully the noise generated by machinery being considered for purchase. Equipment that causes excessive noise in classrooms and offices shall be phased out as rapidly as possible.
- 3.0** Existing and future fixed machinery shall be installed in noise-abating acoustical environments.
- 4.0** No motorcycle parking lots shall be allowed in the campus interior.
- 5.0** Authorization to bring moving vehicles into the campus interior shall be regulated to avoid noise.
- 6.0** Campus planning shall include noise abatement. The Campus Development Committee may consider abolishing parking in the campus interior except for service vehicles, handicapped parking, and any other essential use, and replacing paved lots with landscaping and benches.

Parking and Traffic

1.0 Permit Requirements

- 1.1. State law requires that a fee be charged for parking on university property by San Diego State University faculty, staff, and students. Every vehicle, including those with specialized license plates, not otherwise exempt, that occupies a parking stall shall display a valid permit in accordance with the regulation and time and date posted. Parking lots and structures shall have signs posted indicating when parking permits are required.

Title 5 of the California Code of Regulations, art. 7, subchap. 5, reads in part: “No person shall drive any vehicle, nor shall any person stop, park or leave standing, any vehicle upon the driveways, paths, or grounds of any campus, except with the permission of the president of the campus where such a vehicle is driven or parked.”
- 2.1.3. The garaging of vehicles shall be prohibited except for residence hall tenants with the appropriate permit to park for long term in selected residence hall areas.
- 2.2. Violations: The university shall be authorized to create and enforce parking regulations pursuant to the California Vehicle Code, sec. 21113(a). In addition, other state and local laws relative to parking and vehicle operation shall be enforced on university property.

3.0 Residence Hall Parking: A special parking area may be set aside for those living in specified residence halls; these residents shall receive designated parking permits for use in that campus area only.

4.0 Micro-Mobility Transportation

Micro-mobility refers to alternate modes of transportation to include skateboards, scooters, bicycles, roller skates, hoverboards or any other device whether human propelled, electric or motorized.

- 4.2. Commercially shared electric or motorized skateboards, scooters, bicycles, or other non-human propelled micro-mobility devices may only be permitted to be used on campus if the commercial entity has a current operating contract with the university. All electric or motorized micro-mobility devices used to commute to campus shall be parked in zones designated for these devices.

They shall not be ridden or walked elsewhere on campus but shall be parked in areas designated for motorcycles and not in bicycle stands or in areas designated for bicycles.
- 4.8. Motorized and non-motorized carts, trucks, or dollies approved for operations on campus and only officially permitted motor vehicles shall be operated in areas other than designated bike/skateboard lanes.
- 4.9. These prohibitions shall not apply to non-ambulatory persons in wheelchairs or to children in carriages or strollers.
- 4.10. These prohibitions shall be enforced in accordance with the San Diego State University Public Safety Code, Section 100 and the California Vehicle Code, Section 21113(f) (as revised to conform to this policy change).
- 4.11. The university, at principal entrances and accesses, shall post appropriate signs to campus.

No tobacco-related advertising or sponsorship shall be permitted on SDSU property, at college-sponsored events or in publications produced by the college, with the exception of advertising in a newspaper or magazine that is not produced by SDSU and which is lawfully sold, bought or distributed on campus property. For the purposes of this policy, "tobacco-related" applies to the use of a tobacco brand or corporate name, trademark, logo, symbol or motto, selling message, recognizable pattern of colors or any other indicia of product identification identical to or similar to, or identifiable with, those used for any brand of tobacco products or company which manufactures tobacco products.
- 3.0** The designated officials in charge of receiving complaints about employees shall be Human Resources, and for complaints about students shall be Student Affairs. Other violations shall be referred to Public Safety, unless other designated officials are named by the President to receive complaints concerning violations of this policy. This official, policy, procedures for complaints, and consequences of violations will be posted online. If needed, AB 795 allows for fines to be assessed for repeat violators, and this avenue will be explored if needed, though social enforcement shall be the primary means of enforcement.
- 4.0** All members of the campus community will be informed of the smoking policy by widely distributing the campus tobacco policy on an annual basis. The tobacco policy will be clearly posted in employee and student handbooks, on the college/university website, and in other relevant publications. Key components of the policy will be also shared with parents, alumni/ae, and visitors. The general policy will be both printed and electronic formats.
- 5.0** The university shall offer smoking-cessation assistance for students through Student Health Services and for faculty and staff through the Employee Assistance Program. Interested employees should contact the Center for Human Resources.

Tobacco is defined as all tobacco-derived or containing products, including, but not limited to, cigarettes (clove, bidis, kreteks), electronic cigarettes, cigars and cigarillos, hookah smoked products, and oral tobacco (spit and spitless, smokeless, chew, snuff).

Space and Equipment

1.0 Entitlements for Space and Equipment

- 1.1. Instructional program needs and development of faculty potential shall be the criteria for defining entitlements for space and equipment.
- 1.2. These criteria shall be applied (a) in light of current instructional practices that have proven successful and satisfactory to faculty and students and (b) in view of untapped, yet apparent potential of each portion of the faculty for unique and creative endeavors.

- 1.3. Existing formulae not pertinent to the stated criteria shall be used only to define the barest minima of space and equipment to be provided within building programs.
- 1.4. Generally, longer-range plans of new construction shall be favored over frequent and costly programs of converting the function of a physical facility to that of another.

2.0 Faculty Office Space

- 2.1. Issues regarding a faculty member's office space allocation shall be negotiated by the faculty member, department chair or school director, and dean of the college.
- 2.2. When requested, the university shall provide available office space for tenured and probationary faculty on leave.

- 1.7. If a student wishes to forward their official email to a non-San Diego State University email address, or use a third-party email service other than Gmail to manage their official email (e.g., MS Outlook, Mac Mail, etc.) they may do so, but the student shall assume all risks associated with the delivery of these communications. (The University is unable to secure third-party email services. Students should understand that forwarding their email or using a third-party email service other than Gmail presents risks to the security and privacy of this data that SDSU is unable to control.)
- 1.8. The University shall ensure that students are made aware of the Student Official Email Address Use Policy and of their responsibilities under this policy.

2.0 Student Responsibility

- 2.1. It is the responsibility of the student to ensure their official email address is functional and able to receive email from San Diego State University. "Mailbox full," "user unknown" or spam blockers are not acceptable reasons for missing university messages.
- 2.2. Each admitted and matriculated student shall be responsible for checking their official email address in order to stay current with university communications. Students shall be expected to check their official email at least once per day during the academic term, as well as once per week during the three-week periods preceding and following the academic term.

UNIVERSITY POLICIES: Faculty

Academic Freedom

San Diego State University is committed to academic freedom as a core value that underlies its mission of teaching, scholarship and creative activity, and service to the public, our University, and the larger scholarly community. Academic freedom, whether reflected in formal research and publication, teaching, creative activity, or in the exploration of new ideas, benefits the campus community and the world at large and should be defended by faculty, instructional staff, and students.

San Diego State University recognizes that the faculty, working within a system of shared governance, possesses the unique ability to apply professional judgments about the quality of the various kinds of scholarship and teaching undertaken by colleagues. In making these judgments, the faculty relies on a variety of review systems, such as department reviews, editorial boards of scholarly journals, panels constituted to review proposals for funded research, periodic reviews, and student evaluations of teaching.

San Diego State University also seeks to develop in its students a sense of thoughtful independence. To do so, we recognize that students, faculty, and instructional staff must be free within the classroom and through scholarly research, creative activity, and community service to explore the widest possible range of viewpoints. However, San Diego State University also endorses the following portion of the American Council on Education's Statement on Academic Rights and Responsibilities: "The validity of academic ideas, theories, arguments and views should be measured against the intellectual standards of relevant academic and professional disciplines. Application of these intellectual standards does not mean that all ideas have equal merit. The responsibility to judge the merit of competing academic ideas rests with colleges and universities and is determined by reference to the standards of the academic profession."

The development of the sort of thoughtful intelligence that facilitates the generation of new knowledge carries with it a set of responsibilities that apply to faculty, instructional staff, and students alike. These responsibilities are based on shared values such as integrity, fairness, professional and social responsibility, equality of opportunity, confidentiality, honesty and openness, respect for self and others, and freedom and safety. The professional responsibilities of the faculty, instructional staff and the students in carrying out this ideal, as well as procedures to seek redress of grievances, are set forth elsewhere in the University Policy File.

The Senate resolves and reaffirms that SDSU's commitment to the protection of academic freedom, recognizes that academic freedom extends to faculty participation in institutional governance, including faculty statements on university operation and administration; and that the rights and protections of the SDSU Academic Freedom Policy include faculty scholarship, teaching, creative activity, speech and service that faculty engage in while employed at SDSU; and that these protected activities are not subject to "employee-speech" limitations, restrictions and/or sanctions.

Academic Responsibilities

1.0 Instructional Materials

- 1.1. Instructors shall ensure that instructional materials used in or for a course are significantly related to the announced structure and purpose of the course. Giving the audience forewarning of materials that may be deemed offensive shall be optional.
- 1.2. Instructional materials, whatever their source (rental, purchase, private collection, guest lecture), shall be legally acquired and shall include captioning whenever possible.

- 2.0 **Course Syllabi:** The syllabus for each course shall describe the course's purpose, scope, and student learning outcomes. In addition, each syllabus shall include office hours and contact information for the instructor, refer to the current procedure for accommodating students with disabilities (refer to Student Ability Success Center), and describe the course design, required materials, schedule, and grading policies, which may vary by section. A syllabus shall not bind the instructor to specific details, and the instructor shall retain the right to adjust the course design. Major departures from the syllabus, however, especially with regard to student learning outcomes, major assignment due dates and exam dates, and grading policies, shall be made only for compelling reasons.

- 2.1. As a university located on the historic lands of the Kumeyaay Nations, faculty retain the option to include the SDSU Land Acknowledgement statement (the abbreviated or full version) in their syllabus as recognition that SDSU resides on the land of the Kumeyaay, and as an expression of the university's commitment to advancing access, justice, equity, diversity, and inclusion.
- 2.2. Instructors shall provide students with access to their course syllabus at or before the first class meeting. In addition, instructors shall post their syllabus on the official and available course site of the SDSU Canvas learning management system as well as any other course web site routinely accessed by the course students. Any major changes to the course syllabus shall be announced in class, communicated to all students electronically, and incorporated into an updated and posted version of the syllabus.
- 2.3. Departments shall, by the end of the semester, upload their course syllabi in an accessible electronic format to the SDSU Syllabus Collection. Faculty may elect to complete and provide to their department a completed course information template (available from the SDSU Syllabus Collection) in lieu of the official course syllabus.

4.0 Working Personnel Action File

- 4.1. The Working Personnel Action File (WPAF) shall be defined as that file specifically generated for use in an evaluation cycle.
 - 4.1.1. The WPAF shall include (a) required forms and documents, (b) information specifically provided by the employee being evaluated, (c) information provided by faculty members, students, and academic administrators, (d) faculty and administrative evaluation recommendations from the current cycle, and (e) all rebuttal statements and responses.
 - 4.1.2. Materials for evaluation submitted by a faculty employee to the WPAF shall be deemed incorporated by reference in the PAF but may not be physically placed in the file. An index of those materials shall be prepared by the employee at the beginning of the cycle and shall be submitted with the materials.
- 4.2. The WPAF shall be forwarded from the department or school to the dean and shall contain rebuttals and responses to rebuttals made within the department or school. Chairs or directors shall ensure that faculty employees are provided copies of the materials collected or prepared by the department or school and placed in the WPAF.
- 4.3. The dean shall ensure that faculty employees are provided with copies of the materials added to the WPAF by the college.
- 4.4. The WPAF shall be declared closed on a date determined by the Office of Faculty Advancement and Student Success and the Senate Committee on Faculty Affairs. Insertion of material after the date of this declaration shall have the approval of the University Promotions and Tenure Review Panel. Material to be added shall be limited to items that become accessible after the closing date of the file. This material shall be returned to the initial evaluation committee for review, evaluation, and comment before consideration at subsequent stages of review. If during the review process the absence of required evaluation documents is discovered, the WPAF shall be returned to the level at which the requisite documentation should have been provided. These materials shall be provided in a timely manner.
- 4.5. The WPAF shall be incorporated into the PAF after final action has been taken. The WPAF shall no longer exist after the personnel action for which it was created has been concluded.
- 4.6. The department or school peer review committee or the department chair or school director shall be responsible for assisting candidates to prepare files that are complete, containing all information required for review, with items properly identified.

5.0 Written Student Evaluation of Teaching Effectiveness

- 5.1. All course sections taught by faculty employees shall be evaluated by students unless consultation with a college has resulted in an agreement by the dean of the college and the college peer review committee to evaluate fewer sections. In cases where student evaluations are not required for all course sections, sections chosen for evaluation shall be representative of the faculty unit employee's teaching assignment, and shall be jointly determined in consultation between the faculty unit employee being evaluated and his/her department chair or program director. In the event of disagreement, each party shall select 50% of the course sections to be evaluated. The results of these evaluations shall be placed in the faculty unit employee's Personnel Action File. Results of evaluations may be stored in electronic format and incorporated by extension into the Personnel Action File provided that individuals involved in evaluations and personnel recommendations or decisions are provided secure access for these purposes.
 - 5.1.1. For the purpose of clarity and comparability across campus, responses to all quantitative items shall be rated from 1 to 5, with 1 the lowest (worst) and 5 the highest (best). These numbers shall correspond to the following descriptors, in the following order: 1=Poor, 2=Below Average, 3=Average, 4=Good, 5=Excellent. Responses of "not applicable" or "does not apply" shall be placed at the end.
 - 5.1.2. Each form shall contain three common questions that together constitute universal reference points

or common ground across the university's faculty evaluation process. The following common questions shall be the first questions on each form:

- Rate the instructor's overall organization and presentation of the course material.
- Rate the instructor's focus on the student learning outcomes listed in the syllabus.
- Rate the instructor's teaching overall. In addition to these quantitative items, each form shall contain at least three open-ended, qualitative items prompting students to provide written comments. The common open-ended questions shall be:
 - What were the instructor's strengths?
 - In what ways might the instructor improve this course?
 - SDSU is committed to the values of equity, diversity, and inclusion. Please describe whether the instructor created an inclusive learning environment where diverse students, particularly those from marginalized communities, were supported and welcomed?

- 5.1.3. Any additional evaluative items shall be limited in number—no more than 10 additional quantitative items and no more than one additional qualitative item. Additional items shall emphasize criteria that are credibly evaluated by students (such as clarity of instruction, usefulness and timeliness of feedback on assignments and exams, perceived fairness, punctuality and reliability, ability to stimulate student interest, ability to communicate one's subject matter or expertise, and problem-solving ability), rather than criteria that students are not particularly well qualified to judge (such as the instructor's knowledge of the subject matter or teaching methodology).
- 5.1.4. If included on the form, demographic items (such as class standing, major, and so forth) and student self-evaluative items (such as hours spent on the class) should be listed last and clearly distinguished from instructor evaluation items.
- 5.1.5. The evaluation results report shall contain a composite mean of the three common questions as well as an overall average of all quantitative items.
- 5.1.6. Student evaluations collected as part of the regular student evaluation process shall be anonymous and identified only by course number.
- 5.1.7. Student communications or evaluations provided outside of the regular evaluation process shall be identified by name in order to be included in the Personnel Action File.
- 5.1.8. The results of student evaluation of instruction shall be an important element of the evaluation of instruction but not the sole indicator of instructional quality.
- 5.1.9. The results of student evaluations of teaching effectiveness for Contingent Faculty employees shall be included in their periodic evaluations as required.
- 5.1.10. The results of student evaluations of teaching effectiveness for probationary and tenured faculty employees shall be part of the WPAF as required.

- 6.0 When classroom visits are utilized as part of the evaluation process, the faculty member shall be provided a notice of at least 5 days that a classroom visit is to take place. There shall be consultation between the faculty member being evaluated and the individual who visits his/her class(es).

Political Tests for Employment

No one shall be denied employment at San Diego State University on the basis of a political test, whether of belief or association. Fitness to be a member of the faculty shall be determined by professional qualifications judged by one's peers and by one's conduct, not by one's lawful political associations. The university acknowledges but protests the requirement that United States citizens sign an oath of allegiance.

Probationary Faculty, Appointment of

- 1.0** Recommendations regarding probationary appointments shall originate at the department or school. Probationary appointment procedures shall include the following:
 - 1.1. Each department or school shall elect a search committee of at least three tenured or probationary faculty employees for the purpose of reviewing and recommending candidates for probationary appointments.
 - 1.2. Each department or school search committee recommendation report shall be approved by a simple majority of the membership of the committee. An abstention shall count as a negative vote.
- 2.0** Recommendations and decisions concerning appointment shall be based on (a) demonstrated potential for professional competence and (b) a willingness to accept professional responsibilities in developing teaching effectiveness, professional growth, and service to the community and in achieving and maintaining high standards of professional conduct.
- 3.0** The department or school shall recommend for appointment to full-time positions only those candidates who by virtue of their qualifications can be expected to meet reappointment, tenure, and promotion criteria. The department or school may recommend appointment with tenure at the rank of Associate or Professor.
- 4.0** The initial department or school review of a candidate for appointment at the rank of Professor shall be conducted with utmost care and diligence, whether or not the candidate is also being considered for an administrative office. The unit shall not recommend the appointment unless it can document clear advantage to the university in hiring the candidate at this rank. The criteria shall normally be those for promotion to Professor, namely: a cumulative record of excellence in teaching, professional growth and service.
- 5.0** When a person is appointed to the faculty with both instructional and non-instructional responsibilities, the criteria for the evaluation of teaching, professional growth, and service for reappointment and tenure decisions shall be stipulated in the letter of appointment. The criteria shall be established jointly by the department or school and the dean of the college to which the faculty employee is appointed, and shall be approved by the Associate Vice President for Faculty Advancement and Student Success and the Provost. In appointments at the rank of Professor, the provisions of sec. 4.0 also shall apply.
- 6.0** When a person is appointed to the faculty with stipulations that will prevail in later decisions on reappointment, retention, and tenure, the stipulations shall be made to him or her in writing before formal acceptance of the appointment. Dates and times shall be stated; however, no stipulations shall be made that will circumvent established rules and procedures.
- 7.0** Upon the request of a majority of the full time tenured and probationary faculty members of the department or school, the search committee may be asked to reconsider its recommendations.
- 8.0** The department or school appointment committees shall encourage information from non-tenured faculty and from students.
- 9.0** Persons appointed to academic positions at San Diego State University or its auxiliaries shall be judged on their merits. Immediate family members of faculty members (professors, administrators, and librarians) may be considered for academic positions (teaching, administrative, and library). Faculty employees shall neither initiate nor participate in institutional decisions involving a direct benefit (initial appointment, retention, promotion, salary, leave of absence, etc.) to members of their immediate families.
- 10.0** After considering the recommendations of the department or school and the dean of the college, the President shall appoint faculty employees. No faculty employee shall be deemed appointed in the absence of an official written notification from the President or designee.
- 11.0** Official notification to a faculty employee of an appointment shall include the beginning and ending dates of appointment, classification, time base, salary, rank, employee status, assigned department or school, and other conditions of employment.

12.0 Initial probationary appointments and subsequent probationary appointments may be for a period of one or more years.

12.1. Probationary appointments shall normally be made at the Assistant Professor or Senior Assistant Librarian rank. The President may appoint a faculty employee at a higher rank on the determination of merit consistent with the provisions of sec. 4.0.

12.2. The President, upon recommendation of the affected department or school, may grant to a faculty employee at the time of initial appointment to probationary status up to two years' service credit for probation based upon (a) previous service at a postsecondary education institution, (b) previous full-time CSU employment, or (c) comparable experience.

Probationary Faculty, Periodic Evaluation of

1.0 A probationary faculty employee shall receive either a periodic evaluation or a performance review during each year of probation but shall not receive both in the same academic year.

1.1. To be considered for reappointment, promotion, or tenure in an academic year, a faculty employee shall undergo a performance review in that academic year.

1.2. Each school or department shall develop procedures and criteria for periodic evaluations of probationary faculty.

2.0 Probationary faculty shall normally receive a periodic evaluation in the first year of a two-year appointment or in the first and second years of a three-year appointment.

3.0 For those with teaching responsibilities, procedures shall include at least the consideration of student evaluations of teaching performance.

4.0 The probationary faculty employee shall be provided a copy of the written record of the periodic evaluation, and a written record of a periodic evaluation shall be placed in the employee's Personnel Action File.

Professional Activities, External

1.0 San Diego State University shall generally support appropriate consulting and other external professional activities by its professional personnel but it shall not permit such activities that interfere with university duties. Activities that may enhance professional experience and complement campus activities in general should not exceed the equivalent of a 20 percent overload (i.e., one three-unit class).

2.0 Conditions and Criteria

2.1. The university policy on outside professional activities shall apply to tenured and probationary faculty, academic administrators, or professional staff.

2.2. Full-time professional employees shall devote primary effort to their regular university responsibilities, including teaching, research, administration, and university-related community service. They should not undertake professional activities that would interfere with the effective performance of regular university responsibilities and duties.

2.3. Faculty members shall determine the allocation of their time with due regard for the full, proper, and effective performance of regularly assigned university duties. Consulting and other external professional activities should not exceed the equivalent of 20 percent overload. This shall not apply to activities performed while on leave without pay, during the regularly scheduled holidays, or in recess periods. However, it shall apply to faculty members while employed full time by the university during a summer session.

2.4. A member of the faculty, administration, or professional staff shall not accept (a) employment as a consultant or (b) regular and continuing external employment that will conflict with or oppose the interests of the university. One shall not accept consultancies on specific projects wherein the parent company or organization is soliciting business relationships with the university; nor shall one perform services for organizations bidding against the university for contracts or grants. San Diego State University endorses the statement On Preventing

Conflicts of Interest in Government- Sponsored Research at Universities (1964), which identifies potential hazards in consulting relationships and should be referred to in evaluating individual consulting activities.

- 2.5. A teaching or research appointment at another educational institution is an appropriate professional activity when justified by professional returns to the faculty member and the university. When, however, a conflict of interest may arise, the faculty member shall contact the department chair or school director regarding the appropriateness of the proposed teaching or research activity at another institution.
- 2.6. University resources, personnel, and students shall not be used for outside professional activities without prior approval and a formal agreement, including reimbursement procedures.
- 2.7. Faculty, administrators, and professional staff shall not be designated as “consultants” when providing professional services on grants and contracts administered by the San Diego State University Research Foundation. This limitation shall conform to Internal Revenue Service rulings that an established employee relationship shall preclude the possibility of a coincident consultant relationship. Such work may be performed, however, as an overload by a person designated as a “Research Associate” subject to the limitations of the Collective Bargaining Agreement (CBA).
- 2.8. Upon written request directed to a full-time Unit 3 faculty employee by the appropriate administrator, the employee shall provide a written statement of the amount and approximate distribution of time devoted to continuous outside employment during the academic term to which he or she has been appointed. Such requests may be made when the appropriate administrator has determined that such information is necessary to ascertain compliance with the following provision: Outside employment shall not conflict with normal work assignments or satisfactory performance of the duties of the faculty unit employee.
- 2.9. The employee shall not convey any endorsement by the university of his or her consulting and other professional activities. Consulting agreements should stipulate that the University is not a party to the agreement or in any way responsible or liable for the performance or results of the activity. The name of the university and official university stationery shall not be used for external consultancies so to suggest that the activity is part of the employee’s regular university duties.
- 2.10. No employees shall enter into any outside consulting agreement that conflicts with the university’s policy on patents and copyrights.

Professional Responsibilities

- 1.0 This statement of professional responsibilities shall serve as a guide to responsible performance that is consistent with the highest ideals of the academic profession. It is not intended to serve primarily as a reference for disciplinary action. Ordinarily, departures from responsible professional behavior should be corrected by calling the matter to the attention of the person involved and handled within the individual's academic unit. If a breach of professional responsibility is alleged that cannot be, or is not, adequately handled informally within the basic academic unit, the matter should be taken up at the next institutional level. Nothing in this statement shall be construed in such a way as to interfere with or restrict faculty members’ exercise of their academic freedom or basic constitutional rights, including but not restricted to, political activity, freedom of speech, and right to privacy.
- 2.0 The faculty of San Diego State University shall subscribe to the Statement on Professional Ethics (2009) by the American Association of University Professors (<http://www.aaup.org/>).
- 3.0 **Faculty Colleagues:** When there is reason to believe that a faculty colleague has violated standards of professional behavior, faculty members should take the initiative to inquire about or to protest against apparently unethical conduct. Potential risks should not diminish the obligation of faculty members to pursue what they believe to be well-founded concerns of professional wrongdoing by other members of the faculty.
- 4.0 **Plagiarism**
 - 4.1. Plagiarism shall be a serious offense in the academic community, reflecting on the integrity of the perpetrator. Due to degrees of plagiarism, from the inadvertent misplacement of a footnote to the fraudulent use of another’s work to secure personal advancement, a faculty member engaged in cooperative research with fellow faculty

members or with students shall scrupulously ensure that each person's contributions are fully acknowledged and that students are fully aware of the gravity of plagiarism.

- 4.2. For due process, a charge of plagiarism shall not be considered in deliberations for promotion or tenure until such a charge be proven by the disciplinary action process, as defined by the Collective Bargaining Agreement (CBA).
- 4.3. Wherein the above procedures warrant a formal investigation of charges of plagiarism, the disciplinary procedures of the Collective Bargaining Agreement (CBA) shall be followed.
- 4.4. After charges of plagiarism have been resolved through the disciplinary procedures of the Collective Bargaining Agreement (CBA), the charges shall not be introduced in future personnel deliberations. New information related to past charges shall be subject to the provisions of the Collective Bargaining Agreement (CBA).

5.0 Public Assembly: Faculty-sponsored meetings, assemblies, and public, on-campus activities, shall be conducted so as to respect the rights and prerogatives of the members of the academic community. Public address (sound amplification) systems shall be used only if their use does not interfere with classes, study, and other scheduled university activities. Use of such equipment for outdoor faculty-sponsored events held on campus during university hours shall be approved in advance by Student Life and Leadership.

6.0 Additional Areas of Ethical Responsibility: Faculty and other members of the academic community should refer to university administrative policies that provide annual or multi-year assurances to various federal and state agencies concerning ethical responsibilities of faculty and other members of the academic profession when engaging in research activities at the university.

7.0 As members of San Diego State University, professors and other academic professionals shall:

- a) Request a leave of absence or resign their academic position when acute conflicts between the claims of politics, social action, economic interest, and conscience, on the one hand, and expectations of students, colleagues and institution, on the other, preclude the fulfillment of substantial academic obligations.
- b) Use the university logo only in an appropriate manner (see current policy set by the Department of Strategic Communication and Public Affairs).
- c) Not engage in sexual relationships with students currently enrolled in their courses or under their supervision.

Reappointment, Tenure, and Promotion: Criteria (Excluding Library Faculty and Student Affairs Faculty)

- 1.0** The State of California Master Plan for Higher Education designates teaching as the California State University's primary responsibility and recognizes research, scholarship, and creative activity and service as essential to meeting our responsibilities to our students and to the public interest. Accordingly, San Diego State University faculty shall be committed to excellence in teaching and shall conduct research, scholarship, and creative activity because of their intrinsic worth to society, because they may bring additional resources to the campus, and because they enhance and contribute to excellence in teaching. Active participation in service to the university, the profession, and the broader community as public scholars shall be integral to faculty duties because it ensures responsiveness to the needs of our students, to other constituents of the university, and to the public that is served.
- 2.0** Because the university provides access to underrepresented groups as well as traditional groups, the faculty shall be responsive to diverse student populations and needs through teaching, scholarship, research, and/or service, as appropriate, in alignment with department and college diversity plans.
- 3.0** Probationary and tenured faculty shall be evaluated on their achievements and contributions in (a) teaching, (b) research, scholarship, and creative activities, and (c) service activities to the university, the profession, and the community that enhance the mission of the university. In presenting one's work to peer review committees, each candidate shall write a narrative summarizing and, when appropriate, integrating work in these three areas; and explaining how this work contributes to the candidate's continuous development as a member of the faculty. Excellence in teaching shall not substitute for weakness in professional growth, nor shall excellence in professional growth substitute for weakness in teaching.

- 3.1. Teaching Effectiveness¹⁰: The primary qualification for reappointment, tenure, or promotion shall be a demonstration of continuing excellence in teaching. Criteria for evaluating teaching effectiveness may include: command of the subject and currency in the field; skill in organizing and presenting material in ways that engage and motivate diverse student populations to participate in their own learning; ability to foster critical thinking; integration of professional growth into the curriculum; reflection upon and adjustment of teaching strategies in response to assessment of student learning; and use of innovative or creative pedagogies. Evidence for evaluating teaching effectiveness shall include student evaluations of instruction applied in appropriate teaching situations (e.g., classroom teaching, public lectures, seminars, studio, or laboratory teaching). Evidence also may include: peer evaluations of teaching; creative course syllabi with clearly-stated learning outcomes; honors and distinctions received for excellence in teaching; textbooks; development of instructionally related materials, including authoring or adapting Open Educational Resources (OER); use of new technologies in teaching and learning; involving and mentoring students in research, scholarship, or creative activities; significant contributions to curriculum development; and contributions to student recruitment, advising, mentoring, and retention. Where appropriate, faculty are encouraged to contextualize all evidence within a continuing process of reflection and adjustment intended to promote a learner-centered and evidence-based approach to teaching effectiveness.
- 3.2. Professional Growth: A consistent pattern of continuous growth in research, scholarship, or creative activity that is relevant to the discipline or field of study shall be essential to the teaching effectiveness of faculty members, to the body knowledge of the profession, and to the mission and stature of the university. Criteria for evaluating professional growth shall include: significant and sustained contributions of high quality to the field; a well developed, coherent, and focused research plan or artistic vision; originality of thought and creativity; a demonstrated capacity for independent intellectual progress; and innovative contributions to the body of knowledge. Evidence for evaluating professional growth, as identified and defined in department or school and college guidelines, shall comprise: externally reviewed professional growth activities including, as a primary and necessary element, refereed traditional or Open Access (OA) publications of merit (which may include contributions to the scholarship of teaching and learning), or juried or curated exhibitions and performances. In appropriate disciplines, extramural grant funding may be required to support research, but grant funding is not in and of itself sufficient for tenure and/or promotion. Evidence published in OA venues that allow OA archiving of pre or post-print versions or peer-reviewed journals that are entirely OA supports SDSU's responsibilities to the public interest by making quality scholarly work freely accessible. Additional evidence of research, scholarship, and creative activity that supports the primary evidence above may include: presentation of scholarly papers; non-refereed or invited publications, exhibitions, and performances; translation and annotated editions; awards, grants, and honors received; journal or book editing; and leadership of and participation in seminars, workshops, institutes, and competitions. Quality of the evidence may be identified in several ways, appropriate to the various disciplines, and may include: published or unpublished reviews of a candidate's work; external reviews; number of citations for a published work; journal metrics; acceptance rates; stature of journal or book editorial boards; and/or reputation of the traditional or OA journal or publisher in the field. The candidate shall delineate his or her role/contribution in all scholarly works.
- 3.3. Service to the university, the profession, and the community: Service is essential to the excellence of the university. Evidence of service may include appropriately documented activities that apply the faculty member's professional expertise to the benefit of the university and community, such as: student outreach and retention; service to the department or school, college, and university; refereeing or judging for professional journals, grant agencies, and artistic panels; significant committee work; student mentoring; active participation in professional associations; offices in university-associated or relevant community organizations; appropriate governmental boards or commissions; educational lectures; advancement of public or private support for the university; and seminars for community groups. Appropriate service activities are expected for candidates at all levels but shall not replace the requirement for excellence in teaching and professional growth. In rare cases, however, when a tenured candidate distinguishes herself or himself in performing such duties to the significant benefit of the university and/or beyond, and when this performance is appropriately documented over a significant length of time, such service for the university shall have more than the usual bearing on promotion decisions.

¹⁰ The conversion of a course to online modality (for courses that are not normally offered in this modality) due to the COVID-19 pandemic shall be considered evidence of teaching effectiveness.

4.0 Standards for promotion to the rank of Professor shall be demonstrated by a cumulative record of excellence in teaching effectiveness, professional growth, and service beyond that which is required for promotion to Associate Professor. Candidates for promotion to Professor must demonstrate superior contributions to teaching effectiveness, such as devising and/or adopting innovative and effective teaching tools, approaches and curricula, engaging in substantive program assessment, serving on university or professional curriculum committees, and/or receiving recognition for teaching excellence. Candidates for promotion to Professor also shall provide evidence of a strong and coherent program of continuous professional growth that demonstrates their expertise in a particular field or area and impact of their work upon the body of knowledge. A higher level of service and participation in shared governance is expected and more weight shall be given to them for promotion to the rank of Professor.

5.0 Colleges shall provide guidelines specifying how university criteria shall be applied to and interpreted within the college. These guidelines shall not contradict or be inconsistent with the university criteria. Departments and schools shall also provide guidelines specifying how university and college criteria shall be applied to and interpreted in disciplines within a department or school. These guidelines shall not contradict or be inconsistent with the university or college criteria. In the event of conflict between university criteria, college criteria, and any department or school guidelines, or procedures, the university criteria shall govern.

5.1. These guidelines shall include, at a minimum: a) procedures for electing representatives to the college-level RTP committee, b) clearly articulated college level criteria for teaching effectiveness / effectiveness of librarianship, professional growth, and service at each promotion level, c) procedures for how college-level evaluation shall be conducted, d) procedures for how college-level committee members shall vote on each candidate's file, e) procedures for how the college-level committee communicates with the department or school committees, including informing those committees of college-level decisions, when appropriate, and f) procedures for how a candidate files a rebuttal with the college-level committee, per the Collective Bargaining Agreement (15.5).

5.2. Guidelines should also articulate:

- a. The breadth of acceptable work for professional growth that takes into account the diversity of discipline-specific norms across the college departments and schools;
- b. Procedures to ensure that the RTP process is respectful of diverse disciplines and responsive to diverse faculty candidates. Colleges are encouraged to acknowledge and address the ways in which a lack of transparency, implicit bias, cultural taxation, and racialized and / or gendered expectations may adversely impact the faculty evaluation process. Faculty Advancement can advise on current best practices in addition to the training materials already developed;¹¹
- c. How college-level RTP policies and procedures acknowledge that individual departments / schools have the most knowledge of discipline specific criteria, which should be thoroughly documented in their respective policy files;
- d. Policies and procedures for committee composition, chairship, and decision-making;
- e. That college-level RTP Evaluation Procedures specify: guidelines for evaluators (e.g. review must be based on criteria, limited only to candidate's file); what constitutes appropriate validation; guidelines to ensure that RTP committees work independently and respect confidentiality; and guidelines for providing appropriate feedback to candidates (e.g. letters should indicate how candidate has or has not met criteria, letters should be free of personal criticism).

5.3. College-level Academic Policy & Planning (AP&P) Committees (or the equivalent and appropriate committee) shall regularly review their college RTP policies. Regular review of department- and school-level RTP policies shall be conducted by the appropriate college- and/or department-level committees.

5.3.1. The Office of Faculty Advancement and Student Success shall annually hold a workshop and provide

¹¹ Measures to make the process more welcoming to diverse candidates include mentoring of candidates, active promotion by all parties (administration, staff, faculty) of transparency and openness around policies, procedures, and committee membership, elimination of excessive or redundant procedural elements that may burden candidates or create an unwelcoming experience of the process, and adherence to National Science Foundation ADVANCE program research-supported guidelines for mitigation of implicit bias in evaluations, including appointing an equity monitor in committee discussions and evaluating candidates on an inclusive rather than exclusive basis. For a discussion of these guidelines, please see the Faculty Advancement RTP Committee Training video: <https://youtu.be/6t3WqwIfZ8M>.

resources (including sample policies) to assist in the regular review and updating of RTP policies.

- 6.0 The entire professional record of the candidate shall be considered, including accomplishments prior to appointment at this university. Work developed or sustained while serving at this university shall be essential to the award of tenure and/or promotion.
- 7.0 Achievements shall be supported by evidence as specified above. Candidates may list all achievements in a curriculum vitae. Candidates shall present in their Personnel Data Summary (PDS) a limited listing and discussion of no more than five of their important achievements in each of the three categories. In each narrative, as appropriate, candidates shall discuss how they further the goals of their department and/or college of providing an equitable education to all students and creating an inclusive community of scholars.
- 8.0 In extraordinary times when the campus community is impacted by an emergency that would impact the typical career (e.g., natural disaster, significant campus disruption, and similar events), as determined by the President, for faculty candidates seeking reappointment, tenure, or promotion, evaluators and committees shall both apply published criteria and extend special consideration for the impacts of the emergency on the candidate's professional trajectory. Candidates shall be allowed to provide in their personnel data summary a statement of the impacts of the emergency on their work (including additional family responsibilities) and describe their efforts to adjust and adapt their teaching, professional growth, and service. Committees and evaluators shall in their recommendations assess whether on the basis of the information provided in the WPAF the candidate's trajectory would under normal circumstances meet expectations for reappointment, tenure, and promotion.

Furthermore, the faculty member shall accept the high standards of professional conduct in these three categories. The results of student evaluations of instruction shall be important in evaluating instruction but not the sole indicator of instructional quality.
- 2.2. The department or school shall use the probationary period for evaluation of the new faculty member. Each probationary faculty employee shall be evaluated annually according to procedures determined by the tenured members of the unit in accordance with the established criteria. The chair or director shall promptly inform the faculty member in writing regarding strengths, weaknesses, and prospects for a future career in the unit as indicated by the evaluation.

- 2.4.4. The documents shall indicate the actual relative weights that are to be assigned to teaching effectiveness, professional growth, and university service, and of the various ways in which these may be evidenced.
- 2.4.5. The documents shall specify guidelines regarding procedures or criteria detailed by university and college regulations. These shall be clearly referenced and may be included verbatim. These guidelines shall not contradict or be inconsistent with the university criteria. In the event of conflict between university criteria and any department, school, or college guidelines, criteria, or procedures, the university criteria shall govern.
- 2.5. Evaluation criteria and procedures shall be made available to the faculty member no later than 14 days after the first day of instruction of the academic term and to the evaluation committee and the academic administrators before the formal evaluation begins. Once the evaluation has begun, there shall be no changes in evaluation criteria or procedures.

The WPAF format for the current evaluation cycle must be used. An index of the One-of-a-Kind file is required. The WPAF shall be submitted to the department or school peer review committee no later than the date established by the Office of Faculty Advancement and Student Success. Evaluating committees and administrators shall be responsible for identifying and providing materials relating to evaluation not provided by the faculty employee.

- 3.4. Departments, schools, and colleges shall adhere as closely as possible to the format for reappointment, tenure, and promotion materials that shall be distributed before the beginning of the academic year by the Associate Vice President for Faculty Advancement and Student Success. Peer review committees and faculty may annually forward requests for revision of the PDS format to the Associate Vice President for Faculty Advancement and Student Success or to the Committee on Faculty Affairs.
- 3.5. The supporting documentation considered by a department or school peer review committee and forwarded to the college committee shall include (a) one copy of all verbatim student comments for the six most recent semesters in which each candidate taught (fewer than six semesters may be provided if the candidate has been on campus for fewer than six semesters), (b) peer evaluations of teaching available, (c) one copy of all tangible evidence of teaching, professional growth, and service specified in the PDS, and (d) previous letters of review by committees and administrators.
- 3.6. At the conclusion of the reappointment, tenure, and promotion process, the One-of-a-Kind file shall be returned to the candidate. A copy of the PDS and of all recommendations shall be placed in the official personnel file.

The University Promotion and Tenure Review Panel shall constitute the university level, with the final decision being made by the President or designee on behalf of the university.
- 4.1.3. The Office of Faculty Advancement and Student Success shall announce a schedule including dates by which members of the department or school peer review committee, the college peer review committee, and the University Promotion and Tenure Review Panel shall be elected.
- 4.1.4. Each evaluating committee or administrator shall review the WPAF and send its recommendation to the faculty employee according to the published time lines.
- 4.1.5. At all levels of review, the reviewing committee or individual shall use proper letter of recommendation format including a response/rebuttal date and copy notations. Before recommendations are forwarded to a subsequent review level, faculty employees shall be given a copy of the recommendation and the written reasons therefore. A faculty employee may rebut or respond in writing or may request a meeting to discuss the recommendation within ten days following receipt of the recommendation. A faculty employee submitting a response or rebuttal must include a completed response/rebuttal form. Attachments are not allowed. Only the faculty employee is allowed to submit a response or rebuttal. Departments/schools and colleges shall have procedures in place for processing responses/rebuttals. A copy of the response or rebuttal shall accompany the PDS and shall be sent to the previous levels of review. Evaluation time lines shall not be extended to accommodate the rebuttal process.
- 4.1.6. A request for external review of materials submitted by a faculty member may be initiated at any level of review by any party to the review. Such a request shall document (a) the special circumstances that necessitate an external reviewer and (b) the nature of materials needing the evaluation of an external reviewer. The President shall approve the request with the concurrence of the faculty member. At the department, school, or college level, the President's designee shall be the dean. At the level of the university Promotions and Tenure Review Panel or of the President, the Associate Vice President for Faculty Advancement and Student Success shall be the President's designee.

4.2. Formation and Composition of Peer Review Committees

- 4.2.1. For reappointment and tenure consideration, committee members must be tenured faculty employees of any rank.
- 4.2.2. In promotion considerations, peer review committee members shall have higher ranks than those being considered for promotion. Faculty employees being considered for promotion shall be ineligible for service on promotion or tenure review committees. An eligible faculty member who withdraws from promotion consideration may serve on a peer review committee.
- 4.2.3. Faculty members may serve on more than one committee as long as they do not review the same faculty employee at more than one level of peer review in one academic year.
- 4.2.4. A department chair or school director who makes a separate recommendation shall not participate as a member of the departmental peer review committee, but may serve as an external member of another department or college committee.
- 4.2.5. Members of a committee making personnel decisions shall regard all matters brought before the committee and all deliberations of the committee as confidential except as disclosure is permitted or required by other sections of the Policy File or by law.

4.3. Departments and Schools

- 4.3.1. The probationary and tenured faculty employees of the department or school shall elect a peer review committee of tenured faculty employees that shall operate in accordance with written procedures consistent with college procedures to review and recommend faculty employees being considered for retention, tenure, or promotion. Each peer review committee evaluation report and recommendation shall be approved by a simple majority of the committee members.
- 4.3.2. When there are insufficient eligible members to serve on the peer review committee, the department shall elect members from related academic disciplines.
- 4.3.3. Excluding those who sit on peer review committees or who are candidates for promotion, each department chair or school director shall submit an independent recommendation regarding candidates for promotion.
- 4.3.4. When the response/rebuttal date to the department or school peer review committee and department chair or school director has passed, the letters of recommendation, along with the response/rebuttal and forms from the candidate shall be added to the PDS before the WPAF is forwarded to the college level of review. The WPAF shall be forwarded to the next level of review in a timely manner. The evaluation timelines shall not be extended to accommodate the rebuttal process. College committees shall examine each candidate's supporting documentation to ensure that departments and schools have forwarded the necessary materials.
- 4.3.5. Favorable and unfavorable recommendations for tenure or reappointment shall be fully justified according to established criteria. This justification shall include (a) copies of annual letters to the candidate pointing out the strengths, weaknesses, and prospects for a future career in the department or school, (b) evidence that department or school expectations were made clear to the candidate at the time of appointment, and (c) all other relevant supporting documentation.

4.4. Colleges

- 4.4.1. Each college shall establish a peer review committee for reappointment, tenure, and promotions by vote of probationary and tenured faculty employees within the college.
- 4.4.2. If recommendations for reappointment are positive from all levels, the college level of review shall forward the recommendations directly to the President or designee who shall review and consider the materials submitted.
- 4.4.3. College peer review committees shall establish and operate under written procedures ratified by the electorate of the college eligible to vote in Senate elections. A majority of those voting shall ratify the written procedures.
- 4.4.4. The college committee considering a recommendation on promotion different from a department or school committee may proceed only after submitting to that committee notification in writing including the candidate's name, the tentative recommendation by the college committee, and the area of concern if the tentative recommendation by the college committee is negative. The college committee should offer to meet with the department or school committee before making a final recommendation.
- 4.4.5. If any administrators other than the Deans are involved in the review and recommendation of candidates at the Dean level, their names shall also be included on the letter of recommendation.

4.5. University

- 4.5.1. The University Promotions and Tenure Review Panel shall consist of one tenured faculty employee with the rank of Professor from each college who has served on the college RTP committee. Members of the University Panel may serve unlimited non-consecutive two-year terms. Terms will be staggered to assure sufficient overlap of membership. A term may be extended one year if necessary to achieve this overlap. Each college shall elect one member by majority of vote, and the procedures shall include

participation by probationary and tenured faculty employees in the college. The elected member shall be chosen by a date established by the Office of Faculty Advancement and Student Success. The University Panel shall elect every year one of its members as chair. The chair shall be a voting member and be allowed to serve as chair for a maximum of two consecutive years.

- 4.5.2. All recommendations regarding reappointment (except as specified in sec. 4.42) and tenure shall be reviewed by the University Promotions and Tenure Review Panel before the notification dates for probationary academic employees. Candidates for reappointment, tenure, and promotion shall be evaluated according to established criteria.
- 4.5.3. The University Promotions and Tenure Review Panel shall review WPAF's of all faculty employees who have received one or more negative recommendations for reappointment.
- 4.5.4. The Panel shall review all recommended promotions from each college to ensure equity throughout the university. Candidates who received all negative recommendations for promotion at the department and college level must write a letter of appeal to the Panel within seven days of receipt of the recommendation or the process stops and the WPAF is returned to the candidate.
- 4.5.5. The Panel shall make its recommendations based on individual merit by established criteria, together with the documentation and without regard for balancing among colleges. The Panel may recommend for promotion as many faculty members as it judges qualified.
- 4.5.6. When considering a recommendation on promotion different from a college committee's, the Panel may proceed only after submitting to that committee in writing including the candidate's name, the tentative recommendation by the Panel, and the area of concern if the tentative recommendation by the Panel is negative. The Panel should offer to meet with the college committee before making a final recommendation.
- 4.5.7. When the response/rebuttal date to the Panel has passed, the letters of recommendation, along with the response/rebuttal and forms from the candidate, shall be added to the PDS before the WPAF is forwarded to the President or designee for the final decision. The WPAF shall be forwarded in a timely manner to the next level of review. Evaluation time lines shall not be extended to accommodate the rebuttal process.
- 4.5.8. After the recommendation from the Panel is received, if the President's or designee's examination of the case leads to a preliminary decision different from the Panel's, the President or designee shall meet with the Panel to provide an opportunity for the Panel to inform the President or designee more fully of the evidence and considerations upon which its recommendation was based and to hear the President's or designee's response.

5.0 Notification

- 5.1. Each faculty employee not promoted by the President or designee shall be informed by the President or designee of his or her reasons for non-recommendation.
- 5.2. The President or designee shall send the final decision to faculty employees according to the published timeline. Official notification to a probationary faculty employee of a terminal year appointment shall indicate that the faculty employee has no further appointment rights. Terminal year appointments shall be limited to probationary faculty who have served a minimum of three (3) years of probation. If tenure is awarded, it is effective at the beginning of the academic year succeeding the year in which tenure is awarded. The decision of the President or designee is final.
- 5.3. Probationary academic employees shall be notified in writing concerning decisions on reappointment, tenure, or termination according to the following schedule:
 - 5.3.1. No later than February 15 of the first and second full-time probationary year if the employee is to be (a) terminated at the end of that academic year or (b) reappointed to an additional probationary year. If the reappointment is for an additional probationary year and the probationary academic employee requests or is recommended for tenure, the tenure decision for this employee shall be made at the same

time as the tenure decisions for third or subsequent year probationary academic employees.

- 5.3.2. No later than June 1 of the third year or subsequent full-time probationary year if the employee is to be (a) reappointed to a terminal year, (b) reappointed to an additional probationary year, or (c) reappointed with tenure.
- 5.3.3. After all recommendations are complete and the President or designee has arrived at a decision, the President or designee shall inform in writing no later than June 1 the eligible faculty employees selected for promotion. The President or designee also shall inform in writing no later than June 1 the candidates not selected for promotion.
- 5.4. Failure to notify a probationary faculty employee by the notice date shall not constitute automatic reappointment or tenure. Both reappointment and tenure shall come only from notification from the President of the university or designee. The employee who does not receive notification of the decision by the notice date shall request a decision from the President or designee.

Reappointment, Tenure, and Promotion of Librarians: Criteria

- 1.0 The Library at San Diego State University shall be the main intellectual resource that supports the university's teaching, research, and service. Library faculty shall be committed to excellence in library service. Professional research, scholarship, and creative activity that complement and strengthen library service shall be valued highly by the library faculty. Contribution to the mission of the Library through active participation in service for San Diego State University shall be considered integral to the duties of library faculty.
- 2.0 In order to provide access to information for all clientele, librarians shall be sensitive and responsive to the university's diversity in culture, language, and ethnicity shall be responsive to diverse student populations and needs through their library service librarianship, scholarship, and research, and/or service, as appropriate, in alignment with unit diversity plans. In presenting one's work to peer review committees, each candidate shall write a narrative summarizing, and when appropriate, integrating, work in all three areas.
 - 2.1. Effectiveness of Librarianship: The primary qualification for reappointment, tenure, or promotion for library faculty shall be excellence in library service. Effectiveness of librarianship shall be measured by the expertise demonstrated in assigned areas of responsibility, including but not limited to the following: reference service or cataloging skills; knowledge of a subject and its bibliographical resources; library instructional abilities; knowledge and skill in utilizing automation or electronic media in libraries; effective managerial skills; insight and sensitivity to diverse student populations; intellectual integrity; critical thinking; and integration of professional growth. Effectiveness of librarianship shall be evaluated by peer observation supplemented by student evaluations or other forms of review, and evidence of effectiveness may include honors and distinctions received for excellence in librarianship, contributions to the campus instructional program, research assistance, and support of a diverse student population.
 - 2.2. Professional Growth: Continuous growth in librarianship, professional research, scholarship, or creative activity that complements and strengthens one's ability to carry out library service shall be essential to the effectiveness of library faculty employees, to their own professional stature, and the stature of the university. Evidence of this growth shall include publications of merit; presentation of professional papers; awards, grants, and honors received; active participation in professional organizations; participation in workshops and on panels; library applications research; creative activities that substantially improve or expand library service; and pertinent travel and study. example: student outreach and retention; department, library, and university committees; student mentoring, offices in university-associated or relevant community organizations, and library related lectures and seminars for community groups. When a candidate distinguishes himself or herself in performing such duties to the significant benefit of the university and when this performance is appropriately documented over a significant length of time, such service for the university shall have more than the usual bearing on reappointment, tenure, and promotion decisions. However, the primary criterion shall be effectiveness of librarianship, and professional growth shall be an important consideration.

- 3.0 There shall be three tenure-track librarian ranks: Senior Assistant Librarian, Associate Librarian, and Librarian. A probationary library faculty member shall not be promoted beyond the rank of Associate Librarian. Standards for promotion shall be higher at each higher rank. Librarians being considered for promotion shall not serve on promotion or tenure committees. For promotion considerations, committee members shall have a higher rank or classification than those being considered.
- 4.0 Candidates may list all achievements in a curriculum vitae. Candidates shall present in their Personnel Data Summary (PDS) a limited listing and discussion of no more than five of their important achievements in each of the three categories and should support the achievements by documentation. However the primary criterion is effectiveness of counseling/programming with professional growth an important consideration.

- 3.0 There shall be three tenure track counselor ranks, SSP-AR I, SSP-AR II, and SSP-AR III. Standards for promotion shall be higher at each higher rank. - 5.0 The entire professional record of the candidate shall be considered.
- 6.0 The counseling faculty shall adhere as closely as possible to the format for reappointment, tenure, and promotion materials that shall be distributed before the beginning of the academic year by the Associate Vice President for Faculty Advancement and Student Success or to the Committee on Faculty Affairs.
- 7.0 The supporting documentation considered by the Counseling Faculty peer review committee shall include (a) available student evaluations, if applicable (b) one copy of all tangible evidence of professional growth specified in the PDS, and (c) previous letters of review by committees and administrators.

Tenure-Track Planning

- 1.0 History of Tenure: When colleges and universities were initially established, they were designed for the elite, specifically elite Euroamerica males¹², and faculty were from that same privileged group. All faculty were hired as contingent faculty through the early twentieth century. During the 1920-40s, and as middle-class men had access to higher education and as labor movements grew more and more successful across the country, tenure was established in order to recruit and retain faculty. It was initially established as a right, with faculty achieving it after being employed for a certain length of time. This changed after the civil rights movement, which opened more access to diverse people and women in colleges and universities. In the 1970s tenure shifted to being a privilege that was conferred upon specific individuals and complex structures were established that served to maintain the status quo of white male privilege. Currently, the numbers of tenured and tenure-track faculty are dwindling across the country, in part because of these privileges, the changing demographics of the country, and shifting access and equity issues. Higher education continues to become more elite, even though the majority of courses on campus are being taught by contingent full- and part-time lecturers and teaching assistants. The American Association of University Professors (AAUP) affirms the importance of tenure in its 1940 Statement of Principles on Academic Freedom and Tenure, and affirms the need to increase tenure-stream hiring while also improving conditions for contingent faculty¹³.
- 2.0 The university shall adopt a specific planning goal to establish the proportion of probationary and tenured faculty to 85 percent of the total of the university's full-time equivalent faculty (FTEF). Each college shall formally examine its philosophy, mission, and pedagogies in relation to this proportion.
- 3.0 To meet this goal the university shall need to (a) refill the tenure-track positions that become vacant through retirements, resignations, terminations, and deaths, and (b) strive to maintain the percent proportion articulated above in 2.0.
 - 3.1. With the growth of contingent faculty nationally, which disproportionately and adversely impacts faculty of color and female-identified faculty, the university has an ethical responsibility to create pathways for contingent faculty positions to convert into tenure-track positions whenever possible. There are multiple possible pathways, including prioritizing contingent faculty candidates in tenure-track searches, converting contingent faculty to tenure-track lines, and ensuring that the university does not exceed the recommended total percentage of

contingent faculty appointments in any department.

- 3.2. As an additional equity measure, the university should pursue longer contracts for contingent faculty whenever possible and as allowed by the collective bargaining agreement. Barriers to contract renewal should be eliminated, and the renewal process should be fair, equitable, and transparent for all contingent faculty.
- 4.0 This tenure-track renewal initiative shall become the university's highest fiscal priority.
- 5.0 The allocation of tenure-track positions shall be tied to programmatic planning by departments, schools, programs, and colleges, aligned with Building on Inclusive Excellence (BIE) criteria. Diversity, Equity and Inclusion (DEI) must be a factor of consideration.
- 6.0 After appropriate consultation with the Tenure-Track Planning Committee, the Provost shall determine and communicate to the university a policy concerning allocation of new and vacated tenure-track positions in a timely manner that aligns with the competitive nature of tenure-track searches across the country.

Tenured Faculty, Periodic Evaluation of

- 1.0 Every five or fewer years, tenured faculty employees not subject to a performance review for promotion shall be evaluated according to department or school procedures and criteria.
- 2.0 The periodic evaluations shall be conducted by a peer review committee of the department or school and by the dean of the college or designee.
- 3.0 For employees with teaching responsibilities, the procedures shall include but should not be limited to consideration of student evaluations of teaching performance in at least two courses for each year of the evaluation period. The courses shall typify the employee's teaching responsibilities. In the event of disagreement regarding the selection of courses, the employee and department chair or school director shall each select 50 percent of the courses.
- 4.0 A tenured faculty employee shall be provided a copy of the peer committee report of the periodic evaluation. The peer review committee chair or the dean of the college or designee shall meet with the tenured faculty member to discuss strengths and weaknesses and to suggest any improvement. A copy of the peer committee's and the dean's or designee's reports shall be placed in the employee's Personnel Action File.
